## 3. SETUP

### 3.1 Inserting SIM and TF Cards

The Ulefone Note 14 features a 3-card independent slot design, allowing for two Nano SIM cards and one TF (MicroSD) card to be used simultaneously. This provides flexibility for managing multiple phone numbers and expanding storage.

1. Locate the SIM tray on the side of the device.
2. Insert the provided SIM tray ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano SIM cards and TF card into their respective slots on the tray. Ensure they are correctly oriented.
4. Carefully reinsert the tray into the device until it clicks into place.

### 3.2 Powering On/Off

- **To Power On:** Press and hold the Power button (located on the side) until the Ulefone logo appears on the screen.
- **To Power Off:** Press and hold the Power button until the power options menu appears. Select "Power off" and confirm.

## 4. OPERATING INSTRUCTIONS

### 4.1 Display

The Ulefone Note 14 features a 6.52-inch waterdrop HD+ screen with a resolution of 720 x 1600. This display provides a broad view and an immersive experience for media consumption and daily tasks. The 20:9 aspect ratio contributes to a comfortable hand feel.

## Massive 4500mAh Battery
