

LEVOIT Vital 100, Core P350

LEVOIT Air Purifier User Manual

MODELS: VITAL 100 AND CORE P350

Your guide to setup, operation, and maintenance.

Introduction

Thank you for choosing LEVOIT Air Purifiers. This manual provides detailed instructions for the safe and efficient use of your Vital 100 and Core P350 air purifiers. Please read this manual thoroughly before operation and retain it for future reference.

Image: The LEVOIT Vital 100 (left, white, rectangular) and Core P350 (right, gray, cylindrical) air purifiers.

Important Safety Instructions

To reduce the risk of fire, electric shock, or injury, always follow these basic precautions:

- Operate the air purifier only as described in this manual.
- Ensure the power supply matches the voltage specified on the air purifier.
- Do not immerse the air purifier in water or other liquids.
- Keep the air purifier away from heat sources and direct sunlight.
- Do not block air openings or place the unit on a soft surface where openings may be blocked.
- Always unplug the air purifier before moving, cleaning, or replacing filters.

- Do not use the air purifier in areas with high humidity, such as bathrooms.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Product Overview

LEVOIT Vital 100 Air Purifier

The LEVOIT Vital 100 is designed to improve air quality in your home, featuring an H13 True HEPA filter system. It effectively captures 99.97% of airborne contaminants as small as 0.3 microns, including pollen, dust, mold spores, pet dander, and smoke particles.

Image: A white, rectangular LEVOIT Vital 100 air purifier shown from an angled perspective.

This model is particularly beneficial for pet owners, as its washable pre-filter captures large particles like pet hair, fur, and lint, helping to maintain a cleaner environment.

Perfect for Pet Owners

The washable pre-filter captures large particles like hair, pet fur, and lint, helping you clean up after your animals.

Image: The LEVOIT Vital 100 air purifier positioned in a home environment with dogs, highlighting its effectiveness for pet owners by showing airborne particles being drawn into the unit.

The Vital 100 targets a wide range of microscopic allergens and irritants, contributing to reduced allergy symptoms.

Capture Microscopic Allergens

The Vital 100 captures 99.97% of contaminants 0.3 microns in size, helping reduce allergy symptoms in the process.

Viruses*

*The H13 True HEPA filter helps capture and reduce the spread of viruses and bacteria but does not eliminate them.

Image: The LEVOIT Vital 100 air purifier with a graphic illustrating its ability to capture pollen, dust, mold, dust mites, smoke, pet dander, VOCs, bacteria, and viruses.

LEVOIT Core P350 Air Purifier

The LEVOIT Core P350 is engineered for quiet and efficient air purification, especially beneficial for homes with pets and allergy sufferers. It features an H13 True HEPA filter with a 3-stage filtration system, including a non-woven fabric pre-filter, H13-grade True HEPA filter, and an activated carbon filter with ARC Formula.

Image: A gray, cylindrical LEVOIT Core P350 air purifier shown from an angled perspective.

The Core P350 operates at a low noise level of 24dB in sleep mode and utilizes 360° air inlet technology to circulate and purify air rapidly, achieving 5 air changes per hour in its coverage area.

