# cimetech Wireless Computer Mouse User Manual

Model: 9823fcc1-17df-40bd-9293-5ea9b32e3543

Brand: cimetech

## 1. INTRODUCTION

The cimetech Wireless Computer Mouse is designed for comfortable and efficient use across various computing environments. Featuring 2.4G wireless technology, an ergonomic design, and silent clicking, it provides a reliable and quiet user experience. This manual provides detailed instructions for setting up, operating, and maintaining your wireless mouse.

## 2. PACKAGE CONTENTS

Please check the package contents to ensure all items are present:

- 1 x Cordless Mouse
- 1 x USB Receiver (stored in the battery compartment of the mouse)
- 1 x User Manual

## 3. SETUP AND INSTALLATION

Follow these steps to set up your cimotech Wireless Computer Mouse:

1. **Insert Battery:** Open the battery compartment located on the underside of the mouse. Insert one AA battery (not included), ensuring correct polarity (+/-).
2. **Retrieve USB Receiver:** The USB receiver is conveniently stored inside the battery compartment. Gently pull it out.
3. **Connect USB Receiver:** Plug the USB receiver into an available USB port on your computer (laptop, desktop, Mac, or PC).
4. **Power On:** Locate the ON/OFF switch on the underside of the mouse and slide it to the "ON" position.
5. **Plug and Play:** The mouse is plug-and-play. Your computer should automatically detect and install the necessary drivers. You can begin using the mouse immediately.

# Up to 30 months of battery life

## 4. OPERATING INSTRUCTIONS

### 4.1 Basic Operation

Once the USB receiver is connected and the mouse is powered on, it will establish a 2.4GHz wireless connection with your computer. The mouse operates within a range of up to 50 feet (approximately 10 meters), providing stable and lag-free performance.

Figure 4.1: Wireless connectivity and range

## 4.2 Adjustable DPI Settings

The mouse features 3 adjustable DPI (Dots Per Inch) levels: 800, 1200, and 1600. DPI controls the sensitivity of the mouse cursor. To adjust the DPI, press the DPI button located behind the scroll wheel. Each press will cycle through the available DPI settings, allowing you to choose the sensitivity that best suits your task, whether for precise work or faster navigation.

## 4.3 Side Buttons (Forward/Backward)

The mouse is equipped with two side buttons, typically located on the left side, which function as "Page Forward" and "Page Backward." These buttons allow for quick navigation between web pages or folders, enhancing your browsing and work efficiency.

#### **4.4 Silent Clicking and Durability**

The left and right mouse buttons are designed for silent clicking, minimizing noise and allowing you to work or play without disturbing others. The mouse is built for high durability, with buttons tested for up to 5,000,000 keystrokes.

#### **4.5 Auto Sleep Function**

To conserve battery life, the mouse features an automatic sleep mode. If inactive for 15 minutes, the mouse will enter sleep mode. To wake it up, simply click any button.

## 5. MAINTENANCE

- **Battery Replacement:** When the mouse performance degrades or it stops responding, it's time to replace the AA battery. Ensure the mouse is switched off before replacing the battery. The battery life can last up to 30 months depending on usage.
- **Cleaning:** To clean the mouse, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the internal components. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, switch off the mouse to conserve battery life. The USB receiver can be stored in its dedicated slot on the underside of the mouse to prevent loss.

## 6. TROUBLESHOOTING

Problem	Possible Cause / Solution
Mouse not responding.	<p>Ensure the mouse is switched ON.</p> <p>Check if the USB receiver is securely plugged into a working USB port.</p> <p>Replace the battery if it is low or depleted.</p> <p>Try plugging the USB receiver into a different USB port.</p>
Cursor movement is erratic or jumps.	<p>Ensure the mouse is used on a suitable surface. Optical mice perform best on hard, opaque surfaces. Avoid soft mousepads or highly reflective surfaces.</p> <p>Clean the optical sensor on the underside of the mouse.</p> <p>Check for interference from other wireless devices.</p>
Wireless connection is unstable or has lag.	<p>Ensure the mouse is within the 50-foot (10-meter) operating range of the USB receiver.</p> <p>Reduce obstacles between the mouse and the receiver.</p> <p>Try moving the USB receiver to a different USB port, preferably one closer to the mouse.</p>

## 7. SPECIFICATIONS

Feature	Detail
Model Number	9823fcc1-17df-40bd-9293-5ea9b32e3543
Connectivity Technology	2.4G Wireless, USB Receiver
Movement Detection	Optical
DPI Levels	800 / 1200 / 1600 (Adjustable)
Buttons	6 (Left, Right, Scroll Wheel, DPI, Forward, Backward)
Click Type	Silent Clicking (Left/Right buttons)
Keystroke Durability	5,000,000 times
Wireless Range	Up to 50 feet (approx. 10 meters)
Battery Type	1 x AA Battery (not included)
Estimated Battery Life	Up to 30 months
Product Dimensions (L x W x H)	4.13 x 2.64 x 1.2 inches (approximate)
Item Weight	2.82 ounces
Compatibility	Windows 7/8/10/XP, Vista 7/8, Linux, Mac OS (for basic functions)
