LynPon D00061

LynPon 8-Light Farmhouse Chandelier Instruction Manual

Model: D00061

INTRODUCTION

Thank you for choosing the LynPon 8-Light Farmhouse Chandelier. This fixture is designed to bring a timeless and elegant touch to various spaces, including dining rooms, kitchens, foyers, living rooms, bedrooms, and hallways. Crafted from premium metal with a matte black finish, it offers both vintage charm and modern durability. This manual provides detailed instructions for safe installation, operation, and maintenance of your new chandelier.

SAFETY INFORMATION

WARNING: Risk of Electric Shock. Disconnect power at the fuse box or circuit breaker before installation or servicing.

- Read all instructions carefully before beginning installation.
- All electrical connections must be in accordance with local codes and ordinances, National Electric Code (NEC), and ANSI/NFPA 70-1999.
- If you are unfamiliar with electrical wiring, consult a qualified electrician.
- Use only the recommended bulb type and wattage to avoid overheating.
- Do not connect this fixture to an ungrounded electrical system.
- Do not handle the fixture or bulbs with wet hands.
- Ensure the mounting surface can support the weight of the fixture.

PACKAGE CONTENTS

Carefully unpack all components and inspect for any damage. Retain all packaging materials until installation is complete and the fixture is working correctly.

- Chandelier Body (1)
- Adjustable Chain (1) - 59 inches long
- Canopy/Mounting Plate (1)
- Mounting Hardware (Screws, Nuts, Washers)
- Wire Connectors (Tool-free combination connectors)
- Instruction Manual (1)

Key components of the chandelier, including the metal frame, ceiling mount, and E12 bulb base.

Tool-free combination wire connectors for simplified installation.

SETUP (INSTALLATION)

This chandelier features a hardwired design for direct ceiling installation. It is suitable for flat, sloped, or vaulted ceilings. Follow these steps for a safe and efficient setup:

1. **Turn Off Power:** Before starting, ensure the power supply to the installation area is turned off at the circuit breaker or fuse box.
2. **Prepare Mounting Surface:** Securely attach the mounting plate to the ceiling junction box using the provided mounting hardware. Ensure the plate is firmly fixed and can support the chandelier's weight.
3. **Adjust Chain Length:** The 59-inch chain is adjustable. Determine the desired hanging height (range 14.6" - 76.7") and remove excess chain links if necessary.
4. **Connect Wiring:** Carefully connect the chandelier's wires to your household wiring using the tool-free combination connectors. Connect live to live, neutral to neutral, and ground to ground. Ensure all connections are secure.
5. **Secure Canopy:** Once wiring is complete, push the canopy up to the ceiling and secure it to the mounting plate with the provided screws.

6. **Install Bulbs:** Insert 8 E12 base bulbs (Max 60W each, not included) into the sockets. Candelabra-style bulbs are recommended.
7. **Restore Power:** Turn the power back on at the circuit breaker or fuse box.

OPERATING INSTRUCTIONS

The LynPon chandelier is designed for simple operation once installed.

- **Power On/Off:** Control the chandelier using your standard wall switch.
- **Dimmable Functionality:** For dimming capabilities, install a compatible dimmer switch (not included) and use dimmable E12 bulbs. This allows you to adjust the light intensity to create your desired ambiance.
- **Bulb Compatibility:** The fixture supports LED, Edison, smart bulbs, and dimmable CFL or halogen bulbs with an E12 base, up to 60W per bulb.

The chandelier providing bright and adjustable lighting in a dining room setting.

MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your chandelier.

- **Cleaning:** To clean the fixture, disconnect power and wipe with a soft, dry cloth. Do not use abrasive cleaners, polishes, or any cleaning agents containing alcohol, benzene, or ammonia, as these may damage the finish.
- **Bulb Replacement:** Ensure power is off before replacing bulbs. Allow bulbs to cool completely before touching. Replace with E12 base bulbs, maximum 60W.
- **Inspection:** Periodically check all electrical connections and mounting hardware for tightness.

TROUBLESHOOTING

If you encounter issues with your chandelier, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture; Loose wiring; Faulty bulb.	Check circuit breaker/fuse. Ensure all wire connections are secure. Replace bulb.
Light flickers.	Loose bulb; Incorrect bulb type; Incompatible dimmer switch.	Tighten bulb. Ensure bulb is dimmable if using a dimmer. Replace dimmer with a compatible one.
Chandelier is unstable.	Improper mounting; Loose chain links.	Ensure mounting plate is securely fastened to the junction box. Check chain links for proper connection.
