Ezlo PSE02

Ezlo PSE02 Philio Multi Sound Z-Wave Siren User Manual

Model: PSE02 | Brand: Ezlo

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Ezlo PSE02 Philio Multi Sound Z-Wave Siren. Please read this manual thoroughly before using the device to ensure proper functionality and safety. The PSE02 is a Z-Wave enabled multi-sound siren designed to enhance your home security system by providing audible alerts.

2. SAFETY INFORMATION

- Do not expose the device to moisture or extreme temperatures.

- Do not attempt to disassemble or repair the device yourself. Refer all servicing to qualified personnel.

- Ensure proper battery installation to prevent damage or injury.

- Keep the device out of reach of children.

- The siren can produce sounds up to 110 dB. Avoid prolonged exposure to loud sounds to prevent hearing damage.

3. PRODUCT OVERVIEW

The Ezlo PSE02 is a compact, wireless Z-Wave siren. It integrates into your Z-Wave network to provide audible alerts for various events, such as security breaches or system notifications. Its design allows for discreet wall mounting.

This image displays the Ezlo PSE02 Philio Multi Sound Z-Wave Siren. It features a compact, white, rectangular design with rounded corners. A small, curved indicator light is visible near the top edge, which illuminates to show device status.

4. SETUP

4.1 What's in the Box

- Ezlo PSE02 Philio Multi Sound Z-Wave Siren
- Mounting hardware (screws and anchors)
- User Manual (this document)

4.2 Powering the Device

1. Open the battery compartment cover on the back of the siren.

2. Insert the required batteries, ensuring correct polarity (+/-). The device requires 5 Volts, typically supplied by standard batteries.

3. Close the battery compartment cover securely.

4.3 Z-Wave Inclusion (Pairing)

To add the siren to your Z-Wave network:

1. Place your Z-Wave controller (hub/gateway) into inclusion mode. Refer to your controller's manual for specific instructions.

2. Within 1.5 seconds, press the Z-Wave button on the PSE02 three times. The indicator light will flash to confirm inclusion mode.

3. The siren will automatically connect to your Z-Wave network. The indicator light will stop flashing once successfully included.

4. Verify the device appears in your Z-Wave controller's device list.

4.4 Z-Wave Exclusion (Unpairing)

To remove the siren from your Z-Wave network:

1. Place your Z-Wave controller into exclusion mode.

2. Within 1.5 seconds, press the Z-Wave button on the PSE02 three times. The indicator light will flash to confirm exclusion mode.

3. The siren will be removed from your Z-Wave network. The indicator light will stop flashing.

4.5 Mounting the Device

The PSE02 is designed for wall mounting.

1. Choose a suitable location for the siren, ensuring it is within range of your Z-Wave network.

2. Use the provided mounting bracket and hardware to secure the siren to the wall.

3. Ensure the siren is securely attached and stable.

5. OPERATING THE SIREN

Once successfully included in your Z-Wave network, the Ezlo PSE02 siren can be controlled via your Z-Wave controller or associated mobile application.

- **Activating the Siren:** Use your Z-Wave controller's interface to send commands to the siren. This typically involves selecting the siren device and choosing an 'on' or 'alarm' function.

- **Multi-Sound Functionality:** The PSE02 supports multiple sound types. Your Z-Wave controller's interface may allow you to select specific siren tones or sound effects. Refer to your controller's documentation for details on how to access these options.

- **Sound Level:** The siren can produce sounds up to 110 dB.

- **Deactivating the Siren:** Use your Z-Wave controller's interface to send an 'off' or 'disarm' command to the siren.

6. MAINTENANCE

6.1 Battery Replacement

When the batteries are low, the siren may indicate this through its indicator light or a notification via your Z-Wave controller. Replace batteries as follows:

1. Open the battery compartment cover.

2. Remove the old batteries and dispose of them according to local regulations.

3. Insert new batteries, ensuring correct polarity.

4. Close the battery compartment cover.

6.2 Cleaning

Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents, as these can damage the casing.

7. TROUBLESHOOTING

- **Siren not pairing with Z-Wave controller:**
  Ensure the siren is within range of your Z-Wave controller. Try performing an exclusion first, then attempt inclusion again. Check battery levels.

- **Siren not sounding:**
  Verify the siren is powered on and has sufficient battery life. Check your Z-Wave controller's settings to ensure the siren is properly configured and receiving commands.

- **Short battery life:**
  Ensure you are using fresh, high-quality batteries. Frequent activation of the siren will consume battery power more quickly.

- **Indicator light not working:**
  Check battery levels. If the device is powered and still no light, contact customer support.

8. SPECIFICATIONS

| Feature	Specification
Model Number	PSE02
Brand	Ezlo
Noise Level	110 dB
Mounting Type	Wall Mount
Power Source	Battery Powered
Voltage	5 Volts
Control Method	App (via Z-Wave controller)
