Ninja C38000

Ninja Foodi NeverStick Premium Cookware Set User Manual

Model: C38000

Product Overview

The Ninja Foodi NeverStick Premium Cookware is engineered for exceptional durability and nonstick performance. Manufactured at an extreme temperature of 30,000°F, its unique plasma ceramic particles are fused to the surface, creating a super-hard, textured base that interlocks with the exclusive coating. This design ensures superior food release without sticking, chipping, or flaking, unlike traditional pans. The hard-anodized exterior provides robust scratch resistance, similar to stainless steel, while the heavy-gauge 4.5 mm aluminum base promotes quick and even heat distribution, preventing hot spots for consistent cooking results.

Setup and First Use

Before first use, wash all cookware pieces and lids thoroughly with warm, soapy water. Rinse and dry completely. It is recommended to hand wash for initial cleaning. For optimal performance and longevity, avoid using aerosol cooking sprays as they can leave a residue that may affect the nonstick properties over time. When storing, place paper towels or soft cloths between stacked pans to prevent unnecessary scratches to the nonstick surface.

Operating Instructions

This cookware set is versatile and compatible with all stovetop types, including gas, electric, glass ceramic, and induction. For best results, always preheat your pan on the stovetop before adding ingredients. The heavy-gauge aluminum base ensures quick and even heat distribution, minimizing hot spots. The cookware is oven safe up to 500°F, allowing for seamless transitions from stovetop to oven for finishing dishes, browning toppings, or baking. The tempered glass lids are oven safe up to 400°F.

- **Stovetop Compatibility:** Suitable for gas, electric, glass ceramic, and induction cooktops.
- **Oven Safety:** Pans are oven safe up to 500°F. Lids are oven safe up to 400°F.
- **Cooking Versatility:** Designed for searing like stainless steel without excessive oil or butter. Ideal for sautéing, griddling, pan frying, shallow frying, braising, baking, roasting, and broiling.
- **Utensil Compatibility:** The durable NeverStick coating is metal-utensil safe, allowing use of spoons, whisks,

spatulas, and tongs without damage.

Maintenance and Cleaning

The NeverStick cooking surface is designed for easy cleanup. Food residue wipes clean effortlessly. While the cookware is dishwasher-safe, hand washing with warm, soapy water is recommended for prolonged life and to maintain the aesthetic finish. Avoid abrasive cleaners or scouring pads that could damage the exterior finish, although the nonstick interior is highly durable.

Troubleshooting

Issue	Possible Cause / Solution
Scratches on Glass Stovetop	The Ninja Foodi NeverStick cookware is designed to be safe for glass stovetops and should not cause scratches under normal use. Ensure the stovetop surface and the pan's base are clean before placing the pan to prevent abrasive particles from causing damage.
Handles Getting Hot	While the stainless-steel handles are ergonomically designed for comfort, they can become hot during prolonged stovetop use or when used in the oven. Always use oven mitts or pot holders when handling hot cookware.
Nonstick Coating Degradation (Peeling/Flaking)	The NeverStick coating is highly durable and designed to resist chipping and flaking. Ensure you are following all care instructions, including avoiding aerosol cooking sprays and extreme overheating. If degradation occurs despite proper use, refer to the warranty information.
Food Sticking	Always preheat the pan properly before adding food. While the nonstick surface is excellent, a small amount of cooking oil or butter can enhance food release and flavor, especially for certain foods. Avoid high heat settings for extended periods.

Specifications

Brand: Ninja

Model Number: C38000

Material: Hard-Anodized Aluminum (Cookware Body), Tempered Glass (Lids), Stainless Steel (Handles)

Color: Slate Grey

Number of Pieces: 8-piece set

Included Components:

- 8-Inch Fry Pan
- 10.25-Inch Fry Pan with Glass Lid
- 2.5-Quart Saucepan with Glass Lid
- 3-Quart Sauté Pan with Glass Lid
- 6.5-Quart Stock Pot with Glass Lid

Oven Safe: Yes, up to 500°F (Pans), 400°F (Lids)

Dishwasher Safe: Yes

Stovetop Compatibility: Gas, Electric, Glass Ceramic, Induction

Utensil Compatibility: Metal-utensil safe

Material Type Free: PTFE Free

Item Weight: 20.9 pounds

Package Dimensions: 26.25 x 17.5 x 9 inches
