The charger features intelligent switching circuitry to recognize a full battery and automatically switch to a save mode, preventing overcharging. It is built with multiple protection mechanisms to ensure safety and longevity.

SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result

in electric shock, fire, or serious injury.

- Use only with devices specified as compatible.
- Do not expose the charger to water, rain, or excessive moisture.
- Do not disassemble, modify, or attempt to repair the charger. Refer all servicing to qualified personnel.
- Avoid extreme temperatures. Do not operate in direct sunlight or near heat sources.
- Ensure the power outlet is easily accessible and unplug the charger when not in use for extended periods.
- Do not use if the cable or plug is damaged.
- Keep out of reach of children.

SETUP

1. **Unpack the Charger:** Carefully remove the QKKE 24V Charger from its packaging. Verify that the switching power supply is included.
2. **Inspect for Damage:** Before first use, visually inspect the charger and its cable for any signs of damage. Do not use if damaged.
3. **Connect to Device:** Locate the power input port on your Philips BRI954/00 19.5V Lumea Prestige IPL Hair Removal System. Insert the barrel connector of the QKKE charger firmly into this port.
4. **Connect to Power Outlet:** Plug the charger's AC prongs into a standard 100V - 240V wall power outlet. Ensure the connection is secure.

The charger is now ready for operation. The intelligent switching circuit will manage the power delivery to your device.

OPERATING INSTRUCTIONS

Once properly connected, the QKKE 24V Charger will automatically begin supplying power to your compatible device. There are no user-adjustable settings on the charger itself.

- Ensure the device is powered off or in charging mode as per its own user manual.
- The charger is designed to prevent overcharging by automatically switching to a save mode once the connected device's battery is full.
- The charger is designed to operate safely and will not overheat under normal operating conditions.

MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your charger.

- **Cleaning:** Disconnect the charger from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.

- **Storage:** Store the charger in a cool, dry place away from direct sunlight and moisture when not in use. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the cable and plug for any signs of wear, cuts, or damage. Replace the charger if any damage is observed.
