OAUW CZ-A-5

OAUW USB External Car Universal CD Player

Model: CZ-A-5

1. Introduction

Thank you for choosing the OAUW USB External Car Universal CD Player. This device is designed to bring CD playback functionality to vehicles and other compatible systems that lack a built-in CD drive. It offers a simple plug-and-play solution for enjoying your CD collection on the go or at home.

2. Product Features

- **Plug and Play:** No software installation or driver setup required. Connect via USB for immediate use.
- **Error Correction and Anti-Shock:** Features strong error-correcting ability, anti-shock, and noise reduction technology for stable playback.
- **Low Power Consumption:** Powered directly by the USB port, eliminating the need for an external power adapter.
- **Wide Compatibility:** Suitable for Android car multimedia navigation systems (Android version 4.4 and above), Android Smart TVs, Windows, and Mac OS desktops and laptops.
- **Supported Disc Formats:** Compatible with DVD-ROM, DVD±R, DVD±RW, CD-ROM, CD-R, and CD-RW.
- **Compact and Portable:** Designed for easy placement and transport.

3. Setup Instructions

1. **Connect the CD Player:** Plug the USB cable from the OAUW CD Player into an available USB port on your car's Android navigation host, Smart TV, laptop, or desktop computer. Ensure the USB port supports data transfer.
2. **Power On:** The device is powered via the USB connection and does not require an external power adapter.
3. **Insert a Disc:** Gently insert a CD or DVD into the disc slot until it is pulled in by the mechanism.
4. **System Recognition:** For car Android navigation systems, select the USB data entry mode on your car's multimedia screen. The CD player should automatically be recognized, and disc data will be displayed.

4. Operating Instructions

1. **Disc Playback:** Once a disc is inserted and recognized, playback will typically begin automatically. Control playback (play, pause, skip tracks) using your connected device's interface (e.g., car touchscreen, computer media player).
2. **Ejecting a Disc:** Press the eject button located on the front of the CD player to release the disc.
3. **Automatic Resume:** The device is designed to remember your last playback position, allowing you to resume from where you left off after turning off your vehicle or device.

5. Compatibility

The OAUW USB External Car Universal CD Player is designed for broad compatibility:

- **Car Systems:** Compatible with car Android multimedia large screen navigation hosts (Android version 4.4 and above). Your car's system must support USB flash drive functionality and have a player capable of handling all file formats on the disc.
- **Other Devices:** Works with Android Smart TVs, Windows desktops and laptops, and Mac OS desktops and laptops.
- **Disc Formats:** Supports DVD-ROM, DVD±R, DVD±RW, CD-ROM, CD-R, and CD-RW.
- **Audio Formats:** Supports WAV and MP3 audio formats.

Important Note on WAV Format:

If your car model does not support WAV format music files, you may need to purchase a car CD player with a built-in decoder. This device is compatible with a wider range of car models and can bypass WAV music file format limitations. (Search for "B0FLT6QXPR" on Amazon for a compatible decoder if needed).

Image 5.1: The CD player is compatible with a variety of devices.

6. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the CD player. Do not use liquid cleaners or abrasive materials.
- **Disc Care:** Always handle discs by their edges. Keep discs clean and free of scratches to ensure optimal playback.
- **Storage:** When not in use, store the CD player in a cool, dry place. Avoid prolonged exposure to direct sunlight or extreme temperatures, especially in a vehicle, as high heat can damage the device.
- **No User-Serviceable Parts:** Do not attempt to open or repair the device yourself. Refer to the warranty and support section for service inquiries.

7. Troubleshooting

- **Device Not Recognized:**
    - Ensure the USB cable is securely connected to a data-enabled USB port.

- For car systems, verify that the USB data entry mode is selected on the car's multimedia screen.
- Try connecting to a different USB port or device to rule out port-specific issues.

- **Disc Skipping or Not Playing:**
  - Check the disc for scratches, dirt, or damage. Clean the disc if necessary.
  - Ensure the disc is inserted correctly.
  - Verify that your connected device's media player supports the disc's file format (e.g., WAV, MP3).
  - If using in a vehicle, ensure the player is placed on a stable surface to minimize vibrations that could cause skipping.
- **No Audio Output:**
  - Confirm that the volume on both the CD player (if applicable) and the connected device is turned up.
  - Check the audio source selection on your connected device to ensure the USB input is active.
- **Disc Cannot Be Ejected:**
  - Press the eject button firmly.
  - If the disc remains stuck, disconnect and reconnect the USB cable, then try ejecting again.

8. Specifications

Brand	OAUW
