## DELUX M700BU

# DELUX M700BU Wired Lightweight Gaming Mouse User Manual

Model: M700BU

## 1. INTRODUCTION

Thank you for choosing the DELUX M700BU Wired Lightweight Gaming Mouse. This manual provides detailed instructions on how to set up, operate, and maintain your new gaming mouse. Please read this manual carefully before use to ensure optimal performance and longevity of your device.

## 2. PRODUCT FEATURES

- **Lightweight Design:** Weighing approximately 67g (2.36oz) with a honeycomb shell for reduced weight and enhanced airflow.
- **Ultralight Weave Cable:** Equipped with a 1.8m ultralight braided cable for a drag-free experience, similar to a wireless mouse.
- **Adjustable DPI:** Six adjustable DPI levels (800/1200/2400/4800/6400/7200) for precise control.
- **Durable Switches:** Features switches with a 10 million click lifespan for long-term durability.
- **Dynamic RGB Backlighting:** Marvelous side RGB light and solid color logo light. Nine lighting modes for the sidelight are available via driver settings. The logo light changes color according to the current DPI level.
- **7 Programmable Buttons:** Customize button functions, lighting effects, and macros using the dedicated software.
- **On-board Memory:** Store your custom settings directly on the mouse.

- **Dual Function Mode:** Switch between Office mode and Gaming mode with preset button functions.

### 3. SETUP GUIDE

1. **Connect the Mouse:** Plug the USB connector of the DELUX M700BU mouse into an available USB port on your computer.
2. **Automatic Driver Installation:** Your operating system (Windows 7, 8, 10) should automatically detect and install the necessary basic drivers.
3. **Install Customization Software (Optional but Recommended):** For full customization of buttons, RGB

lighting, macros, and DPI settings, download the official driver software from the DELUX website: [deluxworld.com/en-service.html](https://deluxworld.com/en-service.html). Follow the on-screen instructions for installation.

4. **Note for macOS Users:** The backward/forward buttons and the customization driver software are not available for macOS.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Basic Operation

The DELUX M700BU functions as a standard wired mouse upon connection. Move the mouse to control the cursor, and use the left and right-click buttons for primary interactions. The scroll wheel allows for vertical scrolling.

### 4.2 Adjusting DPI

The mouse features dedicated DPI+ and DPI- buttons (typically located near the scroll wheel) to cycle through the preset DPI levels (800/1200/2400/4800/6400/7200). The logo light color will change to indicate the current DPI setting.

### 4.3 Changing RGB Lighting Modes

To quickly change the RGB lighting mode for the side light, press the **Backward button** and the **Scroll Wheel** simultaneously. There are 9 lighting modes available. The lighting speed and direction can also be adjusted via the software.

## 5. SOFTWARE CONFIGURATION

---

The DELUX M700BU comes with dedicated software for advanced customization. This software allows you to:

- Remap all 7 programmable buttons.
- Create and assign macros for complex commands.
- Adjust RGB lighting effects, speed, and direction.
- Fine-tune DPI levels and polling rate.

- Switch between Office and Gaming modes with different button configurations.

The software is compatible with Windows 7, 8, and 10 operating systems. Please download it from the official DELUX website: [deluxworld.com/en-service.html](http://deluxworld.com/en-service.html).

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your DELUX M700BU gaming mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the mouse surface. For the honeycomb shell, a can of compressed air can help remove dust and debris. Avoid using harsh chemicals or abrasive materials.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable to prevent damage.
- **Storage:** Store the mouse in a clean, dry environment away from extreme temperatures and direct sunlight.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure the USB cable is securely plugged in. Try a different USB port. Restart your computer. Reinstall the mouse driver if necessary.
Inaccurate tracking or cursor skipping	Dirty optical sensor, unsuitable mouse pad surface, high-speed movement.	Clean the optical sensor with a soft cloth. Use a clean, uniform-surface mouse pad. Adjust DPI settings if tracking issues occur during very fast movements.
RGB lighting not working or incorrect	Software settings, incorrect mode selection.	Check RGB settings in the customization software. Ensure you are using the correct key combination (Backward button + Scroll Wheel) to cycle modes.

Problem	Possible Cause	Solution
Custom buttons/macros not working	Software not installed, incorrect configuration, macOS incompatibility.	Install and configure the customization software. Ensure macros are correctly assigned and saved. Note that custom buttons are not supported on macOS.
Software in a foreign language	Default language setting.	Look for a language selection option within the software interface, usually represented by a globe icon or text like "Language" or "English".

## 8. SPECIFICATIONS

Feature	Detail
Model Number	M700BU
Connectivity	Wired (USB)
Weight	Approximately 67g (2.36 ounces)
Dimensions (L x W x H)	5.04 x 2.64 x 1.54 inches (128 x 67 x 39 mm)
DPI Settings	800/1200/2400/4800/6400/7200 (Adjustable via software)
Polling Rate	1000Hz
Acceleration	20G ACC
Buttons	7 Programmable Buttons
Switch Lifespan	10 million clicks
Cable Length	1.8m (Ultralight Braided Cable)
Movement Detection Technology	Optical
Compatibility	Windows 7/8/10 (Limited functionality on macOS)
