## Philips Hue 929002294101

# Philips Hue Smart 40W B39 Candle-Shaped LED Bulb

WHITE AND COLOR AMBIANCE - MODEL 929002294101

Brand: Philips Hue

## Introduction

---

This manual provides essential information for the safe and efficient use of your Philips Hue Smart 40W B39 Candle-Shaped LED Bulb. This smart LED decorative candle bulb offers millions of shades of warm-to-cool white and color-changing light, designed to enhance your home environment. It is perfect for use in decorative lighting fixtures such as chandeliers and wall sconces with a narrow E12 or candelabra socket.

## Setup

---

Your Philips Hue Smart Bulb can be set up in two primary ways: via Bluetooth for instant control in one room, or by connecting to a Philips Hue Bridge for expanded features and whole-home control.

### Step 1: Install the Bulb

Carefully screw the Philips Hue Smart 40W B39 Candle-Shaped LED Bulb into a compatible E12 socket. Ensure the power is off before installation.

# Start with Hue Bridge or Bluetooth

Full home  
and outdoor

One  
room

Range

Easy ambiance creation  
with app or voice

\*Philips Hue Bridge sold separately

Add smart switches  
and motion sensors

Set routines,  
timers and automations

Sync your lights with  
movies, games and music

Away from home control

## Step 2: Connect via Philips Hue App (Bluetooth)

1. Turn on the power to the light fixture.
2. Download the official Philips Hue app from your device's app store.
3. Open the app and follow the on-screen instructions to search for and connect to your new Hue Bluetooth light. You can control up to 10 lights in a single room using Bluetooth.

# Easy control with your voice

Works with Amazon Alexa and the Google Assistant

Simple to set up and use with Alexa

### Step 3: Connect via Philips Hue Bridge (Optional, for advanced features)

For full smart home integration, control from anywhere, and support for up to 50 lights and accessories, connect your bulb to a Philips Hue Bridge (sold separately).

1. Ensure your Philips Hue Bridge is connected to your Wi-Fi router and powered on.
2. Open the Philips Hue app and navigate to 'Settings' > 'Hue Bridges' to connect to your Bridge.
3. Once connected to the Bridge, go to 'Settings' > 'Lights' > '+' to search for and add your new bulb.

**Philips Hue Bridge  
unlock full, reliable control**

Control your lights securely from anywhere

Schedule your lights the way you want

Instant response. Ultra-stable connection

Secure, always up to date and futureproof

Seamlessly integrates with other smart home products

Works with SmartThings, Works with Apple Home, works with Google Home, works with alexa, matter

**Easy installation**

Step 1  
Install your lighting

Step 2  
Plug in the Philips Hue Bridge and connect it to the Wi-Fi router

Step 3  
Download the Philips Hue app

Download on the App Store, GET IT ON Google Play

## Operating Instructions

---

The Philips Hue Smart Bulb offers versatile control options to customize your lighting experience.

### Color and Brightness Control

- **Hue App:** Use the Philips Hue app to select from millions of colors and shades of warm-to-cool white light. Adjust brightness levels to suit any mood or activity.
- **Preset Scenes:** The app includes various preset scenes for different routines throughout the day, such as a 24-hour natural light scene, focus, unwind, and more.
- **Dynamic Effects:** Create custom dynamic light effects with subtle changes in brightness and color directly within the app.

# Dimmable and warm-to-cool white light for every moment of the day

## Voice Control

Integrate your Philips Hue bulb with popular voice assistants for convenient hands-free control:

- **Amazon Alexa:** Link your Hue system to Alexa via the Hue app. Use commands like "Alexa, turn on the bedroom light" or "Alexa, set the living room to a relaxing scene."
- **Google Assistant:** Connect your Hue system to Google Assistant. Use commands such as "Hey Google, change the light to blue" or "Hey Google, dim the lights."
- **Apple HomeKit/Siri:** For HomeKit integration (requires Hue Bridge), use Siri commands like "Hey Siri, turn the lights orange" or "Hey Siri, set the mood to movie night."

# Two easy ways to set up

**Option 1:  
Use the Hue  
Bluetooth app**

**Option 2:  
Use a voice assistant\***

**\*Requires a Hue compatible voice device sold seperately**

## Maintenance

The Philips Hue Smart Bulb is designed for long-lasting performance with a light source operating life of 25,000 hours. To ensure optimal performance:

- **Cleaning:** Ensure the bulb is cool and the power is off before cleaning. Wipe with a soft, dry cloth. Do not use liquid or abrasive cleaners.

- **Environment:** This bulb is designed for indoor use only. Avoid exposure to water or excessive humidity.

## Troubleshooting

---

If you encounter issues with your Philips Hue Smart Bulb, consider the following:

- **Bulb Not Responding:** Ensure the light fixture's power switch is on. Check if the bulb is securely screwed into the socket. If using Bluetooth, ensure your device is within range. If using a Bridge, verify the Bridge is powered on and connected to your network.
- **Connectivity Issues:** Restart your router and/or Philips Hue Bridge. Ensure the Hue app is up to date. Try resetting the bulb (refer to Philips Hue support for specific reset procedures).
- **Color/Brightness Inaccuracy:** Calibrate your bulb through the Philips Hue app if available. Ensure no other smart lighting apps are interfering.

For further assistance, please visit the Philips Hue support website or contact customer service.

## Specifications

---
