

G-Wolves G-Wolves Skoll SKL

G-Wolves Skoll SKL 2020 Edition Wired RGB Gaming Mouse Instruction Manual

Model: G-Wolves Skoll SKL | Brand: G-Wolves

INTRODUCTION

Thank you for choosing the G-Wolves Skoll SKL 2020 Edition Wired RGB Gaming Mouse. This manual provides essential information for setting up, operating, and maintaining your new gaming mouse. Designed for performance and comfort, the Skoll SKL features an ultra-lightweight honeycomb design, a high-precision sensor, and customizable RGB lighting to enhance your gaming experience.

PRODUCT FEATURES

- **65g Ultra Lightweight Design:** Honeycomb exterior for reduced weight and enhanced airflow.
- **Pixart 3360 Gaming Sensor:** Maximum resolution up to 12000 DPI for precise tracking.
- **High Performance:** Max. acceleration: 50G, Max Speed 250 IPS.
- **New White PTFE Skates:** Ensures ultra-smooth gliding across surfaces.
- **Ultra Lightweight Paracord Cable:** Designed to reduce drag for unrestricted movement.
- **Customizable RGB Lighting:** Personalize your mouse with various lighting effects via software.
- **5 Onboard Memory Profiles:** Save your preferred settings directly to the mouse.
- **Matte Coating:** Provides a comfortable and secure grip.
- **Extra Accessories:** Includes an extra paracord cable and additional PTFE mouse skates for longevity.

SETUP

1. **Connect the Mouse:** Plug the USB connector of the G-Wolves Skoll SKL mouse into an available USB port on your computer.
2. **Driver Installation:** Your operating system should automatically detect and install the necessary drivers. This may take a few moments.
3. **Install Software (Optional):** For full customization of DPI settings, RGB lighting, and programmable buttons, download and install the official G-Wolves software from the manufacturer's website.
4. **Placement:** Place the mouse on a clean, flat surface or a gaming mouse pad for optimal performance.

OPERATING INSTRUCTIONS

DPI Adjustment

The G-Wolves Skoll SKL features a Pixart 3360 sensor with adjustable DPI up to 12000. You can cycle through preset DPI levels using the dedicated DPI button, typically located near the scroll wheel. For fine-tuning and custom DPI steps, use the G-Wolves software.

Programmable Buttons

The mouse is equipped with 5 onboard memory profiles, allowing you to customize button functions and macros using the G-Wolves software. Refer to the software's user interface for detailed instructions on button assignment and profile management.

RGB Lighting Control

The RGB lighting can be customized through the G-Wolves software. You can select various lighting effects, colors, and brightness levels to match your gaming setup or personal preference.

MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the mouse surface. Avoid using harsh chemicals or abrasive materials. For the honeycomb design, a soft brush can help remove dust.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the paracord cable to prevent damage.
- **PTFE Skates:** The mouse comes with durable PTFE skates. If they show signs of wear, you can replace them with the extra set provided in the package. Carefully peel off the old skates and apply the new ones, ensuring the surface is clean.

TROUBLESHOOTING

- **Mouse Not Responding:**
 - Ensure the USB cable is securely plugged into a working USB port.
 - Try plugging the mouse into a different USB port or another computer to rule out port issues.
 - Restart your computer.
- **Inaccurate Tracking:**
 - Clean the optical sensor on the underside of the mouse.
 - Ensure the mouse is used on a clean, uniform surface.
 - Check DPI settings in the G-Wolves software; adjust if necessary.
- **RGB Lighting Not Working:**
 - Verify that the G-Wolves software is running and lighting settings are correctly configured.
 - Ensure the mouse is properly connected to your computer.
- **Buttons Not Functioning:**
 - Check button assignments in the G-Wolves software.
 - Ensure no other software is conflicting with mouse button functions.
