Nania Dream Group 2/3 Adventure Zebra Car Booster Seat Instruction Manual

INTRODUCTION

This instruction manual provides detailed guidance for the safe and proper use of the Nania Dream Group 2/3 Adventure Zebra Car Booster Seat. This booster seat is designed for children weighing between 15 kg and 36 kg (approximately 4 to 12 years old), corresponding to Group 2/3. Please read this manual carefully before installation and keep it for future reference. Proper installation and use are crucial for your child's safety.

SAFETY INFORMATION

- Always ensure the booster seat is correctly installed and secured in the vehicle.
- The booster seat must only be used with a 3-point vehicle seat belt.
- Ensure the vehicle seat belt is routed correctly through the designated guides on the booster seat and is snug against your child's body, without twists.
- Never leave your child unattended in the booster seat.
- This booster seat is designed for forward-facing use only.
- Do not modify the booster seat in any way. Any modifications can compromise its safety.
- In the event of an accident, the booster seat should be replaced, even if there is no visible damage.
- The Nania Dream booster seat complies with European safety standard ECE R44/04.

PRODUCT OVERVIEW

Features

- **Group 2/3 Classification:** Suitable for children weighing 15-36 kg.
- **Comfortable Design:** Features small armrests and a high seating position for enhanced comfort.
- **Removable Comfort Cover:** The cover can be removed for easy cleaning.
- **Adventure Zebra Design:** Unique and engaging zebra pattern.
- **Made in France:** Manufactured in France, ensuring quality standards.

Components

The Nania Dream booster seat consists of a sturdy base with integrated armrests and a comfortable, padded cover. The design includes specific guides for the vehicle's 3-point seat belt.

SETUP AND INSTALLATION

- 1. Placement:** Position the Nania Dream booster seat on a suitable vehicle seat. Ensure the vehicle seat is firm and provides adequate support for the booster seat.
- 2. Child Positioning:** Place your child in the booster seat. Ensure their back is flat against the backrest of the booster seat (if applicable, or the vehicle seat if it's a backless booster).
- 3. Seat Belt Routing:** Pull the vehicle's 3-point seat belt over your child and the booster seat.
 - The lap portion of the seat belt must pass under the armrests of the booster seat and lie low across your child's hips, not across their stomach.
 - The diagonal (shoulder) portion of the seat belt must pass through the shoulder belt guide (if present, or over the child's shoulder) and lie across the center of your child's shoulder and chest, not on their neck or off their shoulder.
- 4. Securing the Belt:** Buckle the vehicle seat belt. Pull the diagonal belt upwards to remove any slack, ensuring the belt is snug against your child and the booster seat.
- 5. Final Check:** Verify that the booster seat is stable and the seat belt is correctly routed and tensioned.

The booster seat relies on the vehicle's seat belt to secure both the child and the booster seat itself.

OPERATING INSTRUCTIONS

Once installed, the Nania Dream booster seat is straightforward to use. Each time your child uses the booster seat, ensure the following:

- The booster seat is placed flat on the vehicle seat.
- Your child is seated correctly with their back against the booster seat.
- The vehicle's 3-point seat belt is properly routed through the guides and securely buckled.
- The seat belt is tight and free from twists, lying across the child's hips and shoulder/chest as described in the installation section.

Always check the belt tension and routing before every journey.

MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and hygiene of your Nania Dream booster seat.

- **Cleaning the Cover:** The comfort cover is removable and can be machine washed at 30°C. Refer to the care label on the cover for specific instructions. Do not tumble dry or iron.
- **Cleaning the Base:** The plastic base can be wiped clean with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically inspect the booster seat for any signs of wear, damage, or loose parts. If any damage is found, discontinue use and contact the manufacturer.

Figure 4: The comfort cover of the Nania Dream booster seat is designed for easy removal and cleaning, indicated by the 30° wash symbol.

TROUBLESHOOTING

If you encounter any issues with your Nania Dream booster seat, consider the following common solutions:

- **Booster Seat Feels Loose:** Ensure the vehicle's 3-point seat belt is properly tensioned and routed. The booster seat is secured by the vehicle's seat belt when the child is seated and buckled.
- **Seat Belt Not Fitting Correctly:** Double-check that the lap belt is low across the hips and the shoulder belt is across the shoulder/chest, not the neck. Adjust the child's position if necessary.
- **Child Discomfort:** Ensure the child is dressed appropriately and the seat belt is not too tight or

rubbing. The booster seat is designed for comfort with its padded cover and armrests.
For persistent issues or concerns, please contact Nania customer support or the retailer.
