Delatanus 5mm Spoon Shape Shelf Pegs Instruction Manual

Model: PINGPANG-50

1. PRODUCT OVERVIEW

The Delatanus 5mm Spoon Shape Shelf Pegs are designed to provide reliable support for shelves in cabinets, wardrobes, bookcases, and other furniture. These nickel-plated pegs feature a spoon shape for enhanced stability and are suitable for standard 5mm shelf holes.

Each package contains 60 pieces, offering ample supply for various projects or replacements.

Image 1.1: Overview of Delatanus 5mm Spoon Shape Shelf Pegs. These pegs are designed for supporting shelves in various furniture types.

2. SAFETY INFORMATION

- Keep these small parts out of reach of children to prevent choking hazards.
- Ensure that shelf holes are clean and free of debris before inserting pegs.
- Verify the correct hole size (5mm) to ensure a secure fit and prevent shelf collapse.
- Do not overload shelves beyond their structural capacity, even with properly installed pegs.

3. PACKAGE CONTENTS

- 60 x Delatanus 5mm Spoon Shape Shelf Pegs

4. SETUP AND INSTALLATION

1. **Verify Hole Size:** Before installation, confirm that the shelf holes in your furniture are 5mm in diameter. Use a caliper or a 5mm drill bit to check if unsure. These pegs are specifically designed for

5mm holes.

Image 4.1: Measuring a shelf peg to confirm 5mm diameter. Accurate measurement ensures proper fit.

2. **Insert Pegs:** Gently push the cylindrical end of the shelf peg into the desired 5mm holes. Ensure the spoon-shaped support rests flush against the cabinet wall.

Image 4.2: Shelf peg installation. The left image shows a peg inserted into a hole, and the right image shows a shelf resting on the installed peg.

3. **Leveling:** Install pegs at the same height on opposing sides to ensure the shelf is level.
4. **Shelf Placement:** Carefully place your shelf onto the installed pegs, ensuring it sits securely on all four (or more, depending on shelf size) support pegs.

5. USAGE

These shelf pegs are designed for supporting adjustable shelves in various furniture pieces. Once installed, they provide a stable base for your shelves. Periodically check the pegs for any signs of wear or loosening, especially if the shelves hold heavy items.

6. MAINTENANCE

- **Cleaning:** Wipe the pegs with a dry or slightly damp cloth if they become dusty. Avoid abrasive cleaners.
- **Inspection:** Regularly inspect the pegs and the shelf holes for any signs of damage or wear. Replace any damaged pegs immediately to maintain shelf stability.

7. TROUBLESHOOTING

- **Pegs do not fit:** Ensure the shelf holes are exactly 5mm in diameter. These pegs are not compatible with other sizes. Do not force pegs into smaller holes, as this can damage the furniture.
- **Shelf is unstable:** Verify that all pegs are fully inserted and seated flush against the cabinet wall. Ensure pegs are installed at the same height. Check if the shelf itself is warped or damaged.
- **Pegs fall out:** If pegs are loose, the hole might be slightly larger than 5mm, or the material around the hole might be damaged. Consider using a different hole or repairing the existing one if possible.

8. SPECIFICATIONS

Feature	Detail
Model Number	PINGPANG-50
Peg Diameter	5mm

Peg Pin Length	8.7mm
Total Length	19mm
Material	Nickel Plated
Quantity	60 pieces