Pet-Friendly

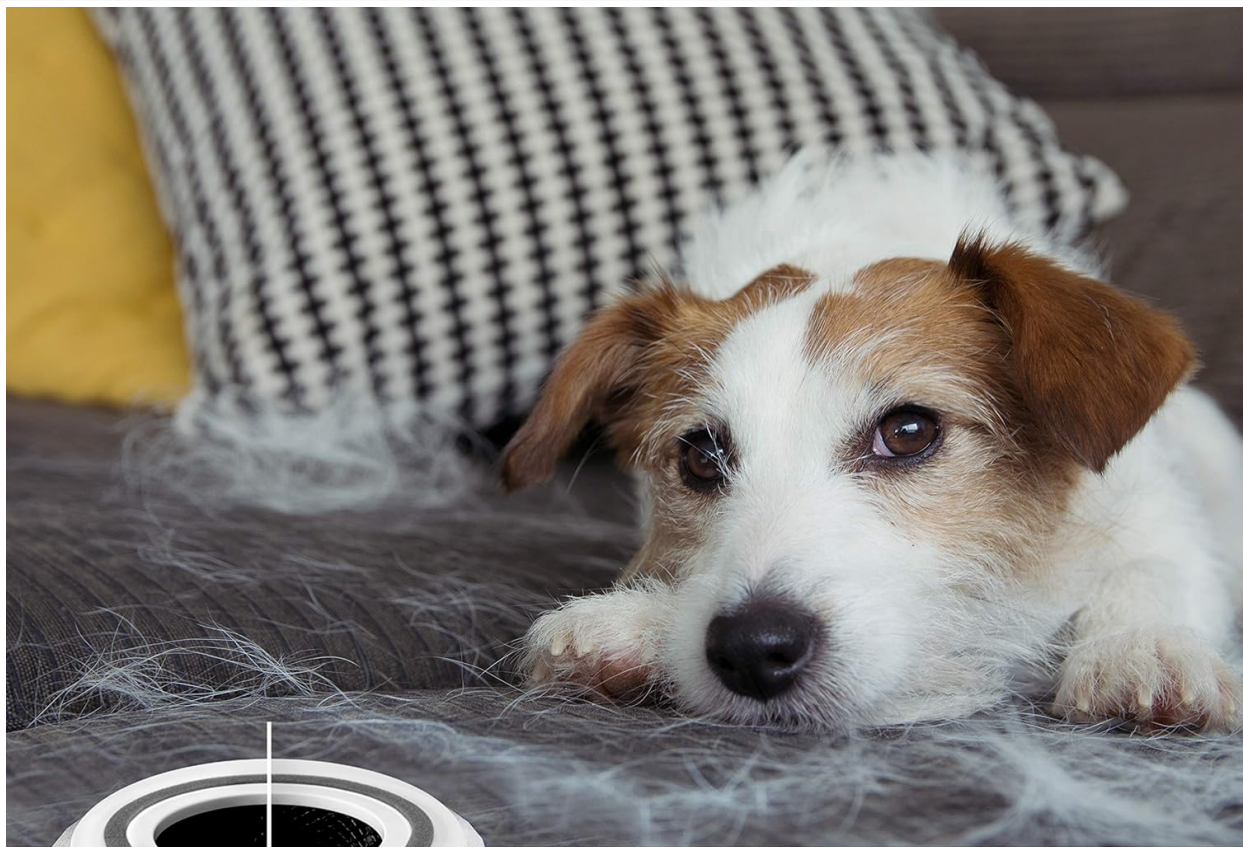

Levoit's H13-grade True HEPA Filter captures 99.97% of 0.3-micron airborne particles, creating fresh air for you and your pets.

*The H13-grade True HEPA Filter helps capture and reduce the spread of viruses and bacteria but does not eliminate them.

Image: The LEVOIT Core P350 air purifier in a living room setting with children and a dog, illustrating its pet-friendly design and ability to capture pet dander, dust mites, bacteria, mold, and viruses.

Its advanced filtration system is designed to remove 99.97% of odors, smoke, dust, mold, and pollen, ensuring cleaner air for you and your pets.

Fine Non-Woven Fabric Pre-Filter

The filter captures large particles such as pet fur, pet dander, dust, lint, fibers, and hair while maximizing the filter's life.

Image: A visual comparison showing a new, clean air purifier filter next to a filter after 6 months of use, demonstrating the accumulation of captured particles like pet fur, dust, and lint.

Setup

Unpacking and Filter Installation

1. Carefully remove the air purifier from its packaging.
2. Open the filter compartment. For Vital 100, this is typically a back panel. For Core P350, twist the base to unlock.
3. Remove the plastic packaging from the filter(s). The Core P350 comes with a 3-stage filter.
4. Insert the filter(s) into the air purifier, ensuring correct orientation.
5. Close and secure the filter compartment.

Placement

- Place the air purifier on a firm, level surface.
- Ensure there is at least 15 inches (38 cm) of clearance on all sides of the unit for optimal airflow.
- Avoid placing the unit near curtains, furniture, or other objects that could block the air intake or outlet.
- Keep the air purifier away from direct heat sources or areas with excessive moisture.

Operating Instructions

Both the Vital 100 and Core P350 models feature intuitive button controls for ease of use.

Power On/Off

- Plug the power cord into a grounded electrical outlet.
- Press the **Power Button** to turn the air purifier on or off.

