2. Product Features

The Qskely 6 L Plastic Storage Containers are designed for versatile organization and storage. Key features include:

- **Durable Transparent Plastic:** Constructed from high-transparency, impact-resistant plastic, allowing for easy identification of contents.
- **Optimal Capacity:** Each container has a 6-liter capacity, suitable for various small items.
- **Integrated Handle:** Equipped with a comfortable gray handle for secure and easy carrying.
- **Sealed Latch Design:** Features clip-on latches that effectively seal the lid, protecting contents from dust and moisture.
- **Versatile Application:** Ideal for organizing items in kitchens, bathrooms, bedrooms, offices, and for arts & crafts.

3. Setup and Initial Use

1. **Unpacking:** Carefully remove all containers from their packaging. Inspect each container and lid for any signs of damage.
2. **Initial Cleaning:** Before first use, wash the containers and lids with mild soap and water. Rinse thoroughly and allow them to air dry completely.
3. **Lid Attachment:** Place the lid squarely on top of the container. Press down firmly on the lid while engaging the two gray latches on the sides until they click securely into place.
4. **Stacking:** The containers are designed to stack securely on top of each other when lids are properly latched, maximizing vertical storage space.

4. Operating Instructions

- **Opening:** To open, gently pull the gray latches outwards and upwards until they disengage from the container base. Then, lift the lid.
- **Closing:** To close, align the lid with the container base and press down. Push the gray latches inwards until they snap securely onto the container's rim. Ensure both latches are fully engaged for a secure seal.
- **Carrying:** Use the integrated gray handle for easy transportation of the container. Ensure the latches are securely fastened before lifting.
- **Storage:** Store items neatly inside the container. The transparent design allows for quick visual identification of contents without needing to open the lid.

5. Maintenance and Care

- **Cleaning:** Wash containers and lids with warm water and mild dish soap. Avoid abrasive cleaners or scouring pads, which can scratch the plastic.
- **Drying:** Allow all parts to air dry completely before reassembling or storing to prevent moisture buildup.
- **Temperature:** Avoid exposing the containers to extreme temperatures, as this may cause warping or damage to the plastic.
- **Chemicals:** Do not use harsh chemicals or solvents, as they can degrade the plastic material.

6. Troubleshooting

These storage containers are designed for simplicity and durability. Should you encounter any minor issues, consider the following:

- **Lid Not Sealing:** Ensure the lid is correctly aligned with the container base and that both latches are fully engaged and clicked into place. Check for any debris on the rim that might prevent a proper seal.
- **Difficulty Stacking:** Ensure all lids are securely latched and that containers are placed squarely on top of each other. Overfilling a container may also affect stability when stacking.
- **Cracked Plastic:** While made from impact-resistant plastic, extreme force or dropping from a significant height can cause damage. If a container is cracked, it may compromise its sealed design and should be replaced.
