Geeni GN-BW912-999

Geeni LUX Smart Floodlight User Manual

Model: GN-BW912-999

Introduction

The Geeni LUX Smart Floodlight is an advanced outdoor LED bulb designed to provide versatile and convenient lighting for your home. Featuring an E26 base and PAR38 shape, this smart bulb offers dimmable and tunable white light, allowing you to adjust brightness and color temperature from warm white to cool white. With built-in Wi-Fi, it requires no additional hub and can be easily controlled via the Geeni app, Amazon Alexa, or Google Assistant. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your smart floodlight.

What's in the Box

- 1 x Geeni LUX Smart Floodlight Bulb
- 1 x User Manual (this document)

Setup

Before You Begin

- Ensure your Wi-Fi network is 2.4GHz. The Geeni LUX Smart Floodlight is only compatible with 2.4GHz Wi-Fi.
- Download the Geeni app from the App Store (iOS) or Google Play Store (Android) on your smartphone or tablet.
- **Safety Precaution:** Always turn off the power to the light fixture at the circuit breaker before installing or removing the bulb.

Installation Steps

1. **Turn off Power:** Locate the circuit breaker controlling the light fixture where you intend to install the floodlight and turn it off.
2. **Install Bulb:** Carefully screw the Geeni LUX Smart Floodlight bulb into the E26 base of your outdoor light fixture. Ensure it is securely tightened.
3. **Restore Power:** Turn the power back on at the circuit breaker. The bulb should begin to blink rapidly, indicating it is in pairing mode.
4. **Connect with Geeni App:** Open the Geeni app on your device. Follow the on-screen instructions to add your new smart floodlight. The app will guide you through connecting the bulb to your 2.4GHz Wi-Fi network.

Operating Your Smart Floodlight

Geeni App Control

The Geeni app provides full control over your smart floodlight from anywhere with an internet connection.

- **Brightness Adjustment:** Easily adjust the light intensity from 1% to 100% to suit your needs.
- **Color Temperature Tuning:** Change the white light from warm (2700K) to cool (6500K) to create different ambiances.
- **Scheduling:** Set daily or weekly schedules for your floodlight to turn on and off automatically, aligning with your home routine.
- **Timer Function:** Set countdown timers for the light to turn off after a specified duration.
- **Group Control:** Group multiple Geeni smart floodlights together to control them simultaneously.
- **Share Access:** Share control of your floodlight with family members through the Geeni app.

Voice Control

The Geeni LUX Smart Floodlight is compatible with Amazon Alexa and Google Assistant, allowing for convenient voice control.

- **Linking Accounts:** Ensure your Geeni account is linked to your Amazon Alexa or Google Home app.
- **Example Commands:**
  - "Alexa, turn on the floodlight."
  - "Hey Google, set the floodlight to 50 percent brightness."
  - "Alexa, change the floodlight to cool white."

Maintenance

To ensure optimal performance and longevity of your Geeni LUX Smart Floodlight, follow these maintenance guidelines:

- **Cleaning:** Before cleaning, always turn off the power to the light fixture at the circuit breaker. Use a soft, dry cloth to wipe the bulb. Do not use liquid cleaners or abrasive materials.
- **Environmental Conditions:** The floodlight is designed to be weatherproof and suitable for outdoor use. However, avoid direct immersion in water. Ensure the fixture provides adequate protection from extreme weather conditions if necessary.
- **Bulb Replacement:** As an LED bulb, it has a long lifespan. When replacement is eventually needed, ensure power is off before unscrewing the old bulb and installing a new one.

Troubleshooting

If you encounter issues with your Geeni LUX Smart Floodlight, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bulb not connecting to Wi-Fi	Incorrect Wi-Fi band (not 2.4GHz) Weak Wi-Fi signal Bulb not in pairing mode	Ensure your router is broadcasting a 2.4GHz network and your device is connected to it during setup. Move the bulb closer to your Wi-Fi router or use a Wi-Fi extender. Power cycle the bulb (turn off and on 3 times) until it blinks rapidly to enter pairing mode.

Problem	Possible Cause	Solution
Voice control not working	Geeni account not linked Incorrect voice command Internet connectivity issues	Verify your Geeni account is correctly linked in the Alexa or Google Home app. Use the exact commands listed in the app or manual. Check your internet connection and ensure your voice assistant device is online.
Bulb unresponsive in app	Loss of Wi-Fi connection App glitch	Check your Wi-Fi network. Power cycle the bulb and restart the Geeni app. Close and reopen the Geeni app. If the issue persists, try reinstalling the app.

Resetting the Bulb

If the bulb is unresponsive or you need to re-pair it, you can perform a factory reset:

1. Turn the bulb off for 10 seconds.
2. Turn the bulb on for 2 seconds, then off for 2 seconds. Repeat this cycle 3 times.
3. On the 4th turn-on, the bulb should begin to blink rapidly, indicating it has been reset and is ready for pairing.

SPECIFICATIONS

Feature	Detail
Brand	Geeni
Model Name	LUX
Model Number	GN-BW912-999
