## WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- 1 Calming Sensory Sea Lamp
- 1 Remote Controller (requires 2 AAA batteries, not included)
- 1 Audio Cable
- 1 USB Cable
- 1 User Manual

# IMMERSE IN WORLDS

## Of sensory seascapes

Providing comfort and aiding in self-regulation for children

Gentle waves of light and sound help manage sensory responses

Enhances peaceful sleep

Figure 2: Included components: lamp, remote, audio cable, USB cable, and user manual.

## SETUP

1. **Power Connection:** Connect the provided USB cable to the lamp's power input and plug the other end into a compatible USB power adapter (not included) or a USB port on a computer.
2. **Remote Control Batteries:** Open the battery compartment on the back of the remote controller and insert 2 AAA batteries (not included), ensuring correct polarity.
3. **Audio Connection (Optional):** To play music from an external device, connect the provided audio cable from the lamp's audio input to the audio output of your phone, MP3 player, or computer.
4. **Placement:** Place the lamp on a stable, flat surface. For optimal projection, position it where the light can project onto a ceiling or wall. The lamp features a 45-degree design for adjustable projection angles.

## OPERATING INSTRUCTIONS

### Power On/Off

- Press the power button on the lamp or the remote control to turn the device on or off.

## Light Modes

The lamp offers 7 distinct light modes, providing a variety of visual experiences. Use the light mode button on the lamp or the remote control to cycle through the available modes. The light patterns are designed to create a calming ocean wave effect.

# PARENTS

## Bring peace into your home

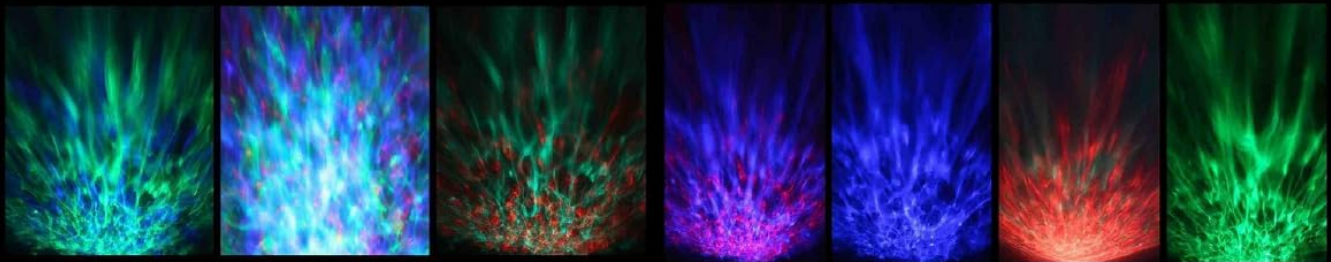

Figure 3: Examples of the 7 light modes creating various ambient projections.

## Music Player and Sounds

The lamp includes a built-in music player with 4 pre-programmed lullaby songs and nature relaxation sounds. You can also connect an external device via the audio cable to play your preferred music.

- **Built-in Sounds:** Use the dedicated buttons on the lamp or remote to select and play the built-in lullabies or nature sounds.
- **External Audio:** Once an external device is connected via the audio cable, the lamp will play audio from that device. Adjust volume and track selection directly on your external device or using the remote control's volume

buttons.

- **Volume Control:** Use the volume up (+) and volume down (-) buttons on the lamp or remote to adjust the audio level.

Figure 4: The lamp creates a tranquil atmosphere for sleep.

### Remote Control Functions

The included remote control allows for convenient operation of the lamp's features from a distance. Functions include power on/off, light mode selection, volume adjustment, and sound selection.

### MAINTENANCE

- **Cleaning:** Wipe the lamp's surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, store the lamp in a cool, dry place away from direct sunlight.

- **Battery Replacement:** Replace remote control batteries when the remote's functionality diminishes.
- **Water Resistance:** This product is not waterproof. Avoid exposure to water or high humidity.

TROUBLESHOOTING

| Problem                             | Possible Cause                                    | Solution                                                                                                                                                   |
|-------------------------------------|---------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lamp does not turn on.              | No power, loose connection.                       | Ensure the USB cable is securely connected to both the lamp and a working power source. Try a different USB adapter or port.                               |
| Remote control not working.         | Dead batteries, remote out of range, obstruction. | Replace the AAA batteries in the remote. Ensure there are no obstructions between the remote and the lamp. Point the remote directly at the lamp's sensor. |
| No sound from external device.      | Audio cable not connected, device volume low.     | Verify the audio cable is correctly plugged into both the lamp and your external device. Increase the volume on both the lamp and your external device.    |
| Light projection is dim or unclear. | Room too bright, lamp placed too far.             | Use the lamp in a darker room for best results. Adjust the lamp's position closer to the projection surface.                                               |
