SIMBASHOPPING Ibiza

SIMBASHOPPING Ibiza Whirlpool Bathtub User Manual

Model: Ibiza

INTRODUCTION

Thank you for choosing the SIMBASHOPPING Ibiza Whirlpool Bathtub. This manual provides essential information for the safe installation, operation, and maintenance of your new bathtub. Please read these instructions thoroughly before installation and use, and retain them for future reference.

SAFETY INFORMATION

- **Electrical Safety:** Ensure all electrical connections are performed by a qualified electrician in accordance with local and national electrical codes. The bathtub requires a 110V – 15A power supply. Do not operate the bathtub if the power cord or plug is damaged.
- **Water Temperature:** Exercise caution with hot water. The heater maintains water temperature; always check the water temperature before entering the tub to avoid scalding.
- **Chemicals:** Use only approved cleaning agents and water treatment chemicals. Avoid abrasive cleaners that can damage the acrylic surface.
- **Children and Pets:** Never leave children or pets unattended near the bathtub.
- **Medical Conditions:** Consult a physician before use if you have any medical conditions, especially heart conditions, high blood pressure, or are pregnant.
- **Entry and Exit:** Use caution when entering and exiting the bathtub to prevent slips and falls.

SETUP AND INSTALLATION

1. Unpacking and Inspection

Carefully remove all packaging materials. Inspect the bathtub for any signs of damage during transit. Report any damage to your supplier immediately.

2. Site Preparation

Ensure the installation area is level and capable of supporting the weight of the bathtub when filled with water and occupied. The bathtub dimensions are approximately 59.05"L x 59.05"W x 24.8"H.

3. Plumbing Connections

Connect the flexible hot and cold water hoses to your existing plumbing supply lines. Ensure all connections are tight to prevent leaks. Connect the drain pipe to your wastewater system. The bathtub includes all necessary flexible hoses and drain pipe for standard installation.

4. Electrical Connections

The bathtub requires a dedicated 110V – 15A electrical circuit. All electrical wiring must comply with local codes and be performed by a certified electrician. Ensure the power supply is off before making any connections.

5. Leveling

The bathtub is equipped with adjustable feet. Use a level to ensure the tub is perfectly level on all sides. Adjust the feet as necessary to achieve stability and proper drainage.

OPERATION

1. Control Panel Overview

The integrated control panel allows you to manage all functions of the bathtub. Familiarize yourself with the buttons and their corresponding indicators.

Image: Close-up view of the circular control panel on the SIMBASHOPPING Ibiza Whirlpool Bathtub. The panel features buttons for FM radio, tuning, volume adjustment, chromotherapy light, and hydromassage functions.

2. Filling the Bathtub

Open the hot and cold water faucets to fill the bathtub to the desired level. Ensure the water level is above the jets before activating the hydromassage system.

3. Hydromassage System

Activate the 1.5 HP water pump using the control panel. The system features 4 large jets and 8 small jets. Adjust the hydromassage intensity using the dedicated adjustment valve.

Image: Detailed view of the hydromassage jets and various control knobs within the SIMBASHOPPING Ibiza Whirlpool Bathtub. This shows the placement of the jets and the manual controls for water flow and air mixture.

4. Heater Function

The built-in heater maintains the water temperature. Set your desired temperature via the control panel. The heater will activate automatically to keep the water at the selected temperature.

5. Chromotherapy Lighting

Engage the LED chromotherapy light system via the control panel. Cycle through the 7 different colors to enhance your bathing experience.

6. FM Radio

Turn on the FM radio using the control panel. Tune to your preferred station and adjust the volume through the panel controls. The bathtub includes 2 speakers for audio output.

7. Faucets and Hand Shower

The bathtub is equipped with chrome finish faucets and a hand shower. Use the diverter to switch between the American-style waterfall faucet and the hand shower.

MAINTENANCE

1. Cleaning the Bathtub

Clean the acrylic surface regularly with a soft cloth and a non-abrasive, mild bathroom cleaner. Avoid harsh chemicals, scouring pads, or abrasive cleaners that can scratch or dull the finish. Rinse thoroughly after cleaning.

2. Jet Maintenance

Periodically run the hydromassage system with a specialized jet cleaner or a solution of white vinegar and water to prevent buildup in the pipes and jets. Follow the cleaner manufacturer's instructions.

3. Water Quality

Maintain good water quality to prevent mineral buildup and ensure optimal performance of the hydromassage system.

TROUBLESHOOTING

- **No Power:** Check the circuit breaker and ensure the bathtub is properly plugged into a functional outlet. Verify all electrical connections.
- **Hydromassage Not Working:** Ensure the water level is above the jets. Check for any blockages in the jets or suction intake. Verify the pump is receiving power.
- **Heater Not Maintaining Temperature:** Ensure the heater function is activated on the control panel and the desired temperature is set. Check the water level.
- **Leaks:** Inspect all plumbing connections for tightness. If a leak persists, contact a qualified plumber.

- **Radio Issues:** Check antenna connection if reception is poor. Ensure the radio is powered on and tuned correctly.

For issues not covered here, please contact SIMBASHOPPING customer support.
