ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your monster cars:

- 1. Prepare your workspace:** Ensure you have a clean, flat surface, preferably covered to protect from paint spills.
- 2. Choose your colors:** Select the paints you wish to use for your monster car shell.
- 3. Paint the car shell:** Use the provided paint brushes to color your chosen monster car shell. Allow the paint to dry completely before proceeding to the next step.
- 4. Assemble the car shell onto the base:** Once the paint is dry, align the painted monster car shell with one of the assembled friction-powered car bases. Gently press the shell onto the base until it clicks securely into place. Ensure all tabs are engaged.

OPERATING INSTRUCTIONS

Your monster cars are friction-powered. To operate:

1. Place the assembled monster car on a flat surface.
2. Push the car forward a few times to build up friction.
3. Release the car, and it will move forward on its own.

CARE AND MAINTENANCE

- Wipe the car shells with a damp cloth if they become dirty. Avoid harsh chemicals.
- Store paints with lids tightly closed to prevent drying.
- Keep the kit in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Problem	Solution
Car shell does not attach securely to the base.	Ensure the shell is correctly aligned with the base and press firmly until it clicks. Check for any obstructions.
Paint is not drying properly.	Ensure thin layers of paint are applied. Allow adequate drying time between coats and in a well-ventilated area. Humidity can affect drying time.

Problem	Solution
Friction car is not moving.	Push the car forward multiple times on a flat, smooth surface to engage the friction mechanism. Ensure the wheels are clean and free of debris.
