The chair is shown positioned in front of a desk with a computer monitor, illustrating its suitability for both gaming and professional use within a home or office setup.

2. SETUP AND ASSEMBLY

The Diablo X-Player 2.0 Gaming Chair requires assembly. Please follow these instructions carefully to ensure proper and safe setup. Assembly typically takes approximately 45 minutes.

2.1. Unpacking

- Carefully open the packaging and remove all components.
- Verify that all parts listed in the packing list are present.
- Locate the small plastic container which holds the assembly tools (Allen key/screwdriver) and the instruction manual.

2.2. Assembly Steps

While specific steps are detailed in the included manual, general assembly involves:

1. Attaching the wheels to the base.
2. Inserting the gas lift into the base.
3. Securing the seat mechanism to the seat base.
4. Attaching the backrest to the seat base.
5. Mounting the armrests.
6. Placing the assembled seat onto the gas lift.

3. OPERATING INSTRUCTIONS

The Diablo X-Player 2.0 Gaming Chair offers various adjustments to customize your seating experience for optimal comfort and support.

3.1. Height Adjustment

To adjust the chair's height, locate the lever on the right side beneath the seat. Pull the lever up while seated to lower the chair, or pull it up while standing to raise the chair. Release the lever at the desired height.

3.2. Backrest Recline (Tilttech Gear)

The backrest can be reclined up to approximately 160 degrees. Use the lever on the left side of the chair to adjust the recline angle. Push the lever down to unlock and recline, then release to lock at your preferred angle.

This image illustrates the range of recline angles available with the Tilttech Gear mechanism, from upright (90° for work) to fully reclined (160° for turbo nap), including gaming (120°) and movie (140°) positions.

3.3. Rocking Function (Tilttech Swing)

The chair features a rocking function for dynamic seating. To activate, pull out the lever on the right side (the same lever used for height adjustment). Push it back in to lock the chair in an upright position.

This diagram shows the chair's rocking motion and the 'ON/OFF' switch for the Tilttech Swing function, allowing users to engage or disengage the rocking feature.

3.4. Armrest Adjustment (Armtech Hybrid)

The 3D adjustable armrests provide versatile support for your arms and shoulders. They can be adjusted in

three dimensions:

- **Height Adjustment:** Press the button on the side of the armrest and move it up or down.
- **Forward/Backward Slide:** Slide the armrest pad forward or backward.
- **Swivel:** Rotate the armrest pad left or right.

4. MAINTENANCE

Proper maintenance will extend the life and appearance of your Diablo X-Player 2.0 Gaming Chair.

4.1. Cleaning

- The chair's faux leather and fabric covers are designed for easy maintenance.
- For general cleaning, use a soft, damp cloth to wipe down surfaces.
- For spills or stains, perform a spot clean using a mild soap solution and a clean cloth. Avoid harsh chemicals or abrasive cleaners.
- Ensure the chair is completely dry before use.

4.2. General Care

- Regularly check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- Keep the chair away from direct sunlight and heat sources to prevent material degradation.

- The abrasion-resistant rubber wheels are designed to prevent scratches on most floor types. Keep the wheels clean from debris to ensure smooth movement.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your gaming chair.

5.1. Squeaking Noises

- **Issue:** The chair produces squeaking noises during use.
- **Solution:** Squeaking often indicates friction between moving parts. Apply a small amount of silicone-based lubricant to the joints of the seat mechanism, the gas lift, and the connections where the backrest meets the seat. Ensure all bolts are securely tightened.

5.2. Wobbly Armrests

- **Issue:** The armrests feel wobbly or loose.
- **Solution:** Check the screws that secure the armrests to the chair's frame. Tighten them using the provided Allen key. If the armrest pad itself is wobbly, ensure its internal locking mechanism is engaged after adjustment.

5.3. Chair Not Adjusting Height

- **Issue:** The chair's height adjustment is not functioning.
- **Solution:** Ensure the height adjustment lever is fully engaged. Check if the gas lift cylinder is properly seated in the base and the seat mechanism. If the issue persists, the gas lift may need replacement.
