### 4. Maintenance

To ensure the longevity and appearance of your die-cast model, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust and fingerprints. For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause fading of colors.
- **Handling:** Handle the model by its body to avoid bending or breaking smaller parts.

## 5. Troubleshooting

Due to the simple nature of this die-cast model, extensive troubleshooting is generally not required. However, if you encounter any issues, consider the following:

- **Loose Parts:** If any small parts become loose, they may be reattached using a small amount of model-safe adhesive. Exercise caution and ensure proper alignment.
- **Scratches/Paint Chips:** Minor cosmetic imperfections can sometimes be touched up with model paint that matches the original color. This is an advanced technique and should be done with care.
- **Wheels Not Rolling Smoothly:** Check for any debris caught in the wheel axles. Gently remove any obstructions.
