XMCOSY+ YJ-SW15A

XMCOSY+ Smart Outdoor String Lights - User Manual

Model: YJ-SW15A

Length: 49 Feet (15 Bulbs)

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installation and use. Retain this manual for future reference.

- This product is designed for outdoor use with an IP65 waterproof rating, making it resistant to water, wind, snow, and sun.
- The bulbs are shatterproof plastic, not glass, for enhanced durability and safety.
- Operates on a safe 12V low voltage output. The product is ETL certified to ensure user safety.
- Ensure the power source is compatible with the product's input voltage (110-240V AC).
- Do not submerge the power adapter or connections in water. Ensure all connections are securely tightened to maintain waterproof integrity.
- Avoid installing near heat sources or in areas with excessive vibration.
- Always unplug the lights from the power source before performing any maintenance or bulb replacement.

PACKAGE CONTENTS

Your XMCOSY+ Smart Outdoor String Lights package includes the following items:

- 1 x 49Ft String Light with 15 Sockets
- 15 x S14 LED Bulbs (E26 base)
- 1 x Spare S14 LED Bulb
- 1 x Power Adapter

Image: The complete package showing the string lights, individual bulbs, and the power adapter.

SETUP GUIDE

1. Pre-installation Checks

- Unpack all components and inspect for any damage.
- Ensure your desired installation location has access to a compatible power outlet (110-240V AC).

2. Mounting Instructions

The string lights feature built-in hooks above each bulb socket for easy hanging. You can use various methods for installation:

- **Using Hooks:** Securely attach the built-in hooks to nails, screws, or cup hooks on walls, fences, pergolas, or other structures.

- **Using Zip Ties:** For a more secure and flexible installation, use zip ties to fasten the string lights to cables, railings, or tree branches.
- **Extendable Design:** Multiple string light sets can be connected in series, allowing you to extend the total length up to 200 feet for larger spaces.

Brightness Dimmable by Phone

Image: A detailed diagram illustrating the 49-foot length, spacing between bulbs, and the connectable feature for extending the string lights.

