

Majority BOW-BAR-BLK

Majority Bowfell Sound Bar Instruction Manual

Model: BOW-BAR-BLK | Brand: Majority

PRODUCT OVERVIEW

The Majority Bowfell is a compact and powerful 50-watt TV sound bar designed to significantly enhance your audio experience. Its slim profile allows it to fit comfortably under most televisions or on desks, making it an ideal audio solution for various settings including your TV, PC, laptop, projector, or monitor. It features versatile connectivity options including Bluetooth, AUX, Optical, RCA, and USB, ensuring compatibility with a wide range of devices. The soundbar also includes an EQ control with multiple audio modes to customize your listening experience for music, gaming, movies, or live sports.

All components included in the Majority Bowfell Sound Bar package, neatly arranged.

SETUP GUIDE

Connecting to your TV

The Bowfell offers multiple ways to connect to your audio source. Choose the method that best suits your device:

- **Optical Connection:** For the best digital audio quality, connect an optical cable (not included) from your TV's optical output to the sound bar's 'OPTICAL IN' port. Ensure your TV's audio output is set to PCM.
- **AUX Connection:** Use the supplied 3.5mm AUX cable to connect your device's headphone jack or audio output to the sound bar's 'AUX' input.
- **RCA Connection:** Use the supplied RCA cable to connect your TV's RCA audio output (red and white ports) to the corresponding RCA input on the sound bar.
- **Bluetooth Connection:** Power on the sound bar and select Bluetooth mode. Enable Bluetooth on your device and select 'Majority Bowfell' from the list of available devices to pair.
- **USB Playback:** Insert a USB drive with MP3 audio files into the USB port for direct playback.

The sound bar connected to a TV, illustrating the different cable connections available for audio input.

Initial Power On

After connecting the power cable to the sound bar and a power outlet, press the 'POWER' button on the sound bar or the remote control to turn it on. The LED indicator will light up, indicating the current mode.

OPERATING INSTRUCTIONS

Remote Control Functions

The included remote control provides full command over your sound bar's features:

- **Power:** Turns the sound bar on/off.
- **Mode:** Cycles through input modes (Bluetooth, AUX, Optical, RCA, USB).
- **Volume +/-:** Adjusts the master volume level.
- **Mute:** Mutes or unmutes the audio.
- **EQ Modes (Flat, Rock, Jazz):** Selects preset equalizer settings for different audio profiles.

- **Playback Controls:** Play/Pause, Next/Previous track (for USB/Bluetooth modes).

Audio Modes (EQ Control)

Optimize your listening experience with the sound bar's built-in equalizer modes:

- **Flat:** Provides a neutral, balanced sound profile suitable for general listening.
- **Rock:** Enhances bass and treble for a more dynamic sound, ideal for rock music.
- **Jazz:** Adjusts frequencies to bring out the nuances in jazz music, often emphasizing mid-range tones.

MAINTENANCE

To ensure the longevity and optimal performance of your Majority Bowfell Sound Bar, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the sound bar. Do not use liquid cleaners or aerosols, as they may damage the finish or internal components.

- **Storage:** When not in use for extended periods, store the sound bar in a cool, dry place away from direct sunlight and extreme temperatures.
- **Ventilation:** Ensure adequate ventilation around the sound bar to prevent overheating. Do not block any ventilation openings.

TROUBLESHOOTING

If you encounter any issues with your Majority Bowfell Sound Bar, please refer to the table below for common problems and their solutions:

Problem	Possible Cause	Solution
No power	Power cable not connected or power outlet faulty.	Ensure the power cable is securely connected to the sound bar and a working power outlet.
No sound	Incorrect input mode selected; volume too low; cables loose.	Press the 'MODE' button to select the correct input. Increase volume. Check all audio cables are securely connected.
Bluetooth connection issues	Sound bar not in pairing mode; device too far; interference.	Ensure sound bar is in Bluetooth mode and indicator is flashing. Move device closer. Avoid obstacles.
Remote control not working	Batteries are dead or incorrectly inserted; remote not aimed at sensor.	Replace batteries (2 AAA required). Ensure correct polarity. Aim remote directly at the sound bar's sensor.

TECHNICAL SPECIFICATIONS

Feature	Specification
Speaker Maximum Output Power	50 Watts
