5. CARE AND MAINTENANCE

- **Cleaning:** To clean your nanoblock models, gently wipe them with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, but ensure the blocks are completely dry before storage. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store assembled models and unbuilt blocks in a cool, dry place away from direct sunlight to prevent discoloration or damage. Keep blocks in their original packaging or a sealed container to avoid loss of small pieces.

6. TROUBLESHOOTING

- **Missing Pieces:** Double-check all packaging and work surfaces. Due to the micro size, pieces can be easily overlooked. If a piece is genuinely missing, contact nanoblock customer support.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply gentle, even pressure. Avoid forcing blocks, as this can cause damage.
- **Model Instability:** Re-examine the connections of the blocks. Ensure all pieces are fully seated and pressed together according to the instructions.
