9. TROUBLESHOOTING

Common Issues and Solutions

Issue	Potential Cause	Solution
Tablet keeps shutting off / rebooting	Software glitch, low battery, faulty charger/port, overheating.	Ensure full charge. Perform a factory reset if software related. Check charger and port for damage. Avoid heavy usage in hot environments.
Touch screen unresponsive	Software freeze, screen protector interference, physical damage.	Restart the tablet. Remove any screen protectors. If problem persists, contact support.
Won't charge	Damaged charging cable/adapter, dirty charging port, battery issue.	Try a different compatible charger. Clean the charging port gently. If still no charge, battery may need service.
Wi-Fi connection issues	Incorrect password, router issues, tablet software glitch.	Double-check password. Restart router and tablet. Forget and reconnect to the network.
Apps flip/rotate incorrectly	Auto-rotate setting, app compatibility, sensor issue.	Check auto-rotate settings in quick panel/settings. Some apps may not support all orientations. If persistent, sensor may be faulty.
