## MAINTENANCE

To ensure the longevity and optimal performance of your car multimedia player, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **Temperature:** Do not expose the unit to extreme temperatures, either hot or cold, for extended periods.
- **Connections:** Periodically check all wiring connections to ensure they are secure and free from corrosion.

- **Software Updates:** Check the manufacturer's website for any available software or firmware updates to improve performance and add new features.

## TROUBLESHOOTING

If you encounter issues with your device, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Loose power connection, blown fuse	Check power wiring. Inspect and replace fuse if necessary.
No sound	Volume too low, incorrect source, speaker wiring issue	Increase volume. Select correct audio source. Check speaker connections.
Bluetooth not connecting	Bluetooth off, device not in pairing mode, interference	Ensure Bluetooth is on for both devices. Put unit in pairing mode. Move closer to the unit.
Mirror Link not working	Incorrect USB cable, USB debugging not enabled (Android), "Trust" not confirmed (iOS)	Use original data cable. Enable USB debugging. Confirm "Trust" on iOS device.
Poor FM reception	Antenna not connected, weak signal	Check antenna connection. Try tuning to a stronger station or relocate the vehicle.

If the problem persists after trying these solutions, please contact customer support.
