# Husky 26 in. W 4-Drawer Rolling Cabinet Tool Box Chest Instruction Manual

Model: HKST98066BK | Brand: Husky

## 1. INTRODUCTION

Thank you for choosing the Husky 26 in. W 4-Drawer Rolling Cabinet Tool Box Chest. This manual provides essential information for the safe and efficient setup, operation, and maintenance of your new tool cabinet. Please read all instructions carefully before use and retain this manual for future reference. This robust tool cabinet is designed for organizing and storing a variety of tools and supplies. It features smooth-operating ball bearing drawers, a secure locking system, and durable casters for easy mobility, making it an ideal storage solution for garages, workshops, and utility rooms.

## 2. SAFETY INFORMATION

**WARNING: Failure to follow these safety instructions may result in injury or property damage.**

- Always place the tool cabinet on a level, stable surface.
- Do not overload drawers. Refer to the specifications for individual drawer weight limits.
- Distribute weight evenly across drawers to prevent tipping.
- Do not open more than one drawer at a time, especially when drawers are heavily loaded, to maintain stability.
- Engage caster brakes when the cabinet is stationary to prevent unintended movement.
- Keep hands and fingers clear of drawer slides when opening or closing drawers.
- Do not allow children to play on or around the tool cabinet.

## 3. PACKAGE CONTENTS

Verify that all items are present and undamaged before assembly:

- Pre-assembled 4-Drawer Cabinet Body
- 4 x Caster Wheels (2 locking, 2 non-locking)
- 1 x Side Handle
- Keys for Internal Locking System

- 4 x Non-slip Drawer Liners
- Hardware for Caster and Handle Attachment

## 4. SETUP AND ASSEMBLY

Your Husky tool cabinet comes mostly pre-assembled. Only the caster wheels and side handle require attachment.

1. **Attach Caster Wheels:** Carefully tilt the cabinet onto its side or back. Securely attach the four caster wheels to the designated mounting points on the bottom of the cabinet using the provided hardware. Ensure the two locking casters are placed on the front side for easy access.
2. **Attach Side Handle:** Align the side handle with the pre-drilled holes on one side of the cabinet. Secure it firmly using the provided screws.
3. **Insert Drawer Liners:** Place the non-slip drawer liners into each drawer to prevent tools from shifting and to protect the drawer surfaces.
4. **Position Cabinet:** Carefully return the cabinet to an upright position. Engage the caster brakes if the cabinet is to remain stationary.

Figure 2: Close-up of the side handle for easy maneuverability.

Figure 3: Detail of a caster wheel, showing the locking mechanism.

## 5. OPERATING INSTRUCTIONS

### 5.1. Opening and Closing Drawers

The drawers are equipped with ball bearing slides for smooth and quiet operation. The full-width drawer trim allows you to open the drawers by gripping anywhere along the handle.

- To open: Gently pull the drawer handle outwards.
- To close: Push the drawer firmly until it latches securely into place.

### 5.2. Locking Mechanism

The internal keyed locking system secures all drawers simultaneously.

- To lock: Insert the key into the lock cylinder on the top drawer and turn clockwise until all drawers are secured. Remove the key.
- To unlock: Insert the key and turn counter-clockwise.

### 5.3. Mobility and Braking

The cabinet is designed for easy movement with its heavy-duty casters.

- To move: Release the brakes on the locking casters. Use the side handle to push or pull the cabinet to the desired location.
- To secure: Once in position, engage the brakes on the locking casters by pressing down on the lever.

## 6. MAINTENANCE

- **Cleaning:** Wipe down the exterior with a soft, damp cloth and mild detergent. Avoid abrasive cleaners.
- **Drawer Slides:** Periodically inspect drawer slides for debris. If drawers become stiff, apply a small amount of silicone lubricant to the slides.
- **Drawer Liners:** Clean non-slip liners as needed with soap and water. Ensure they are dry before placing them back in the drawers.
- **Casters:** Check casters periodically for debris or wear. Clean as necessary to ensure smooth rolling.

## 7. TROUBLESHOOTING

- **Drawers are stiff or difficult to open/close:** Check for overloading. Ensure no items are obstructing the drawer slides. Lubricate slides if necessary.
- **Cabinet feels unstable or tips easily:** Ensure the cabinet is on a level surface. Redistribute contents to balance weight. Avoid opening multiple drawers simultaneously, especially heavy ones.
- **Missing key:** Contact Husky customer support for assistance with replacement keys.

## 8. SPECIFICATIONS

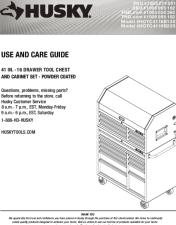

Feature	Specification
Brand	cakuuma (Note: Product is Husky branded)
Color	Black
Recommended Uses For Product	Tools
Product Dimensions	7.87"D x 10.24"W x 12.2"H
Special Feature	Lockable
Mounting Type	Floor Mount
Room Type	Utility Room
Door Style	No Doors
Weight Limit	650 Pounds (Overall)
Included Components	Shelves (Drawer Liners)
Finish Type	Polished
Number of Shelves	4 (Drawers)

Feature	Specification
Number of Pieces	4 (Drawers)
Item Weight	34.02 Kilograms / 74.8 pounds
Base Type	Casters
Installation Type	Freestanding
Top Material Type	Steel
Handle Material	Metal
Back Material Type	Alloy Steel
Assembly Required	Yes
Frame Material	Alloy Steel
Number of Compartments	4
Is Customizable	No
Number of Levels	4
UPC	721615314022
Item model number	HKST98066BK

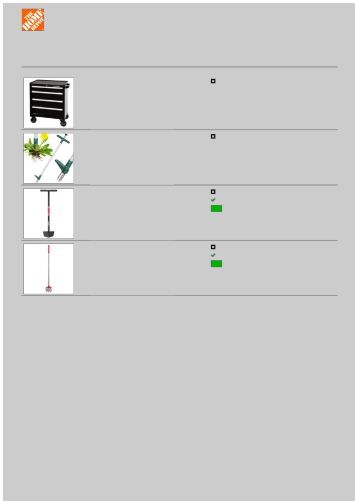

## 9. WARRANTY AND SUPPORT

This Husky tool cabinet is backed by a manufacturer's warranty. For specific warranty details, claims, or technical support, please refer to the warranty card included with your product or visit the official Husky Tools website. You may also contact the retailer where you purchased the product for assistance.
