Spigen Slim Armor CS

Spigen Slim Armor CS Case for iPhone 12 Pro/12 Instruction Manual

Model: Slim Armor CS (ACS01707)

INTRODUCTION

The Spigen Slim Armor CS case is designed to provide robust protection and convenient functionality for your iPhone 12 Pro or iPhone 12. This case features a dual-layer construction combining a shock-absorbing TPU interior with a durable polycarbonate exterior, enhanced with Air Cushion Technology for superior impact defense. Additionally, it includes an integrated card slot for carrying essential cards.

Compatible with
iPhone 12 & iPhone 12 Pro

Complete **privacy**
and **protection.**

Protect both your
personal information
as well as your device.

Image: The Spigen Slim Armor CS case provides comprehensive protection for your device.

SETUP: CASE INSTALLATION

1. **Prepare Your Device:** Ensure your iPhone 12 Pro or iPhone 12 is clean and free of dust or debris.
2. **Align the Case:** Hold the case with the card slot facing away from you. Align the top edge of your iPhone with the top edge of the case.
3. **Insert the Phone:** Gently push your iPhone into the case, starting from the top. Ensure all corners and edges snap securely into place. Do not force the phone into the case.
4. **Verify Fit:** Check that all buttons (power, volume) and ports (charging, speakers) are properly aligned and accessible. The case should fit snugly around your device.

Compatibility. Please check the model of the iPhone 12.

6.7^{inch} 

NOT compatible with
iPhone 12 Pro Max

6.1^{inch} 

Only compatible with
iPhone 12 | 12 Pro

5.4^{inch} 

NOT compatible with
iPhone 12 mini

OPERATING: USING THE CARD SLOT

The Spigen Slim Armor CS case features a discreet sliding compartment on the back, designed to securely hold your essential cards.

- **Accessing the Slot:** Locate the small indentation or ridge on the side of the sliding back panel. Gently push the panel downwards to reveal the card compartment.
- **Inserting Cards:** The slot is designed to hold up to two standard-sized cards (e.g., credit cards, ID cards). Insert cards one at a time, ensuring they lie flat within the compartment.
- **Closing the Slot:** Once cards are inserted, slide the back panel upwards until it clicks securely into its closed position. Ensure the panel is fully closed to prevent cards from falling out.

Note: Avoid overfilling the card slot, as this may damage the mechanism or cause cards to become stuck.

All your essentials on-the-go.

Store up to **two cards**
at once for maximum
convenience.

MAINTENANCE

To keep your Spigen Slim Armor CS case in optimal condition, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust, dirt, and fingerprints.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the polycarbonate and TPU materials.
- **Inspect for Damage:** Periodically check the case for any signs of wear or damage, especially around the edges and corners, to ensure continued protection for your device.

TROUBLESHOOTING

- **Wireless Charging Incompatibility:** Please note that the Spigen Slim Armor CS case is **not compatible with wireless charging** due to the integrated card slot and dual-layer design. To use wireless charging, you must remove your iPhone from the case.
- **Cards Not Fitting:** Ensure you are not attempting to insert more than two standard-sized cards. Overfilling can cause the sliding mechanism to jam or break.

- **Case Feels Loose:** Verify that your iPhone is correctly seated within the case and that all edges are snapped into place. If the issue persists, ensure the case model matches your iPhone 12 Pro or iPhone 12.

SPECIFICATIONS
