## DEWENWILS B08BQXR9R

# DEWENWILS 3-Outlet Power Strip User Manual

Model: B08BQXR9R

## INTRODUCTION

This manual provides instructions for the safe and efficient use of your DEWENWILS 3-Outlet Power Strip with 15-Foot Braided Extension Cord and 250 Joules Surge Protection. Please read all instructions carefully before use and retain this manual for future reference.

## SAFETY INFORMATION

### **WARNING: To reduce the risk of electric shock, fire, or injury, always follow these basic safety precautions:**

- Do not exceed the maximum electrical rating of 13A/125V/1625W.
- This device is for indoor use only. Do not expose to moisture or use in wet locations.
- Do not plug into another relocatable power tap or extension cord.
- Fully insert the plug into the outlet.
- Keep children away from the power strip.
- Do not disassemble or modify the device.
- If the surge protection indicator light is off, the surge protection feature is no longer active. Replace the unit.

## PRODUCT FEATURES

- **3 Grounded Outlets:** Provides power for multiple devices.
- **15-Foot Braided Extension Cord:** Durable, tangle-free, and flexible for extended reach.
- **250 Joules Surge Protection:** Safeguards electronic devices from power surges, spikes, and lightning.
- **Flat Plug (45° Angled):** Space-saving design allows furniture to be placed closer to the wall.
- **UL Certified:** Ensures safety and quality standards are met.
- **Protected Indicator Light:** Green LED confirms active surge protection.

## SETUP

- 1. Unpack the Power Strip:** Carefully remove the power strip from its packaging.
- 2. Choose a Location:** Select a dry, indoor location near the devices you intend to power. Ensure the 15-foot cord can reach the wall outlet without being stretched or obstructed.
- 3. Plug into Wall Outlet:** Insert the flat plug of the power strip firmly into a standard 3-prong grounded wall outlet. The 45° angled design allows for placement behind furniture.
- 4. Verify Surge Protection:** Once plugged in, the green "PROTECTED" LED indicator light on the power strip should illuminate, confirming that the surge protection feature is active.
- 5. Connect Devices:** Plug your electronic devices into the three grounded outlets on the power strip. Ensure the total power consumption does not exceed 1625W.

**3 Outlets 15FT Braided Extension Cord**

**UL LISTED**

- 13A/125V/1625W
- 250 Joules Surge Rating
- 15Feet Braided Power Cord

## OPERATING INSTRUCTIONS

---

The DEWENWILS 3-Outlet Power Strip operates automatically once plugged into a live wall outlet. There is no on/off switch.

- **Power Delivery:** Once connected to a wall outlet, the power strip will provide power to all connected devices.
- **Surge Protection Indicator:** The green "PROTECTED" LED light indicates that the surge protection components are functioning correctly. If this light is off, the surge protection has been compromised, and the unit should be replaced to ensure continued protection for your devices.

Image: A close-up of the power strip showing the green 'Protected' LED indicator light illuminated, signifying active surge protection.

## MAINTENANCE

---

- **Cleaning:** Disconnect the power strip from the wall outlet before cleaning. Use a dry, soft cloth to wipe the exterior. Do not use liquid cleaners or sprays.
- **Inspection:** Periodically inspect the power strip and cord for any signs of damage, such as frayed wires, cracked casing, or loose connections. If damage is found, discontinue use immediately and replace the unit.
- **Storage:** When not in use, store the power strip in a cool, dry place away from direct sunlight and moisture.

## TROUBLESHOOTING

---

### No power to connected devices:

- Ensure the power strip is securely plugged into a functioning wall outlet.
- Check if the wall outlet itself is receiving power by plugging in another device.
- Verify that the total wattage of connected devices does not exceed 1625W. Overloading can cause

internal safety mechanisms to trip.

**"PROTECTED" LED indicator light is off:**

- This indicates that the surge protection components have absorbed a significant surge and are no longer active. While the power strip may still provide power, your devices are no longer protected from future surges.
- For continued surge protection, the power strip must be replaced.

## SPECIFICATIONS

---

<b>Model</b>	B08BQXR9R
<b>Outlets</b>	3 Grounded Outlets
<b>Cord Length</b>	15 Feet
<b>Cord Type</b>	Braided Fabric
<b>Surge Protection</b>	250 Joules
<b>Electrical Rating</b>	13A/125V/1625W
<b>Plug Type</b>	45° Angled Flat Plug
<b>Product Dimensions</b>	4.72 x 1.37 x 1.18 inches
<b>Item Weight</b>	1.29 pounds
<b>Certifications</b>	UL Listed
