## SiriusXM SXWB1V1

# SiriusXM Tour Satellite Radio with 360L (SXWB1V1) User Manual

Model: SXWB1V1

## INTRODUCTION AND OVERVIEW

---

The SiriusXM Tour is a touchscreen Dock & Play Radio designed to provide a comprehensive entertainment experience by combining both satellite reception and Internet streaming capabilities. Featuring SiriusXM with 360L technology, it offers an advanced interface for content navigation, discovery, personalization, and consumption. The Tour radio delivers all SiriusXM broadcast channels via satellite and expands content options with online Internet streaming, including Xtra channels, listener-created Personalized Stations powered by Pandora, and On Demand content. The 360L technology provides personalized content recommendations based on listening history and related content suggestions. Connectivity options include aux, line out, FM, and Bluetooth audio for integration with vehicle head units, home sound systems, or Bluetooth speakers.

## WHAT'S INCLUDED IN THE BOX

---

Upon unboxing your SiriusXM Tour Satellite Radio, please verify that all the following components are present:

- SiriusXM Tour Radio (Main Unit with 4.3" Full-Color Hi-Res Display)
- PowerConnect Vehicle Dock
- Power Adapter
- Magnetic Mount Antenna with mounting prep pads
- Dash Mount and hardware
- Aux-In Cable

# WHAT'S INSIDE

**Figure 1:** Components included with the SiriusXM Tour Satellite Radio. This image displays the main radio unit, PowerConnect Vehicle Dock, power adapter, magnetic mount antenna, dash mount, and aux-in cable.

## SETUP INSTRUCTIONS

---

Follow these steps to set up your SiriusXM Tour Satellite Radio:

- 1. Mounting the Radio:** Securely attach the PowerConnect Vehicle Dock using the provided dash mount and hardware. Ensure the mounting location allows for clear visibility and safe operation.
- 2. Antenna Placement:** Install the magnetic mount antenna on the exterior of your vehicle, typically on the roof, ensuring it has a clear line of sight to the sky for optimal satellite signal reception. Route the cable carefully to avoid damage.
- 3. Power Connection:** Connect the power adapter to the PowerConnect Vehicle Dock and plug it into your vehicle's power outlet.
- 4. Audio Connection:**

- **Aux-In:** Use the aux-in cable to connect the radio to your vehicle's auxiliary input.
  - **FM Transmitter:** If your vehicle does not have an aux-in port, you can use the built-in FM transmitter to broadcast audio to your car stereo. Select an unused FM frequency on the Tour radio and tune your car stereo to the same frequency.
  - **Bluetooth:** Pair the Tour radio with your vehicle's Bluetooth system or a compatible Bluetooth speaker for wireless audio streaming.
5. **Subscription Activation:** A SiriusXM subscription is required to access content. Activate your radio with an All Access Plan to enjoy the full range of channels and features.
  6. **Wi-Fi Connection:** For streaming content, Xtra channels, Personalized Stations, and On Demand features, connect your Tour radio to a Wi-Fi network. Navigate to the settings menu on the device to configure Wi-Fi.

# WAYS TO LISTEN

Connect to your car, home stereo, or bluetooth speakers to **seamlessly** enjoy SiriusXM's unrivaled library of content.

## OPERATING INSTRUCTIONS

The SiriusXM Tour radio offers a variety of features for an enhanced listening experience:

- **360L Technology:** This technology integrates satellite and streaming features, providing a comprehensive content library. It offers personalized recommendations ("For You") based on your listening habits and "Related" content suggestions for the currently tuned channel.
- **Touchscreen Interface:** Navigate through channels, content, and settings using the intuitive 4.3-inch full-color touchscreen display.
- **Voice Search:** Utilize the built-in microphone to search for content, tune channels, browse categories, and find games of your favorite sports teams using voice commands. (Requires Wi-Fi connection for full functionality).
- **Bluetooth Audio Streaming:** Connect the Tour radio to compatible Bluetooth-enabled devices such as car stereos, home sound systems, or portable speakers for wireless audio playback.
- **Xtra Channels and On Demand:** Access additional SiriusXM content not available via satellite, including over 100 Xtra channels, listener-created Personalized Stations powered by Pandora, and a vast library of On Demand content. (Requires Wi-Fi connection).
- **Advanced Playback Features:** Pause, rewind, and replay up to 60 minutes of live satellite radio programming.
- **Content Alerts:** Set up alerts to be notified when your favorite songs, artists, or sports teams are playing on other channels.
- **Favorites:** Save your preferred channels, On Demand shows, sports teams, and artist stations for quick and easy access.

