3. PRODUCT OVERVIEW

The Imou Cell 2 is a 4MP QHD outdoor battery camera designed for comprehensive home surveillance. It features full-color night vision, PIR human detection, and two-way audio.

Image 3.1: Front and side view of the Imou Cell 2 camera, showing lens, spotlight, and microphone.

Key Features:

- **4MP QHD Resolution:** Captures clear video footage day and night.
- **Smart Color Night Vision:** Integrated spotlight enables full-color viewing in low-light conditions.
- **100% Wire-Free:** Operates on a rechargeable battery and Wi-Fi connectivity for flexible placement.
- **PIR Human Detection:** Reduces false alarms by accurately detecting human movement.
- **Two-Way Audio:** Allows for communication with visitors or deterrence of intruders.
- **H.265 Video Compression:** Efficiently stores video while maintaining quality.

4. SETUP INSTRUCTIONS

4.1 Initial Battery Charge

Before first use, fully charge the camera's battery using the provided charging cable. Connect the cable to the camera and a standard USB power adapter (not included). The charging indicator light will show the charging status.

4.2 Imou Life App Installation

1. Download the "Imou Life" app from your mobile device's app store (iOS or Android).
2. Register for an Imou account or log in if you already have one.
3. Follow the in-app instructions to add your Imou Cell 2 camera. This typically involves scanning a QR code on the camera and connecting it to your Wi-Fi network.

4.3 Mounting the Camera

Choose a suitable location for your camera, ensuring good Wi-Fi signal strength and an unobstructed view of the area you wish to monitor. The camera is designed for outdoor use.

1. Use the mounting template to mark the drill holes on the desired surface.
2. Drill holes and insert the wall plugs if mounting on masonry.
3. Attach the mounting plate using the provided screws.
4. Secure the mounting bracket to the mounting plate.
5. Attach the camera to the mounting bracket and adjust its angle for optimal coverage.

5. OPERATING INSTRUCTIONS

5.1 Live View and Recording

Access the Imou Life app to view live footage from your camera. You can manually record video or take snapshots directly from the live view interface. The camera also records automatically based on motion

detection settings.

5.2 Motion Detection and Alerts

Configure PIR human detection sensitivity and alert preferences within the Imou Life app. When human motion is detected, the camera will send notifications to your mobile device and begin recording.

5.3 Smart Color Night Vision

The camera automatically activates its built-in spotlight to provide full-color video in low-light conditions. This feature can be configured in the app settings.

5.4 Two-Way Audio

Use the microphone and speaker functions in the Imou Life app to communicate through the camera. Press the microphone icon in the live view to speak, and release to listen.

6. MAINTENANCE

6.1 Battery Management

The Imou Cell 2 camera is designed for up to 6 months of battery life under normal usage conditions. Battery performance may vary based on usage frequency, temperature, and Wi-Fi signal strength. Recharge the battery when the app indicates a low power level.

6.2 Cleaning

Periodically clean the camera lens and housing with a soft, dry cloth to ensure clear image quality. Do not use harsh chemicals or abrasive cleaners.

6.3 Firmware Updates

Ensure your camera's firmware is up to date through the Imou Life app. Firmware updates often include performance improvements and security enhancements.

7. TROUBLESHOOTING

Camera not connecting to Wi-Fi:
Ensure your Wi-Fi network is 2.4GHz. Check Wi-Fi signal strength at the camera's location. Restart your router and the camera.

Poor image quality:
Clean the camera lens. Ensure there are no obstructions in the camera's field of view. Check your internet connection speed.

Battery drains quickly:
Reduce motion detection sensitivity or frequency of recordings. Ensure the camera is not in an area with constant activity. Extreme temperatures can affect battery life.

No motion detection alerts:
Verify that motion detection is enabled in the Imou Life app settings. Check notification settings on your mobile device. Ensure the camera's field of view covers the desired area.

8. SPECIFICATIONS

Model Name	Imou Cell 2
Item Model Number	IPC-B46LP
Resolution	4MP QHD (2K)
Connectivity Technology	Wireless (Wi-Fi)
Power Source	Battery Powered (1 Lithium Ion battery required)
Special Features	HD Resolution, Night Vision (Color Night Vision)
Indoor/Outdoor Use	Outdoor
Product Dimensions	205 x 72 x 148 cm; 314 g
Compatible Devices	Desktop, Laptop (via app)
Controller Type	iOS (and Android)

9. SAFETY INFORMATION

- Do not disassemble or attempt to repair the camera yourself. Refer all servicing to qualified personnel.
- Use only the specified charging cable and power adapter.
- Keep the camera away from extreme temperatures, direct sunlight, and moisture.
- Ensure the camera is securely mounted to prevent accidental falls.
- Dispose of batteries according to local regulations.

10. WARRANTY AND SUPPORT

The Imou Cell 2 camera comes with a manufacturer's warranty. Please refer to the warranty card included in your package or visit the official Imou website for detailed warranty terms and conditions.
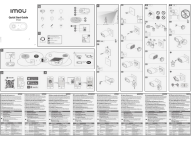

For technical support, product inquiries, or warranty claims, please contact Imou customer service through their official website or the Imou Life app.

Net: 99.41 EUR Gross: 122.27 EUR

The cameras of the IMOU series have been designed with special care to simplify the configuration and operation. Thanks to the battery power, you can place them anywhere without any wiring problems. In combination with the user friendly IMOU platform, the IMOU series devices allow anyone to create a simple and effective surveillance system.

Very easy operation via mobile devices (Android / iOS), allows the users for comfortable and remote operation, and also management of the camera. The used Wi-Fi module allows to remote communication with camera for max. distance up to 50 m.

The device is ideal for eg. as a baby monitor, with mobile image view on smartphone and possibility of bi-directional audio transmission. For outdoor use. Camera is according to IP65 Index of Protection norm.

SPECIFICATION

Standard:	TCP/IP
Sensor:	1/2.8 " Progressive Scan CMOS
Resolution:	4 Mpx.
Matrix size:	2560 x 1440 - 3.7 Mpx
Lens:	2.8 mm
View angle:	110 °
Range of IR illumination:	---
White light LED illuminator range:	10 m
Audio:	• Microphone built-in, • Speaker built-in / Alarm siren - 110 dB, • Bi-directional audio streaming support
Image compression method:	H.265 / H.264
Main stream frame rate:	15 fps @ 3.7 Mpx
Network protocols:	TCP, DHCP
ONVIF:	—
Network interface:	Wi-Fi - IEEE 802.11 b/g/n/ac - 2.4 / 5 GHz
Mobile phones support:	Access to a cloud (P2P)
Default admin user / password:	admin / The administrator password should be set at the first start
