SETUP GUIDE

Unpacking:

Carefully remove all components from the packaging. Ensure you have the Ottlite Wellness Charging Desk Lamp and its power adapter.

Connecting Power:

Locate the power input port on the back of the lamp's base. Insert the power adapter cable firmly into the port. Plug the other end of the power adapter into a standard electrical outlet. The digital display should illuminate upon successful connection.

Initial Placement:

Place the lamp on a stable, flat surface. The flexible neck allows you to position the light head to your preferred angle for optimal illumination.

OPERATING INSTRUCTIONS

Light Control:

The lamp features touch-sensitive controls for light adjustments.

- **Power On/Off:** Lightly tap the power button on the lamp's control panel to turn the main LED light on or off.
- **Brightness Adjustment:** While the light is on, tap the brightness control buttons (usually marked with '+' and '-') to cycle through different brightness levels.
- **Color Temperature:** Press and hold the brightness control button to switch between different color temperature modes (e.g., warm white, cool white, natural daylight).

Digital Display Functions:

The integrated digital display provides useful information:

- **Time and Date:** The display shows the current time and date. Refer to the detailed manual (if provided by manufacturer) for specific instructions on setting these.
- **Temperature:** The display also shows the ambient room temperature.
- **Alarm Clock:** An alarm function is available. Users have reported that setting the alarm is straightforward, but canceling it may require consulting the full manufacturer's guide.

Charging Functions:

- **Wireless Charging:** Place your Qi-compatible smartphone directly onto the wireless charging pad located on the lamp's base. Ensure the phone is centered for optimal charging. The base may illuminate with different colors to indicate charging status.
- **USB Charging:** Connect your device's USB charging cable to the USB port (5V, 2.1A) located on the back of the lamp's base.

MAINTENANCE

Cleaning:

To clean the lamp, ensure it is unplugged from the power outlet. Use a soft, dry cloth to wipe down the surfaces. For stubborn marks, a slightly damp cloth can be used, followed by a dry cloth. Avoid abrasive cleaners or solvents that could damage the finish.

General Care:

- Do not expose the lamp to excessive moisture or extreme temperatures.
- Avoid placing heavy objects on the lamp or its flexible neck.
- Handle the lamp with care to prevent damage to the LED panel or internal components.

TRROUBLESHOOTING

Lamp Not Turning On:

- Ensure the power adapter is securely plugged into both the lamp and a working electrical outlet.
- Check if the outlet itself is functioning by plugging in another device.

Wireless Charging Not Working:

- Verify that your device is Qi-compatible.
- Ensure your device is properly centered on the charging pad.
- Remove any thick phone cases that might interfere with wireless charging.

Digital Display Issues:

- If the display is dim or not showing correctly, ensure the lamp is receiving stable power.
- For issues with setting time/date or alarm, consult the full manufacturer's instruction manual for detailed steps. Some users have noted difficulty canceling the alarm once set.
