### GoSports GOLF-MAT-15-5x4

# GoSports Elite Golf Hitting Mat (5' x 4', 15mm Turf) - Instruction Manual

Model: GOLF-MAT-15-5x4

## INTRODUCTION

---

Thank you for choosing the GoSports Elite Golf Hitting Mat. This mat is engineered to provide a realistic and durable surface for both indoor and outdoor golf practice, simulating the feel of real fairway turf. Designed for golfers of all skill levels, it offers multiple teeing positions and robust construction to withstand extensive use. Please read this manual thoroughly to ensure proper setup, operation, and maintenance of your hitting mat.

## SETUP

---

### Unpacking and Placement

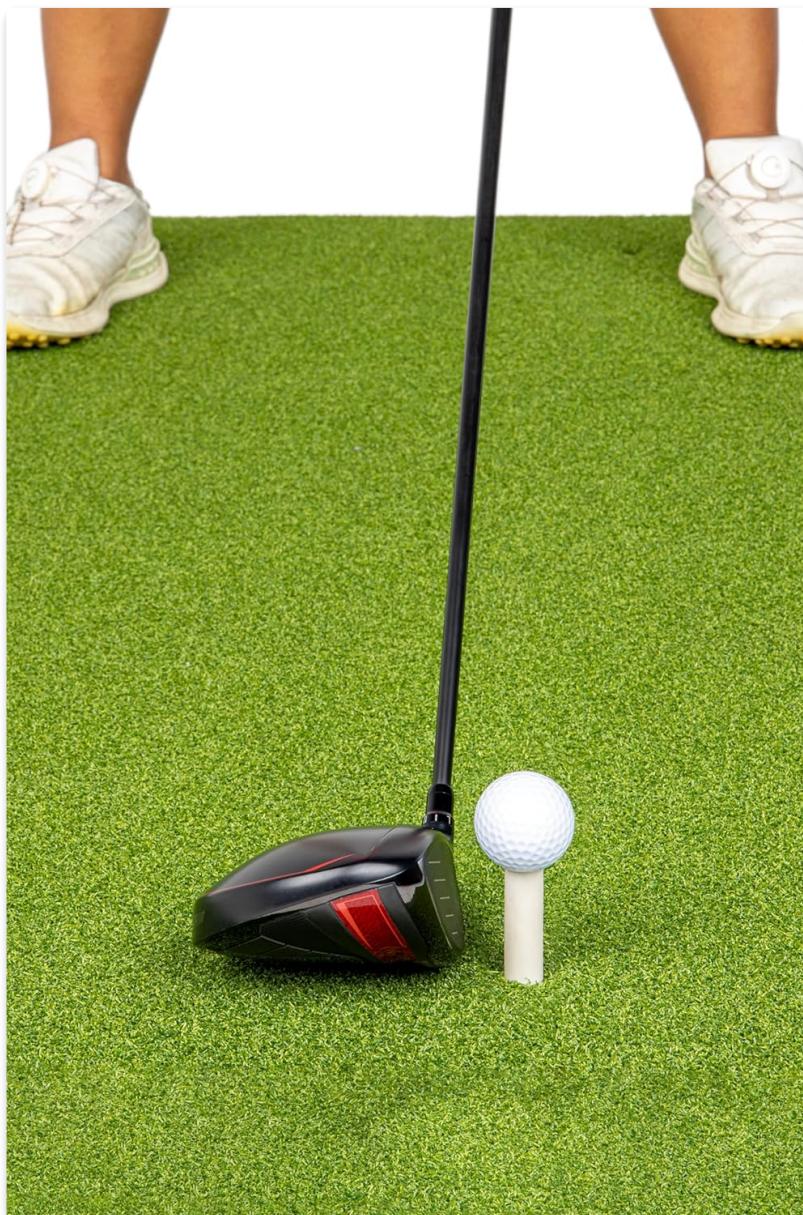

1. Carefully unroll the GoSports Elite Golf Hitting Mat on a flat, stable surface.
2. If the mat appears folded or creased from packaging, allow it to lay flat for 24-48 hours. The creases will naturally disappear over time.
3. Ensure the mat is placed on a surface that can withstand golf ball impact, especially if not using a net. For optimal performance and longevity, place the mat on a firm, level surface.

