Miisso 10000mAh Slim Power Bank Instruction Manual

Model: A-10K92

INTRODUCTION

Thank you for choosing the Miisso 10000mAh Slim Power Bank. This portable charger is designed for convenience and efficiency, featuring built-in cables for various devices and a compact design. Please read this manual carefully before use to ensure proper operation and to maximize the lifespan of your device.

PACKAGE CONTENTS

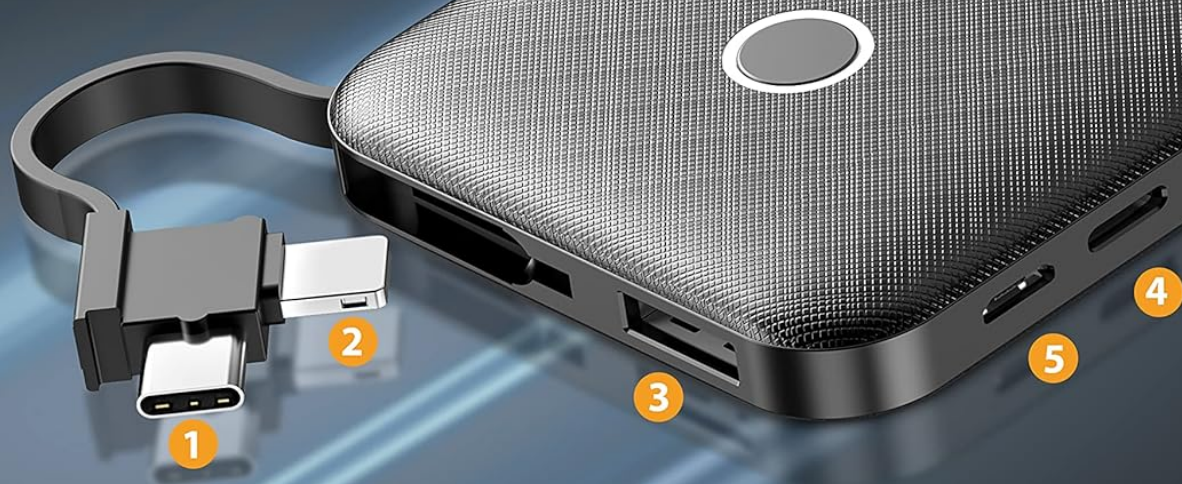

- 1 x Miisso 10000mAh Power Bank
- 1 x Type-C Charging Cable (for recharging the power bank)
- 1 x User's Manual

Video: Unboxing the Miisso 10000mAh Power Bank and its contents. This video demonstrates the items included in the package, such as the power bank, charging cable, and user manual.

PRODUCT OVERVIEW

The Miisso 10000mAh Power Bank is designed for portability and versatility. It features a slim profile and integrated charging cables, making it an ideal travel companion.

MULTIPLE CHARGING PORTS

Output	Input
  	 
1. Type-C Output 1 2. IP Output 2 3. USB Output 3	4. Type-C Input 1 5. Mirco Intput 2

Key Features:

- **Built-in Cables:** Includes integrated cables for both iPhone (Lightning) and Type-C devices, eliminating the need to carry extra cables.
- **Multiple Charging Ports:** In addition to built-in cables, it offers USB-A output, Type-C input/output, and IP input for broad compatibility.

- **Compact and Lightweight:** Its slim design allows for easy portability in pockets, bags, or purses.
- **LED Indicator:** A circular LED indicator shows the remaining battery level and charging status.

SETUP

Charging the Power Bank:

1. Use the provided Type-C charging cable to connect the power bank's Type-C input port to a 5V 3A adapter (not included). The power bank will fully charge within approximately 5 hours.
2. Alternatively, use an IP input cable (not included) to charge the power bank, which takes about 6 hours for a full charge.
3. The LED indicator will show the charging status and remaining battery level.

OPERATING INSTRUCTIONS

Charging Your Devices:

1. **Using Built-in Cables:** Gently pull out the built-in cable from its slot. Select the appropriate connector (Lightning for iPhones or Type-C for Android/other Type-C devices) and plug it into your device.
2. **Using USB-A Output:** For devices requiring a standard USB-A connection, use your device's charging cable and plug it into the USB-A output port on the power bank.
3. **Activating Charging:** Press the power button once to initiate charging. The LED indicator will illuminate to confirm the power bank is active.
4. **Simultaneous Charging:** The power bank supports charging multiple devices at once using its various output options.

Supports 2 Devices Charging at Once

Image: The Miisso Power Bank connected and charging two different devices simultaneously, demonstrating its multi-device charging capability.

Low-Current Mode:

This mode is ideal for charging low-power devices such as Bluetooth earphones, headphones, AirPods, smartwatches, wristbands, alarm clocks, fitness trackers, and gamepads.

- To activate low-current mode, long press the power button for 3-5 seconds.
- Connect your low-current device using the appropriate built-in cable or a USB-A cable.

Video: This video demonstrates how to use the built-in charging cable for various devices and activate the low-current charging mode for smaller electronics like earbuds.

LED Indicator:

- **One-click:** Shows the remaining battery level.
- **Double-click:** Turns off the LED indicator.
- **Long press (3-5s):** Activates low-current mode.

MAINTENANCE

- Keep the power bank away from extreme temperatures, direct sunlight, and moisture.
- Do not drop, disassemble, or attempt to repair the device yourself.
- Clean the power bank with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

Device not charging:

- Ensure the power bank is sufficiently charged. Check the LED indicator.
- Verify that the charging cable is securely connected to both the power bank and your device.
- Press the power button once to activate charging.
- If charging a low-current device, ensure low-current mode is activated.

Power bank not recharging:

- Check the connection of the Type-C charging cable to the power bank and the power adapter.
- Ensure the power adapter is functioning correctly and providing the specified voltage (5V 3A recommended).
- Try a different charging cable or power adapter.

SPECIFICATIONS

Feature	Detail
Model Number	A-10K92

SAFETY INFORMATION

Your safety is a top priority. Please observe the following safety guidelines:

- Do not expose the power bank to water or other liquids.
- Avoid extreme temperatures (hot or cold) and direct sunlight.
- Do not drop, puncture, or disassemble the power bank.
- Keep out of reach of children.
- Dispose of the power bank responsibly according to local regulations.
- The product has passed UL and FCC certifications, ensuring safety during charging.

WARRANTY AND SUPPORT

Miisso products come with a standard manufacturer's warranty. For warranty claims, technical support, or any questions regarding your power bank, please contact Miisso customer service through the retailer where you purchased the product or visit the official Miisso website for contact information.
