ANZZI SD-AZ053-01BN

ANZZI Myth Series 58x34 Inch Frameless Tub Shower Door

Model: SD-AZ053-01BN - Brushed Nickel

INTRODUCTION

This manual provides essential information for the safe and proper installation, operation, and maintenance of your ANZZI Myth Series Frameless Tub Shower Door. Please read all instructions carefully before beginning installation or use. Retain this manual for future reference.

SAFETY INFORMATION

- Always wear safety glasses during installation.
- Handle glass panels with extreme care. Tempered glass, while strong, can shatter if struck at the edges.
- Ensure all mounting surfaces are structurally sound and capable of supporting the weight of the shower door.
- Use appropriate tools and follow all local building and plumbing codes.
- Professional installation is recommended.

PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning installation. If any parts are missing or damaged, do not proceed with installation and contact customer service.

- Tempered Glass Panel (1/4 inch thick)
- Aluminum Rhino Alloy Certified Hardware (Brushed Nickel finish)
- Handle
- Seal Strips
- Mounting Hardware

SETUP AND INSTALLATION

Proper installation is crucial for the functionality and longevity of your shower door. Follow these general steps, referring to the detailed diagrams and instructions provided in the separate installation guide for your specific model.

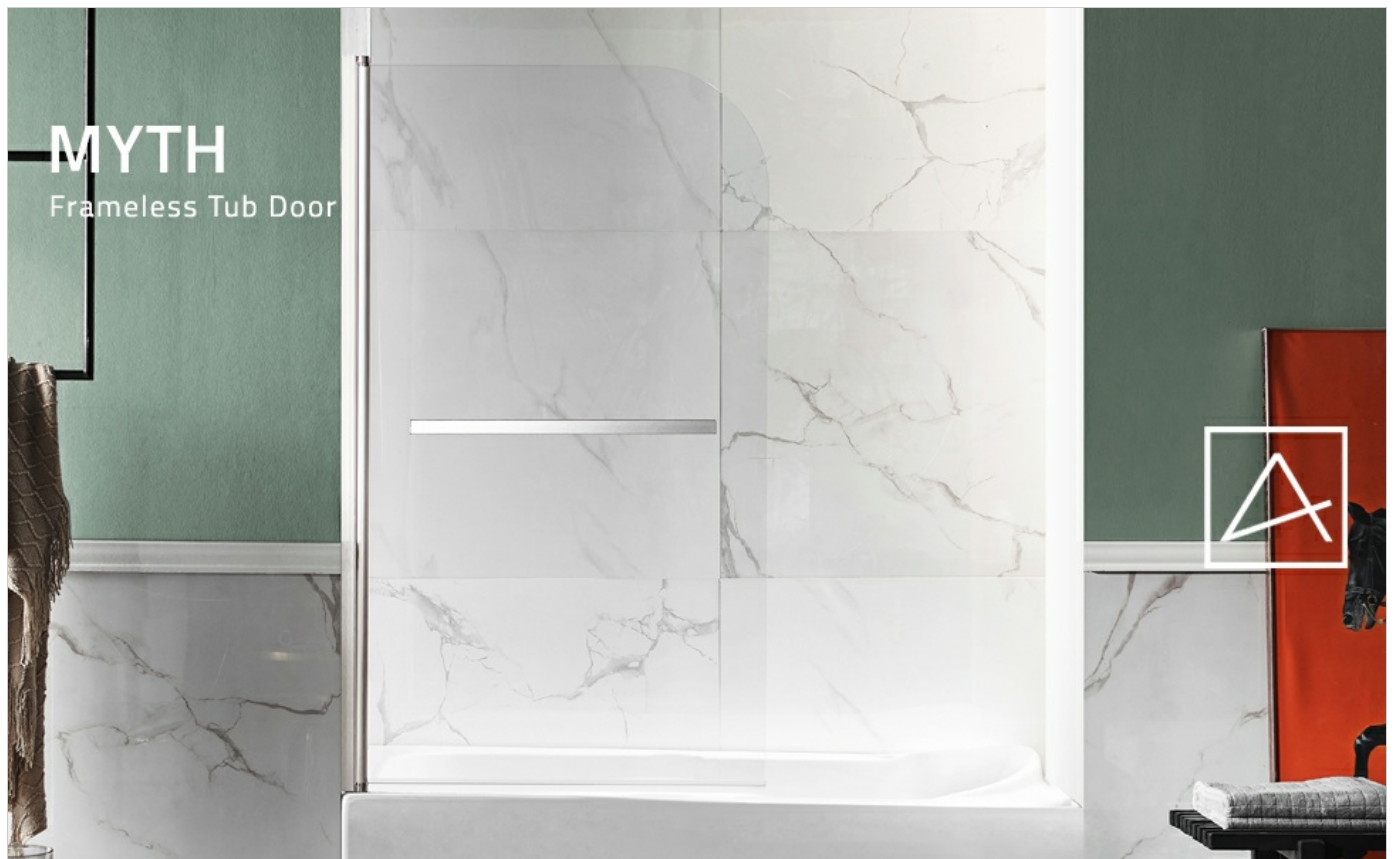

Image: The ANZZI Myth Series Frameless Tub Shower Door installed over a bathtub, showcasing its design and integration into a modern bathroom setting.

1. **Prepare the Installation Area:** Ensure the bathtub and surrounding walls are clean, level, and free of debris. Mark the desired position for the wall profile.
2. **Install Wall Profile:** Secure the aluminum wall profile to the wall using appropriate fasteners. Ensure it is plumb and securely anchored.
3. **Attach Hinges to Glass Panel:** Carefully attach the Rhino Alloy certified hinges to the tempered glass panel.
4. **Mount Glass Panel:** With assistance, lift and position the glass panel into the wall profile and secure the hinges to the wall profile. Adjust for proper alignment and swing.
