

## Efalock HSM-2

# Efalock Professional HSM-2 Comb Set Instruction Manual

Model: HSM-2 | Brand: Efalock

## 1. PRODUCT OVERVIEW

### 1.1 Product Description

The Efalock Professional HSM-2 Comb Set includes two precision-engineered guide combs designed for use with compatible Efalock hair clippers. These combs are crafted to assist in achieving consistent hair lengths during grooming and are easily attachable and detachable for convenience.

### 1.2 Key Features

- Designed for easy attachment and removal from compatible clippers.
- Facilitates consistent hair cutting lengths.
- Simple to clean under running tap water.

Image 2: Back view of the Efalock Professional HSM-2 Comb Set, illustrating the attachment mechanism.

## 2. SETUP AND INSTALLATION

---

### 2.1 Attaching the Comb

To attach a comb, align the comb's attachment points with the corresponding slots on your compatible Efalock hair clipper. Gently push the comb onto the clipper head until it clicks securely into place. Ensure the comb is firmly seated before use to prevent it from detaching during operation.

### 2.2 Selecting the Right Comb

The HSM-2 set includes two combs, typically offering different cutting lengths. Refer to the numerical markings on each comb (e.g., "3mm", "6mm", "9mm", "12mm") to select the desired hair length for your grooming task. These markings indicate the approximate hair length that will remain after cutting.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 General Use

Once the desired comb is securely attached to your hair clipper, turn on the clipper. Guide the comb smoothly and evenly through the hair, ensuring the comb teeth are fully engaged with the hair to achieve a consistent and even cut. For best results, work against the natural direction of hair growth.

## 3.2 Hair Length Guidance

The numbers marked on the combs indicate the approximate hair length that will remain after cutting. For example, a comb marked "6mm" will leave hair approximately 6 millimeters long. Always start with a comb that provides a longer cutting length if you are unsure, and gradually switch to shorter combs if a closer cut is desired.

## 4. CARE AND MAINTENANCE

---

### 4.1 Cleaning the Combs

Regular cleaning ensures optimal performance and hygiene of your combs. Follow these steps:

1. Before cleaning, ensure your hair clipper is turned off and unplugged from the power source.
2. Gently detach the comb from the clipper head.
3. Rinse the comb thoroughly under running tap water to remove any trapped hair or debris.
4. For a more thorough cleaning, a mild soap solution can be used. Ensure all soap residue is rinsed off.
5. Allow the comb to air dry completely before reattaching to the clipper or storing.

### 4.2 Storage

Store the combs in a clean, dry place, away from direct sunlight and extreme temperatures, to prevent damage and prolong their lifespan.

## 5. TROUBLESHOOTING

---

### 5.1 Comb Not Attaching Securely

- Ensure the comb is correctly aligned with the clipper's attachment points.
- Check for any debris or hair obstructing the attachment mechanism on both the comb and the clipper.
- If the comb appears damaged, it may need to be replaced.

### 5.2 Uneven Hair Cut

- Verify that the comb is fully and securely attached to the clipper.
- Ensure you are guiding the comb evenly through the hair and not tilting the clipper.
- Clean the comb and clipper blades to remove any hair buildup that might impede cutting.

## 6. PRODUCT SPECIFICATIONS

---

Property	Value
Brand	Efalock
Model Number	4025341508677
Material	Alloy Steel
Product Dimensions	8 x 8 x 2 cm

Property	Value
Weight	0.19 Kilograms (Set)
Manufacturer	Efalock Professional Tools GmbH
Date First Available	24 Jun. 2020
Number of Items	2 (Combs)

## 7. WARRANTY AND SUPPORT

---

### 7.1 Warranty Information

For specific warranty details regarding your Efalock Professional HSM-2 Comb Set, please refer to the documentation provided with your compatible Efalock hair clipper or contact Efalock customer service directly. Warranty terms may vary by region and product.

### 7.2 Customer Support

If you require further assistance, have questions about your product, or need to report an issue, please visit the official Efalock website or contact their customer support department through the contact information provided on their website or product packaging.