Fan Speed Adjustment

- Press the **Fan Speed Button** (often indicated by fan icon) to cycle through different fan speeds (e.g., Low, Medium, High).
- Select a higher speed for faster air purification or a lower speed for quieter operation.

Sleep Mode

- Many LEVOIT models, including the Core P350, feature a **Sleep Mode** button. Press this button to enter a quiet operating mode, often with dimmed display lights, ideal for nighttime use.

Timer Function

- If your model includes a **Timer Button**, press it to set the air purifier to operate for a specific duration (e.g., 2, 4, 8 hours) before automatically turning off.

Maintenance

Filter Replacement

Filters should be replaced every 6–8 months, depending on usage and air quality. The filter indicator light on your unit will illuminate when it's time for a replacement.

- **For Vital 100:** Genuine LEVOIT replacement filters are available. Search for "B07VGQ8L1V" on Amazon.
- **For Core P350:** Use the 3-Stage Original Filter designed for the Core P350.

Replacement Steps:

1. Unplug the air purifier.
2. Open the filter cover/base.
3. Remove the old filter(s) and dispose of them properly.
4. Unwrap the new filter(s) and insert them into the unit.
5. Close the filter cover/base.
6. Plug in the air purifier.
7. Reset the filter indicator light by pressing and holding the appropriate button (refer to your unit's specific controls, often the filter reset button or power button for 3-5 seconds).

Cleaning

- **Exterior:** Wipe the exterior of the air purifier with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Pre-filter (Vital 100):** The Vital 100 features a washable pre-filter. Remove it and rinse under running water. Allow it to air dry completely before reinstalling.
- **Interior:** Use a dry cloth or a vacuum cleaner hose to gently clean the interior of the unit, especially around the air intake and outlet vents.

Troubleshooting

Problem	Possible Cause	Solution
Air purifier does not turn on.	Not plugged in; power outage; filter not installed correctly.	Check power cord connection; check circuit breaker; ensure filter is unwrapped and installed correctly.
Reduced airflow or poor purification.	Blocked air intake/outlet; dirty filter; filter needs replacement.	Clear obstructions; clean pre-filter; replace main filter.
Unusual noise.	Filter not seated correctly; foreign object inside; unit on uneven surface.	Reinstall filter; unplug and check for obstructions; place on a stable surface.
Filter indicator light remains on after replacement.	Filter reset not performed.	Press and hold the filter reset button (or power button) for 3-5 seconds until the light turns off.

Specifications

LEVOIT Core P350

Specification	Value
Coverage Area	219 sq ft / 20
Noise Level	24–50 dB
CADR (Clean Air Delivery Rate)	240 m³/h
Dimensions	8.7 x 8.7 x 14.2 inches
Power Supply	AC 120V / 60 Hz (USA and Canada)
Filtration	3-Stage (Pre-filter, H13 True HEPA, Activated Carbon with ARC Formula)

LEVOIT Vital 100

The Vital 100 also features H13 True HEPA filtration. Specific detailed specifications like CADR and exact dimensions are available in its dedicated product documentation. It is designed for effective air purification in bedrooms and similar sized rooms.

Warranty and Support

LEVOIT products are designed for reliability and performance. For warranty information, please refer to the warranty card included with your product or visit the official LEVOIT website.

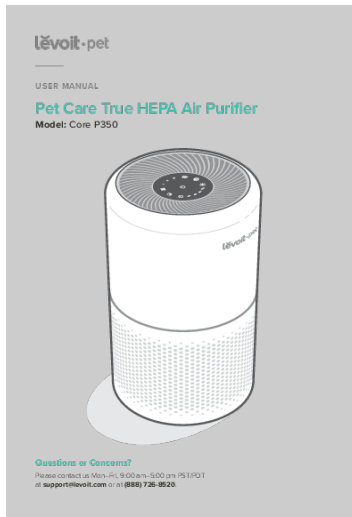

If you encounter any issues or have questions regarding your LEVOIT air purifier, please contact customer support:

- **LEVOIT Customer Support:** Refer to the contact information provided in your product packaging or on the official LEVOIT website.

- **Amazon Support:** If your product was purchased from Amazon.com and you find it damaged or used upon receipt, please contact Amazon Support directly for assistance.