5. **Install Handle:** Attach the handle to the glass panel as per the instructions.
6. **Apply Seal Strips:** Install the clear seal strips along the bottom and vertical edges of the glass panel to prevent water leakage.
7. **Seal Gaps:** Apply silicone sealant to all exterior joints between the wall profile, glass, and bathtub for a watertight seal. Allow adequate curing time before use.

OPERATING INSTRUCTIONS

Your ANZZI Myth Series Tub Shower Door is designed for smooth and effortless operation. To open the door, gently pull the handle outwards. To close, push the door until it aligns with the bathtub edge, ensuring the seal strips create a watertight barrier. The hinged design allows for a wide swinging motion for easy access.

MAINTENANCE

Regular cleaning and maintenance will preserve the appearance and functionality of your shower door.

- **Glass Cleaning:** The ANZZI Myth Series features **TSUNAMI GUARD** shielding, which repels water and prevents fogging and moisture build-up. For daily cleaning, use a soft cloth and mild, non-abrasive glass cleaner. Avoid harsh chemicals or abrasive pads that can damage the Tsunami Guard coating.
- **Hardware Cleaning:** Clean the brushed nickel hardware with a soft, damp cloth. Do not use abrasive cleaners, ammonia-based products, or scouring pads, as these can scratch or dull the finish.
- **Seal Strips:** Periodically inspect the seal strips for wear or damage. Replace them if they become discolored, cracked, or lose their sealing effectiveness to prevent leaks.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leakage	Damaged or improperly installed seal strips; insufficient sealant.	Inspect and adjust/replace seal strips. Reapply silicone sealant to all exterior joints.
Door does not swing smoothly	Hinges are loose or misaligned; debris in hinge mechanism.	Check hinge screws and adjust alignment. Clean any debris from hinges.
Glass appears cloudy or stained	Hard water deposits; improper cleaning agents.	Use a mild, non-abrasive cleaner. For hard water, use a vinegar-based solution specifically designed for glass, then rinse thoroughly.
