SETUP

The Jabra Speak 750 is designed for plug-and-play functionality, allowing for quick and easy connection to your devices.

Connecting via USB

1. Connect the integrated USB cable from the Jabra Speak 750 to an available USB port on your laptop or computer.
2. The device will power on automatically and be recognized by your operating system.
3. Select the Jabra Speak 750 as your audio input and output device in your communication software settings (e.g., Microsoft Teams, Skype for Business).

Connecting via Bluetooth

1. Ensure the Jabra Speak 750 is powered on.
2. On your smartphone or tablet, enable Bluetooth and search for available devices.

3. Select "Jabra Speak 750" from the list of devices to pair.
4. For optimal performance with a computer, use the included Jabra Link 370 USB Adapter. Plug the adapter into a USB port on your computer. The adapter is pre-paired with the Speak 750.

OPERATING INSTRUCTIONS

Audio Quality and Full Duplex

The Jabra Speak 750 provides premium audio with full duplex capabilities. This means that audio can be transmitted from both sides of a conversation simultaneously, reducing interruptions and facilitating more natural discussions during conference calls.

MAINTENANCE

To ensure the longevity and optimal performance of your Jabra Speak 750, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using abrasive cleaners or solvents.
- **Storage:** When not in use, store the speakerphone in its soft pouch to protect it from dust and scratches.
- **Temperature:** Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.
- **Charging:** Charge the device using the provided USB cable. Avoid overcharging or using incompatible chargers.

TROUBLESHOOTING

If you encounter issues with your Jabra Speak 750, refer to the following common solutions:

Problem	Solution
No audio from speakerphone	<p>Ensure the speakerphone is powered on and connected via USB or Bluetooth.</p> <p>Check the volume levels on both the speakerphone and your connected device.</p> <p>Verify that the Jabra Speak 750 is selected as the default audio output device in your computer's sound settings or communication software.</p>
Microphone not picking up sound	<p>Ensure the microphone is not muted on the speakerphone or in your communication software.</p> <p>Verify that the Jabra Speak 750 is selected as the default audio input device.</p> <p>Ensure the speakerphone is placed centrally on the table for optimal microphone pickup.</p>
Bluetooth connection issues	<p>Ensure the speakerphone is in pairing mode (if connecting for the first time).</p> <p>Move the speakerphone closer to the Bluetooth device.</p> <p>Try unpairing and re-pairing the device.</p> <p>If using with a computer, ensure the Jabra Link 370 USB Adapter is properly inserted.</p>
Device not charging	<p>Check the USB cable for damage and ensure it is securely connected to both the speakerphone and the power source.</p> <p>Try a different USB port or power adapter.</p>