3. Connecting to Power

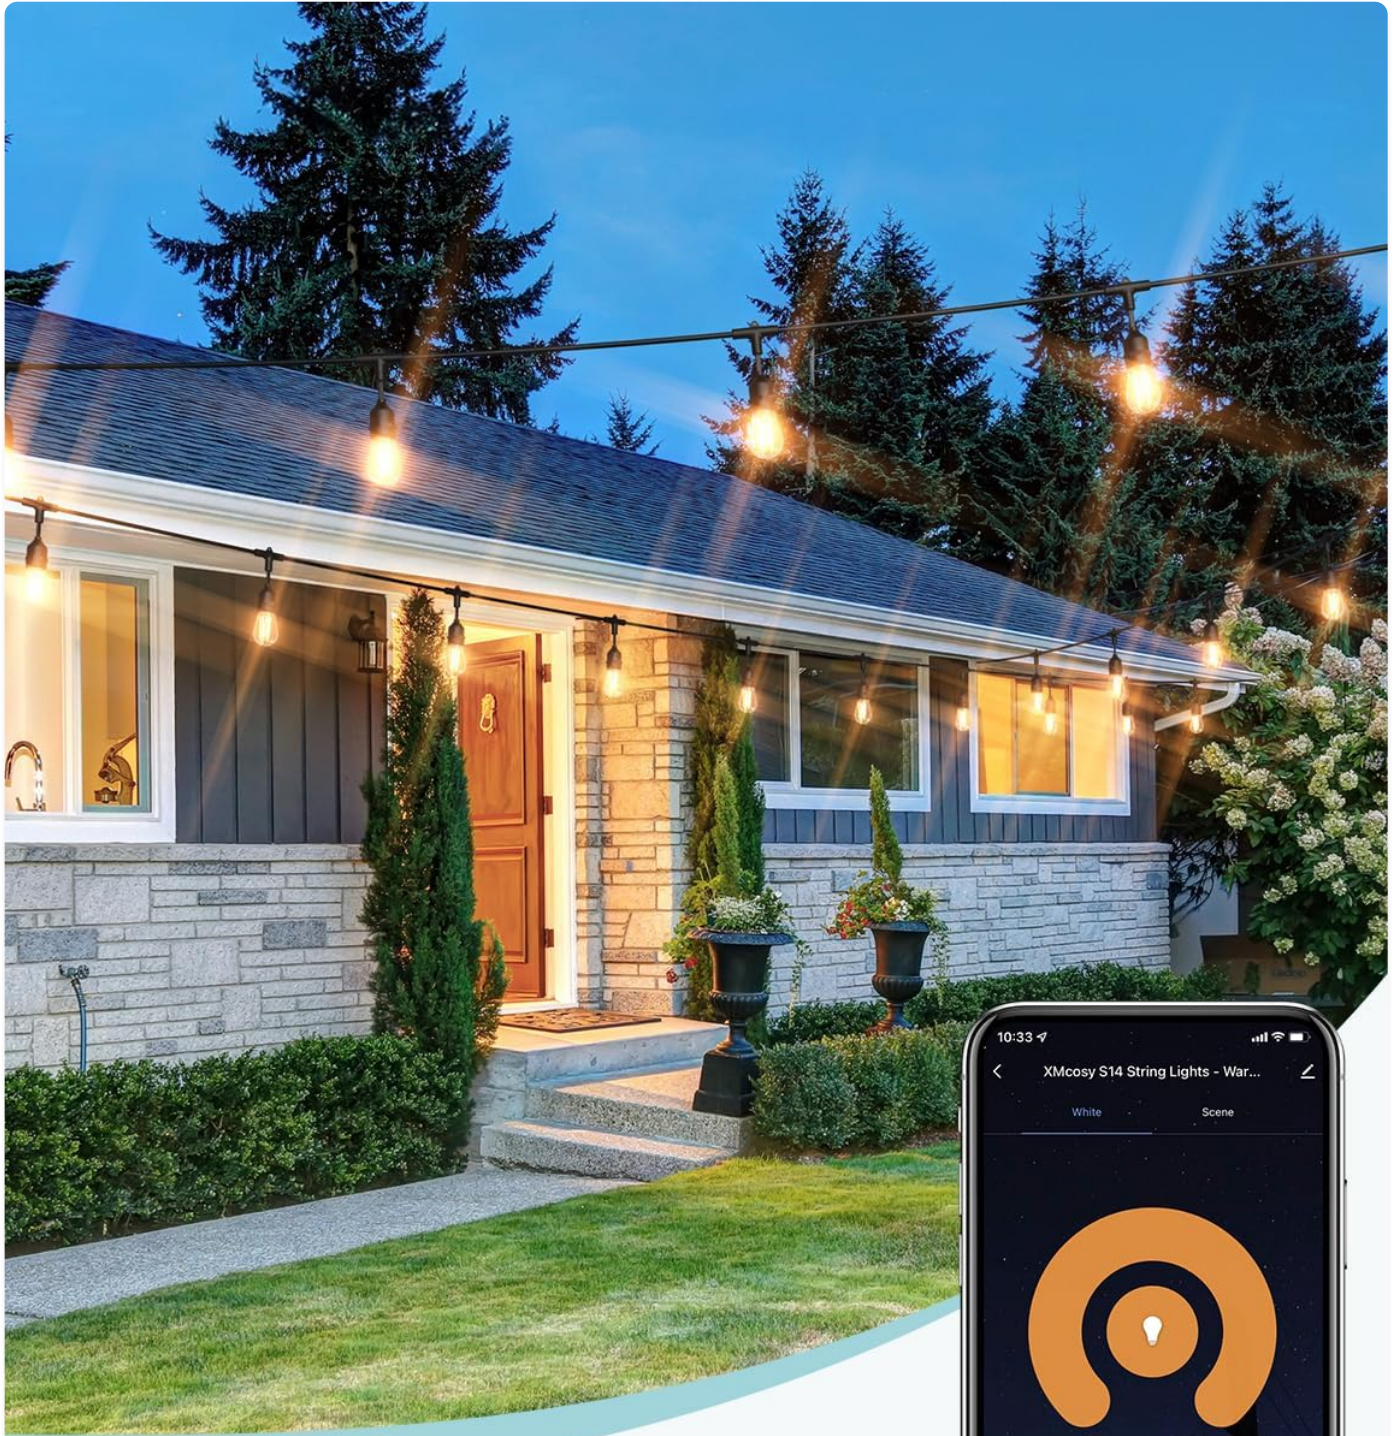

Once mounted, simply connect the power adapter to a suitable outdoor power outlet. The lights will illuminate automatically or can be controlled via the app/voice commands.

OPERATING INSTRUCTIONS

1. App Control

Download the **XMcosy App** from your smartphone's app store (available for iOS and Android). Follow the in-app instructions to pair your string lights with your device.

- **Brightness Adjustment:** Use the app to customize the brightness from 1% to 100% to set the perfect ambiance.
- **Light Scenes:** Select from various pre-set light scenes or create your own custom scenes.
- **Scheduling:** Set daily schedules for the lights to automatically turn on/off at specific times.

Smart APP Control

Set your lights anytime, anywhere

MAINTENANCE & CARE

The XMCOSY+ string lights are built for durability and minimal maintenance.

- **Weather Resistance:** With an IP65 waterproof rating and shatterproof bulbs, these lights are designed to withstand various weather conditions including rain, wind, snow, and sun.
- **Cleaning:** To clean the bulbs and string, gently wipe them with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Bulb Replacement:** The S14 LED bulbs have an E26 base and are easily replaceable. A spare bulb is included in the package. Ensure the lights are unplugged before attempting to replace any bulbs.

IP65 Waterproof

TROUBLESHOOTING

If you encounter any issues with your XMCOSY+ Smart Outdoor String Lights, please refer to the following common solutions:

• **Lights Not Turning On:**

- Ensure the power adapter is securely plugged into a working outlet.
- Check all connections along the string light for tightness.
- Verify that the lights are not set to an 'off' schedule in the app.

• **Connectivity Issues (App/Voice Control):**

- Confirm your Wi-Fi network is 2.4GHz, as the lights do not support 5GHz.
- Ensure your Wi-Fi router password is correctly entered in the app.
- Restart your Wi-Fi router and the string lights by unplugging and re-plugging them.
- Make sure your smartphone's Bluetooth and location services are enabled for initial pairing.

• **Individual Bulb Not Working:**

- Unplug the string lights and carefully unscrew and re-screw the affected bulb to ensure proper contact.
- If the issue persists, replace the bulb with the spare provided or a new compatible S14 LED bulb.

SPECIFICATIONS

Brand	XMCOSY+
Model	YJ-SW15A
Total Length	49 Feet
Number of Light Sources	15 + 1 Spare
Bulb Type	S14 LED (Dual Filament)
