TROUBLESHOOTING

If you encounter any issues during assembly or use, please refer to the following common solutions:

- **Missing Parts:** If any parts are missing from your package, please contact HOOBRO customer service immediately for assistance.
- **Wobbly Table:** Ensure all screws are fully tightened. If the table remains wobbly, check that all components are correctly aligned according to the assembly instructions. Uneven flooring can also cause wobbling; consider using furniture pads or shims.
- **Drawers Not Sliding Smoothly:** Verify that the drawer glides are installed correctly and are not obstructed. Ensure the drawer box is assembled squarely. Lubricating the glides with a silicone-based spray can improve movement.
- **Difficulty with Assembly:** Re-read the instructions carefully, paying close attention to the orientation of each piece. The assembly video can also provide visual clarification. Do not force parts together.
