Ottlite Wellness Charging Desk Lamp User Manual

Model: U8QAFSB3
Brand: OttLite

1. INTRODUCTION

1.1 Welcome

Welcome to the user manual for your new Ottlite Wellness Charging Desk Lamp. This lamp is designed to provide optimal lighting for reading and tasks, while also offering convenient features like wireless charging and a multi-functional digital display. Please read this manual thoroughly to ensure proper setup, operation, and maintenance of your device.

1.2 Product Overview

The Ottlite Wellness Charging Desk Lamp combines a high-quality LED desk lamp with a wireless charging pad and a clear digital display. Its flexible design allows for precise light positioning, making it an ideal addition to any office, study, or bedroom environment.

2. KEY FEATURES

- **Wireless Charging:** Integrated Qi-compatible charging pad for convenient smartphone charging.

- **Digital Display:** Clear, easy-to-read display showing time, date, day of the week, and ambient temperature.

- **Adjustable Lamp Head:** Flexible neck allows for precise positioning of the light.

- **Multiple Brightness & Color Temperature Settings:** Offers various light intensity and color temperature options to suit different tasks and preferences.

- **LED Light Base:** Features a color-changing LED light ring at the base for added ambiance.

- **USB Charging Port:** Additional USB port for charging other devices.

- **Eyestrain Reduction:** Designed to provide balanced and comfortable illumination to reduce eye fatigue.

3. SETUP

1. **Unboxing:** Carefully remove all components from the packaging. Ensure you have the lamp unit, power adapter, and user manual.

2. **Power Connection:** Connect the power adapter to the DC input port located at the back of the lamp

base. Plug the other end of the adapter into a standard 120V household electrical outlet. The digital display should illuminate.

3. **Initial Display Setup:** Upon first power-up, you may need to set the time, date, and other display preferences. Refer to Section 4.2 for detailed instructions on setting the digital display.

4. **Positioning:** Place the lamp on a stable, flat surface. Adjust the flexible lamp head to your desired angle for optimal lighting.

4. OPERATING INSTRUCTIONS

4.1 Lamp Operation

- **Main Light On/Off:** Use the touch control button on the lamp arm to turn the main LED light on or off.

- **Adjusting Brightness & Color Temperature:** Repeatedly tap the main light touch control to cycle through different brightness levels and color temperatures (e.g., bright white, warm white, natural daylight). There are typically three distinct settings for each.

- **LED Base Light:** The lamp features a color-changing LED light ring at its base. Use the dedicated touch button on the base to turn this light on/off and cycle through various color options.

4.2 Digital Display Functions

The digital display provides useful information at a glance. Controls for the display are typically located on the back or side of the lamp's main body.

- **Setting Time:** Access the time setting mode (often via a 'Mode' or 'Set' button). Use the Up/Down arrows to adjust hours and minutes. The display supports both 12-hour (AM/PM) and 24-hour formats.

- **Setting Date & Day:** In the setting mode, navigate to date settings to adjust the month, date, and year. The day of the week will typically update automatically.

- **Temperature Display:** The lamp displays the ambient temperature in either Fahrenheit (°F) or Celsius (°C). A dedicated button or a long press on a setting button usually toggles between these units.

- **Alarm Function:** If equipped, the alarm function allows you to set a wake-up time. Look for an 'Alarm' icon or button on the display controls. Follow the on-screen prompts to set the alarm time and activate/deactivate it. A snooze function may also be available.

4.3 Charging Functions

- **Wireless Charging (Qi Pad):** Place your Qi-compatible smartphone directly onto the wireless charging pad located on the lamp's base. Ensure the phone is centered on the charging symbol for optimal connection. A charging indicator on the display or base may illuminate when charging is active.

- **USB Charging Port:** Use the USB port (5V, 2.1A) located on the lamp base to charge other USB-powered devices, such as tablets or smartwatches, using their respective charging cables.

5. CARE AND MAINTENANCE

- **Cleaning:** To clean the lamp, ensure it is unplugged from the power outlet. Use a soft, dry cloth to wipe down the surfaces. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and electronic components.
- **LED Lifespan:** The integrated LED light source is designed for long-lasting performance and does not require replacement.
- **Water Resistance:** The lamp has a Water Resistant rating. However, avoid submerging the lamp in water or exposing it to excessive moisture to prevent damage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp not turning on / Display is off	No power connection.	Ensure the power adapter is securely plugged into the lamp and a working electrical outlet.
Wireless charging not working	Phone not Qi-compatible or not positioned correctly. Obstruction (e.g., thick phone case).	Verify your phone supports Qi wireless charging. Reposition the phone on the charging pad, ensuring it is centered. Remove any thick phone cases.
Digital display incorrect time/date	Time/date not set or reset after power interruption.	Follow instructions in Section 4.2 to manually set the time and date. The lamp has a small internal battery to retain settings during brief power outages, but extended outages may require re-setting.
Lamp light flickers or dims unexpectedly	Unstable power supply.	Try plugging the lamp into a different electrical outlet.
