SETUP GUIDE

1. Placement

- **Soundbar:** Place the soundbar centrally below your television. Ensure there are no obstructions in front of the soundbar for optimal audio projection.
- **Subwoofer:** Position the subwoofer on the floor, preferably in a corner or near a wall, to enhance bass response.
- **Satellite Speakers:** Place the two satellite speakers behind your listening position, one on the left and one on the right, to create an immersive surround sound experience.

Cinematic Audio At Home

Image: Recommended speaker placement for a cinematic audio experience, showing the soundbar in front, subwoofer to the side, and satellite speakers at the rear.

2. Wall Mounting (Optional)

The soundbar can be wall-mounted using the provided brackets and fasteners. Ensure the wall can support the weight of the soundbar and use appropriate tools for installation.

1. Mark the desired mounting points on the wall using the wall mount bracket as a template.
2. Drill holes at the marked positions.
3. Insert wall plugs (if necessary) and secure the wall mount brackets with screws.
4. Carefully attach the soundbar to the mounted brackets.

Image: The soundbar positioned below a television, with an icon indicating its wall-mountable design.

3. Connections

Connect the soundbar and subwoofer to a power outlet. Connect your audio source (TV, media player, etc.) to the soundbar using one of the available input options.

Multi-Connectivity

OPERATING INSTRUCTIONS

Power On/Off

- Press the **Power** button on the remote control or the soundbar to turn the unit on or off.

Input Source Selection

- Press the **Input** or **Source** button on the remote control to cycle through available input modes: HDMI (ARC), Optical, AUX, USB, and Bluetooth. The selected mode will be displayed on the LED screen.

Volume Control

- Use the **Volume +** and **Volume -** buttons on the remote control or the soundbar to adjust the master volume.

Bluetooth Pairing

1. Switch the soundbar to Bluetooth mode. The LED display will show "BT" and flash, indicating it's in pairing mode.
2. Enable Bluetooth on your mobile device or computer and search for "ZEB-JUKE BAR 9400 PRO".
3. Select the device to pair. Once connected, the "BT" indicator will stop flashing.

USB Playback

- Insert a USB drive (up to 32GB) into the USB port. The soundbar will automatically switch to USB mode and begin playback of supported audio files.
- Use the **Play**/**Pause**, **Next**, and **Previous** buttons on the remote control to manage playback.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the soundbar, subwoofer, and satellite speakers. Do not use liquid cleaners or abrasive materials.
- **Ventilation:** Ensure that the ventilation openings on the subwoofer are not blocked to prevent overheating.
- **Storage:** If storing the unit for an extended period, disconnect it from the power supply and store it in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet not active	Ensure power cable is securely connected. Check power outlet with another device.
No sound	Incorrect input source; Volume too low; Mute function active; Cables not connected properly	Select the correct input source. Increase volume. Deactivate mute. Check all audio cables are securely connected.
Bluetooth pairing fails	Soundbar not in pairing mode; Device too far; Interference	Ensure soundbar is in BT pairing mode (flashing "BT"). Move device closer. Avoid strong electromagnetic interference.
Remote control not working	Batteries depleted; Obstruction between remote and soundbar	Replace batteries. Ensure clear line of sight to the soundbar's IR receiver.
