2. SETUP

2.1 Package Contents

- KOSPET TICWRIS MAX Smart Watch
- Charging Cable
- User Manual

2.2 Charging the Device

Before first use, fully charge the smart watch. Connect the charging cable to the watch and a power source. A full charge typically takes approximately 2 hours.

2.3 SIM Card Installation

The TICWRIS MAX supports Nano-SIM cards for 4G/LTE network connectivity. Locate the SIM card slot on the side of the watch. Carefully insert a Nano-SIM card (not included) into the slot as indicated by the diagram or markings on the device. Ensure the SIM card is correctly oriented.

Dual 4G Global Bands, Connect Anywhere

MAX supports 4G networks of TDD LTE and FDD LTE, no worries to take just one smartwatch for global travel.

2.4 Powering On/Off

- **To Power On:** Press and hold the power button located on the side of the watch until the screen illuminates.
- **To Power Off:** Press and hold the power button, then select the 'Power Off' option on the screen.

2.5 Pairing with a Smartphone

To receive notifications and synchronize data, pair your TICWRIS MAX with your smartphone using the 'Wiiwatch 2' application. Download the 'Wiiwatch 2' app from your smartphone's app store, then follow the in-app instructions to connect your watch.

3. OPERATING INSTRUCTIONS

3.1 Network Connectivity and Calls

With a Nano-SIM card installed, the watch supports 4G/LTE and Wi-Fi connectivity. You can make and receive

phone calls, send SMS messages, and access online services directly from the watch.

3.2 Notifications

Once paired with the 'Wiiwatch 2' app, the watch will display notifications from your smartphone, including text messages, SNS messages, calls, and emails.

3.3 Display and Interface

The TICWRIS MAX features a 2.86-inch square LCD screen with a 480x640 resolution, providing a clear and immersive visual experience for videos, games, and photos.

3.4 Security Features

The watch includes Face ID unlock technology, allowing you to unlock your device quickly and securely in approximately 0.1 seconds. Pattern unlock is also available.

Image 3.2: This image displays the security options for the KOSPET TICWRIS MAX, showing both pattern unlock and the Face ID unlock feature in action.

3.5 GPS and Navigation

Integrated GPS/GLONASS allows for accurate tracking of sports data and real-time display of your exercise route on a map. You can use Google Maps for navigation, Google Search, and Google Weather while on the go.

3.6 Android Operating System and Applications

Running on Android 7.1.1 OS, the watch is compatible with a wide range of Android and iPhone devices. With 3GB RAM and 32GB ROM, you can download and install applications from the Google Play Store, store music, and save photos.

Powered by Android7.1.1

Running on Android 7.1.1 operating system, it supports all Google applications. Built-in Google play store, Google map, Google voice and other Google applications, users can also install any third-party application in Google play store.

3.7 Camera

The watch is equipped with an 8.0 MP HD camera, suitable for capturing photos and videos.

4. MAINTENANCE

4.1 Battery Care

The 2880mAh battery provides extended usage. To prolong battery life:

- Avoid extreme temperatures.
- Charge the device regularly, but avoid overcharging for extended periods.
- Close unused applications and features (e.g., Wi-Fi, GPS) to conserve power.

4.2 Cleaning

Wipe the watch with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the screen or casing.

5. TROUBLESHOOTING

If you encounter any issues with your KOSPET TICWRIS MAX Smart Watch, please refer to the following general advice:

- **Device not powering on:** Ensure the battery is charged. Connect to the charger for at least 30 minutes.
- **Connectivity issues:** Check SIM card insertion, Wi-Fi connection, or Bluetooth pairing. Restart the watch and your smartphone.
- **App not functioning:** Ensure the app is updated. Try reinstalling the app.
- **Slow performance:** Close background applications. Clear cache if possible.
