## PRODUCT OVERVIEW

Familiarize yourself with the various components and controls of your KLIM Blaze mouse.

Image: A detailed diagram highlighting the features of the KLIM Blaze mouse, including the optical sensor, ON/OFF switch, ON/OFF lights switch, USB-C cable port, 2.4G USB dongle, DPI switch, side buttons, anti-skid sides, soft mouse skates, and customizable RGB lights.

- 1. Left Click Button:** Standard left mouse button.
- 2. Right Click Button:** Standard right mouse button.
- 3. Scroll Wheel:** For scrolling and middle-click function.
- 4. DPI Switch:** Button to cycle through DPI settings.
- 5. Side Buttons (Forward/Backward):** Customizable buttons, typically for navigation.
- 6. Optical Sensor (PMW 3325):** High-precision tracking sensor located on the bottom.
- 7. ON/OFF Switch:** Power switch for the mouse.
- 8. ON/OFF Lights Switch:** Switch to control the RGB lighting.
- 9. USB-C Cable Port:** For charging and wired mode connection.
- 10. 2.4G USB Dongle:** Wireless receiver for connection to your device.
- 11. Customizable RGB Lights:** Illumination around the mouse base and logo.
- 12. Anti-skid Sides:** Textured grip for enhanced control.
- 13. Soft Mouse Skates:** For smooth gliding on surfaces.

### Initial Charging

Before first use, it is recommended to fully charge your KLIM Blaze mouse. Connect the provided USB-C cable to the mouse and the other end to a USB port on your computer or a USB wall adapter. The mouse can be used while charging in wired mode.

Image: The KLIM Blaze mouse connected via its USB-C cable, illustrating its wired mode and charging capability.

### Connecting the Mouse

1. Locate the 2.4G USB dongle (receiver) stored in the compartment on the underside of the mouse.
2. Plug the USB dongle into an available USB port on your computer (PC, Mac) or console (PS4, PS5).
3. Turn on the mouse using the ON/OFF switch located on the bottom of the mouse.
4. The mouse should automatically connect to the receiver. If not, ensure the receiver is securely plugged in and the mouse is powered on.

### Software Installation (Optional but Recommended)

For full customization of buttons, macros, and RGB lighting, download and install the dedicated KLIM software from the official KLIM website. This software is compatible with Windows operating systems.

- Visit [klimtechs.com/drivers](https://klimtechs.com/drivers) to download the latest software.

- Follow the on-screen instructions to complete the installation.
- **Important:** If you encounter issues installing the driver on Windows, right-click the downloaded installer, select "Properties," and check the "Unblock" box under the "General" tab before running.

## OPERATING INSTRUCTIONS

---

### DPI Adjustment

The DPI (Dots Per Inch) setting controls the sensitivity of your mouse. Press the DPI switch button (located behind the scroll wheel) to cycle through different DPI levels. The logo color on the mouse will change to indicate the current DPI setting:

DPI Level	Logo Color
600 DPI	Red
1200 DPI	Blue
2400 DPI	Green
3600 DPI	Yellow
4800 DPI	Orange
6000 DPI+	Purple

You can further customize DPI levels up to 10000 DPI using the KLIM software.

### Customizing Buttons and Macros

The KLIM Blaze features 7 customizable buttons. Use the KLIM software to reassign button functions, create complex macros, and tailor the mouse to your specific gaming or productivity needs.

## RGB Lighting Control

The KLIM Blaze features vibrant RGB lighting. You can control the lighting effects, colors, and brightness using the dedicated ON/OFF lights switch on the bottom of the mouse or through the KLIM software for more advanced customization.

## MAINTENANCE

---

### Cleaning

To maintain optimal performance and appearance, clean your mouse regularly. Use a soft, dry cloth to wipe down the surface. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials.

### Battery Care

The KLIM Blaze features a built-in rechargeable Lithium Metal battery. To prolong battery life:

- Avoid fully discharging the battery frequently.
- Charge the mouse when the battery indicator is low.
- Store the mouse in a cool, dry place if not used for extended periods.
