## 3. SETUP AND ASSEMBLY

The adjustable bed frame is designed for minimal assembly. It is recommended to have two people for safe handling and setup due to the weight of the unit.

1. Carefully remove the bed frame from its packaging.
2. Place the frame upside down on a clean, flat surface to access the leg attachment points.
3. Screw the provided legs securely into the designated threaded holes on the frame. Ensure all legs are tightened evenly.
4. Carefully flip the bed frame over to its upright position.
5. Plug the power cord into a grounded electrical outlet.
6. Place your compatible mattress onto the bed frame.

Refer to the included Assembly Guide for detailed visual instructions.

## 5. CARE AND MAINTENANCE

Regular care will help maintain the performance and appearance of your adjustable bed frame.

- **Cleaning:** Wipe the frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For fabric components, use a mild upholstery cleaner if necessary.
- **Inspections:** Periodically check all bolts and connections to ensure they are tight. Re-tighten if necessary.
- **Electrical Components:** Ensure power cords are not pinched or damaged. Keep the control box free from dust and moisture.
- **Moving Parts:** Keep the areas around the moving parts clear of obstructions.

## 6. TROUBLESHOOTING GUIDE

If you encounter issues with your adjustable bed frame, refer to the following common troubleshooting steps:

<b>Problem</b>	<b>Possible Cause</b>	<b>Solution</b>
Bed frame does not operate.	No power, remote not paired, or remote batteries low.	Check power cord connection to outlet and frame. Replace remote batteries. Re-pair remote according to instructions (if applicable).
Motor makes unusual noise.	Obstruction, loose connection, or normal operation.	Check for obstructions under the bed. Ensure all bolts are tight. Some motor noise during operation is normal.
Massage function not working.	Power issue or massage motor malfunction.	Ensure the bed frame has power. If other functions work, contact customer support.
Remote control unresponsive.	Low batteries or interference.	Replace batteries. Move closer to the bed frame. Ensure no strong interference sources are nearby.

If the problem persists after attempting these solutions, please contact customer support.