## NEXT LEVEL TECH

SiriusXM's exclusive 360L technology combines satellite & streaming features to transform your listening experience.

## ADVANCED FEATURES

Figure 4: The SiriusXM Tour radio integrated into a vehicle, demonstrating its advanced 360L technology.

## VOICE SEARCH, TUNING AND DISCOVERY

Just speak into the built-in microphone to search for content, tune channels, browse categories & find games.

## FIND THE RADIO THAT'S RIGHT FOR YOU

Figure 5: The Tour radio used with a home audio system, emphasizing its voice search, tuning, and discovery features.

## MAINTENANCE

To ensure the longevity and optimal performance of your SiriusXM Tour Satellite Radio, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the screen and exterior of the radio. Avoid abrasive cleaners,

solvents, or aerosol sprays, which can damage the finish or internal components.

- **Temperature:** Avoid exposing the device to extreme temperatures, direct sunlight for extended periods, or high humidity. Operating the device within recommended temperature ranges helps prevent overheating and ensures stable performance.
- **Connections:** Periodically check all cable connections (power, antenna, aux-in) to ensure they are secure and free from damage.
- **Software Updates:** Keep the device's software updated. The radio may prompt you for updates when connected to Wi-Fi. These updates can improve performance and add new features.

## TROUBLESHOOTING

---

If you encounter issues with your SiriusXM Tour Satellite Radio, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
<b>Long Boot-Up Time</b>	The Tour radio is a sophisticated device that requires time to load its operating system and connect to services. A boot-up time of up to two minutes is normal. Ensure the device is receiving stable power.
<b>Device Overheats or Reboots Randomly</b>	<ul style="list-style-type: none"><li>◦ <b>Environmental Factors:</b> High ambient temperatures, especially in direct sunlight, can cause the device to overheat. Try to position the radio away from direct sunlight or use vehicle air conditioning to cool the interior.</li><li>◦ <b>Ventilation:</b> Ensure the device's vents are not obstructed.</li><li>◦ <b>Power Supply:</b> Verify the power adapter is functioning correctly and providing stable power.</li></ul>
<b>Touchscreen is Unresponsive or Difficult to Use</b>	<ul style="list-style-type: none"><li>◦ <b>Cleaning:</b> Ensure the screen is clean and free of smudges or debris.</li><li>◦ <b>Restart:</b> Perform a soft reset by turning the device off and on again.</li><li>◦ <b>Firmware:</b> Check for available software updates, as these can improve touchscreen responsiveness.</li></ul>
<b>Internet Channels Freeze or Stop Playing</b>	<ul style="list-style-type: none"><li>◦ <b>Wi-Fi Connection:</b> Verify that the radio is connected to a stable and strong Wi-Fi network. Weak or intermittent Wi-Fi can cause streaming issues.</li><li>◦ <b>Internet Speed:</b> Ensure your internet connection speed is sufficient for streaming.</li><li>◦ <b>Router:</b> Restart your Wi-Fi router if other devices are also experiencing connectivity issues.</li></ul>
<b>Favorites List Disappears</b>	This can sometimes occur due to software glitches. Ensure your device's software is up to date. If the issue persists, contact SiriusXM customer support.
<b>Volume Level Issues (e.g., controls reversed)</b>	This may indicate a software anomaly. Try restarting the device. If using Bluetooth, ensure the volume is also adjusted on the connected receiving device. Check for software updates.

Problem	Possible Cause / Solution
No Satellite Signal	<ul style="list-style-type: none"> <li>◦ <b>Antenna Placement:</b> Ensure the magnetic mount antenna has a clear, unobstructed view of the sky. Avoid parking under trees, in garages, or near tall buildings.</li> <li>◦ <b>Antenna Connection:</b> Check that the antenna cable is securely connected to the radio.</li> <li>◦ <b>Signal Strength:</b> The radio may display a signal strength indicator. Move to an area with better signal if necessary.</li> </ul>
