

Rode HJA-4

RØDE HJA-4 Headphone Adaptors User Manual

Model: HJA-4

Brand: Rode

1. INTRODUCTION

The RØDE HJA-4 Headphone Adaptors are designed to convert headphones with standard 3.5mm (1/8-inch) plugs for use with audio equipment featuring larger 6.35mm (1/4-inch) headphone sockets. This pack includes four high-quality adaptors, ideal for professional audio setups such as the RØDECaster Pro and AI-1 audio interfaces. These adaptors feature gold-plated contacts to ensure optimal signal transfer and reliability, and are compatible with all brands of headphones.

2. PACKAGE CONTENTS

Your RØDE HJA-4 package includes:

- 4 x RØDE HJA-4 3.5mm to 1/4" Headphone Adaptors

Figure 2.1: Front view of the RØDE HJA-4 packaging, displaying

the four adaptors and product branding.

Figure 2.2: Back view of the RØDE HJA-4 packaging, detailing the product's purpose and contents.

3. SETUP AND CONNECTION

The HJA-4 adaptors are designed for simple plug-and-play operation.

3.1 Connecting to Headphones

1. Identify the 3.5mm (1/8-inch) plug on your headphones.
2. Insert the 3.5mm plug firmly into the female end of the RØDE HJA-4 adaptor. Ensure a secure connection.

3.2 Connecting to Audio Equipment

1. Locate the 6.35mm (1/4-inch) headphone socket on your audio device (e.g., RØDECaster Pro, AI-1, audio mixer, amplifier).
2. Insert the male end of the RØDE HJA-4 adaptor (with your headphones connected) into the 6.35mm socket. Push until it clicks into place, ensuring a snug fit.

The gold-plated contacts on the adaptor ensure a reliable and high-quality audio connection.

4. OPERATION

Once connected, your headphones will function as normal through the 1/4-inch output of your audio equipment. Adjust volume and other settings directly on your audio device.

The HJA-4 adaptors are passive devices and do not require external power or configuration.

5. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your RØDE HJA-4 adaptors, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the adaptors. Do not use liquid cleaners or solvents, as these can damage the gold plating or internal components.

- **Storage:** Store the adaptors in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid excessive force when plugging or unplugging the adaptors. Always grasp the body of the adaptor, not the cable, to prevent strain on the connections.
- **Moisture:** Keep the adaptors away from water and high humidity.

6. TROUBLESHOOTING

The RØDE HJA-4 adaptors are simple, passive devices, and issues are rare. If you experience problems, consider the following:

6.1 No Audio or Intermittent Sound

- **Check Connections:** Ensure both the 3.5mm headphone plug and the 1/4-inch adaptor plug are fully and securely inserted into their respective sockets.
- **Test Headphones:** Try your headphones directly with a 3.5mm device to confirm they are working correctly.
- **Test Audio Source:** Verify that the audio equipment (e.g., RØDECaster Pro) is outputting sound correctly through its 1/4-inch jack with another compatible device if possible.
- **Try Another Adaptor:** If you have multiple HJA-4 adaptors, try a different one to rule out a faulty adaptor.

6.2 Poor Audio Quality (Static, Distortion)

- **Clean Contacts:** Gently clean the metal contacts of the adaptor and the headphone/equipment jacks with a dry, lint-free cloth to remove any dust or debris.
- **Secure Connection:** Ensure all connections are tight and there is no wobble.
- **Cable Integrity:** Inspect your headphone cable for any damage or fraying.

If problems persist, contact RØDE support for further assistance.

7. SPECIFICATIONS

Feature	Detail
Model	HJA-4
Type	Headphone Adaptor (3.5mm Female to 6.35mm Male)
Quantity	4 per pack
Connector Type	Auxiliary