### Inserting Rubber Tees

The mat includes pre-drilled holes designed to accommodate the provided rubber tees. These tees allow for practice with various club types and shot heights.

1. Locate the tee holes on the mat. The 5' x 4' mat features 6 different teeing positions.
2. Select one of the three included rubber tees (1.5", 2.25", or 3.5") based on your desired shot type (e.g., longer tees for drivers, shorter for woods/hybrids).

3. Insert the chosen rubber tee firmly into one of the designated holes. Ensure it is stable before placing a golf ball.

**3 RUBBER TEES INCLUDED**

Practice with Common Driver Tee Heights

**3.5"**

**2.25"**

**1.5"**

## OPERATING INSTRUCTIONS

---

### General Practice Guidelines

- Always ensure you have adequate space around you to swing your golf clubs safely.
- For safety, it is highly recommended to use a golf net or enclosure when hitting balls, especially indoors or in residential areas.
- The mat's commercial-grade synthetic turf is designed to simulate real grass, providing a realistic feel for your shots.

### Using Different Clubs

- **Drivers and Woods:** Use the appropriate rubber tee height to simulate teeing off from a real tee box. The mat's durable surface is built to withstand high-speed impacts.
- **Irons and Wedges:** You can hit directly off the mat's turf surface. The 15mm foam backing provides

cushioning and forgiveness for mis-hits, reducing stress on your joints.

- Experiment with different tee positions on the mat to practice various shot angles and stances.

*Image: 15mm Mat Thickness. A detailed cross-section image highlighting the 15mm foam thickness of the mat, emphasizing its cushioning properties for impact absorption and stability on uneven surfaces.*

Your browser does not support the video tag.

*Video: This video features professional golfer Bryson DeChambeau discussing the importance of durable practice nets like "The Net Return" for consistent golf training, highlighting the benefits of a reliable home practice setup.*

## MAINTENANCE

- **Cleaning:** To clean the mat, simply brush off any loose debris or dirt. For deeper cleaning, you can use a mild soap and water solution with a soft brush, then rinse thoroughly and allow to air dry completely.
- **Storage:** When not in use, especially for extended periods, store the mat in a dry, shaded area. Rolling the mat loosely (turf side out) can help prevent permanent creasing.
- **Outdoor Use:** While designed for outdoor use, prolonged exposure to extreme weather conditions (heavy rain, intense sun, freezing temperatures) may affect the mat's longevity. Consider storing it indoors during

harsh weather.

## TROUBLESHOOTING

---

- Mat Not Lying Flat:** If the mat retains creases from packaging, place it in a warm area or under sunlight for a few hours. The material will soften and flatten out. You can also place heavy, flat objects on the affected areas overnight.
- Excessive Wear in One Spot:** To maximize the lifespan of your mat, rotate it periodically to distribute wear evenly across different hitting areas. The mat's design with multiple tee holes allows for this flexibility.
- Mat Sliding During Use:** Ensure the mat is placed on a clean, dry, and firm surface. The non-slip foam backing is designed to minimize movement, but extreme force or slick surfaces may cause slight shifting.

## SPECIFICATIONS

---

Feature	Detail
Brand	GoSports
Model Name	ELITE Golf Hitting Mats for Indoor/Outdoor Practice
Model Number	GOLF-MAT-15-5x4
Dimensions (L x W x H)	60"L x 48"W x 0.59"Th (5' x 4' x 15mm)
Material	Commercial Grade Synthetic Turf, Foam, Plastic
Mat Thickness	15mm
Included Components	Hitting Mat, 3 Rubber Tees
Hole Count	6 Teeing Positions
Form Factor	Foldable
