VEVOR Electric Commercial Automatic Orange Juicer

INSTRUCTION MANUAL

1. Introduction

Thank you for choosing the VEVOR Electric Commercial Automatic Orange Juicer. This manual provides essential information for the safe operation, maintenance, and troubleshooting of your new juicer. Please read these instructions thoroughly before initial use to ensure proper function and to prevent damage to the appliance or injury to yourself.

2. Important Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before operating the juicer.
- Ensure the power supply voltage matches the specifications on the appliance label.
- Do not immerse the motor unit, cord, or plug in water or other liquids.
- Unplug from the outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Keep hands and utensils away from moving parts during operation to prevent injury.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Use only attachments recommended or sold by the manufacturer.
- Do not use outdoors.
- Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.

3. Package Contents

Please check the package contents upon receipt. If any items are missing or damaged, contact VEVOR customer service.

- VEVOR Electric Commercial Automatic Orange Juicer (Main Unit)
- Pulp Collector
- Juice Collector
- Peeling Blades (Set)
- Instruction Manual

4. Setup

Follow these steps to set up your juicer before first use.

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Initial Cleaning:** Before first use, wash all removable parts (pulp collector, juice collector, peeling blades) with warm, soapy water. Rinse thoroughly and dry completely. Wipe the main unit with a damp cloth.
3. **Placement:** Place the juicer on a stable, flat, and dry surface. Ensure there is adequate ventilation around the unit. Keep it away from heat sources and direct sunlight.
4. **Assembly:**
    - Insert the peeling blades into their designated slots on the main unit. Ensure they are securely fastened.
    - Position the pulp collector and juice collector beneath the respective outlets.
    - Ensure all covers and safety locks are correctly engaged. The machine will not operate if safety mechanisms are not properly aligned.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.

5. Operating Instructions

This section details how to operate your VEVOR Electric Commercial Automatic Orange Juicer.

1. **Fruit Preparation:** Select fresh, ripe oranges or lemons. Wash the fruit thoroughly. The juicer is designed to process whole fruits, but for optimal results, ensure fruits are not excessively large or small for the feeding chute.
2. **Loading Fruit:** Place the prepared fruit into the top feeding chute. Do not overfill the chute.
3. **Starting the Juicer:** Press the 'ON' button to start the machine. The juicer will automatically feed the fruit, cut it, extract the juice, and separate the pulp and peels.
4. **Juice Collection:** Fresh juice will flow into the juice collector. The pulp and peels will be deposited into the pulp collector.
5. **Continuous Operation:** You can continuously add fruit to the feeding chute during operation. Monitor the juice and pulp collectors and empty them as needed to prevent overflow.
6. **Stopping the Juicer:** When finished juicing, press the 'OFF' button. Unplug the machine from the power outlet.

Note: For best results, use fruits that are firm but not hard. Avoid fruits with damaged or overly soft spots.

6. Maintenance and Cleaning

Regular cleaning and maintenance will ensure the longevity and optimal performance of your juicer.

1. **Power Off and Unplug:** Always turn off the juicer and unplug it from the power outlet before cleaning or performing any maintenance.
2. **Disassembly:** Carefully disassemble all removable parts: pulp collector, juice collector, and peeling blades.

3. **Cleaning Removable Parts:** Wash these parts immediately after use with warm, soapy water to prevent pulp and juice residue from drying and hardening. Use a brush if necessary to remove stubborn residue. Rinse thoroughly under running water.
4. **Cleaning Main Unit:** Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or scourers. Never immerse the main unit in water or any other liquid.
5. **Drying:** Ensure all parts are completely dry before reassembling or storing the juicer. Air drying is recommended.
6. **Storage:** Store the assembled juicer in a clean, dry place, away from direct sunlight and extreme temperatures.

7. Troubleshooting

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Juicer does not start.	Not plugged in; power switch off; safety lock not engaged.	Check power cord connection; ensure power switch is ON; verify all parts are correctly assembled and safety locks are engaged.
Low juice yield.	Fruit not fresh or ripe; peeling blades dull or clogged.	Use fresh, ripe fruit; clean peeling blades thoroughly; inspect blades for wear.
Excessive vibration or noise.	Improper assembly; unstable surface; foreign object.	Ensure all parts are correctly assembled; place on a stable, flat surface; check for any obstructions.
Motor stops during operation.	Overload protection activated; overheating.	Turn off and unplug the juicer. Remove excess fruit. Allow the motor to cool down for 15-30 minutes before restarting.

If the problem persists after attempting these solutions, please contact VEVOR customer support.

8. Specifications

- **Model:** B08B6QC598
- **Brand:** VEVOR
- **Type:** Electric Commercial Automatic Orange Juicer
- **Power Supply:** [Voltage/Frequency, e.g., 110V/60Hz or 220V/50Hz] *(Specific voltage not provided in input, refer to product label)*
- **Power:** [Wattage, e.g., 120W] *(Specific wattage not provided in input, refer to product label)*
- **Material:** [e.g., Stainless Steel, Food-grade Plastic] *(Specific material not provided in input)*
- **Dimensions:** [Length x Width x Height] *(Specific dimensions not provided in input)*
- **Weight:** [Weight in kg/lbs] *(Specific weight not provided in input)*

9. Warranty and Support

VEVOR products are designed and manufactured to high-quality standards. This product is covered by a limited warranty from the date of purchase. Please refer to the warranty card included with your product for specific terms and conditions.

For technical support, replacement parts, or warranty claims, please contact VEVOR customer service through the official website or the contact information provided in your product packaging. When contacting support, please have your product model number (B08B6QC598) and purchase date readily available.
