

Ring Video Doorbell Wired

Ring Video Doorbell Wired

Model: 1st Generation (2021 Release)

INTRODUCTION

The Ring Video Doorbell Wired provides 1080p HD video surveillance for your front door, offering advanced motion detection, two-way talk, and real-time alerts. This device requires existing doorbell wiring for continuous power and operates on a 2.4 GHz Wi-Fi connection. It integrates seamlessly with the Ring app and compatible Alexa devices to enhance your home security and convenience.

Image: The Ring Video Doorbell Wired, a sleek black device with a blue illuminated button, mounted on a door frame, ready for use.

WHAT'S INCLUDED

Your Ring Video Doorbell Wired package contains the following items:

- Ring Video Doorbell Wired unit
- Installation tools and screws
- User manual (this document)
- Quick start guide
- Security stickers

SETUP AND INSTALLATION

The average installation time for the Ring Video Doorbell Wired is approximately 15 minutes. This device requires hardwiring to an existing doorbell system or a compatible transformer.

Power Requirements:

- Existing doorbell system (10-24 VAC, 40VA max, 50/60Hz)
- Ring plug-in adapter

- Compatible transformer (24VDC, 0.5A, 12W)

Note: Halogen or garden-lighting transformers are not compatible. The doorbell will bypass your existing indoor chime; a Ring Chime or compatible Alexa device is required for in-home audio notifications.

Installation Steps:

1. **Turn off power:** Before beginning, ensure the power to your existing doorbell system is turned off at the breaker.
2. **Remove existing doorbell:** Carefully detach your old doorbell button from the wall.
3. **Connect wiring:** Connect the existing doorbell wires to the terminals on the back of the Ring Video Doorbell Wired using the provided tools. Ensure a secure connection.

Uses your existing home wiring
to power doorbell.

Image: A person's hands are shown connecting red and white wires to the terminals on the back of the Ring Video Doorbell Wired, illustrating the hardwiring process.

4. **Mount the doorbell:** Secure the Ring Video Doorbell Wired to your wall using the included screws and anchors.
5. **Restore power:** Turn the power back on at the breaker.
6. **In-app setup:** Download the Ring app, create an account (if you don't have one), and follow the on-screen instructions to connect your doorbell to your 2.4 GHz Wi-Fi network.

OPERATING INSTRUCTIONS

The Ring Video Doorbell Wired offers a range of features to monitor your front door effectively.

Key Features:

- **1080p HD Video:** Enjoy clear, high-definition video of your doorstep, day or night.
- **Live View:** Access a real-time video feed from your doorbell at any time via the Ring app.
- **Two-Way Talk:** Speak to visitors at your door from anywhere using your smartphone or a compatible Alexa device.

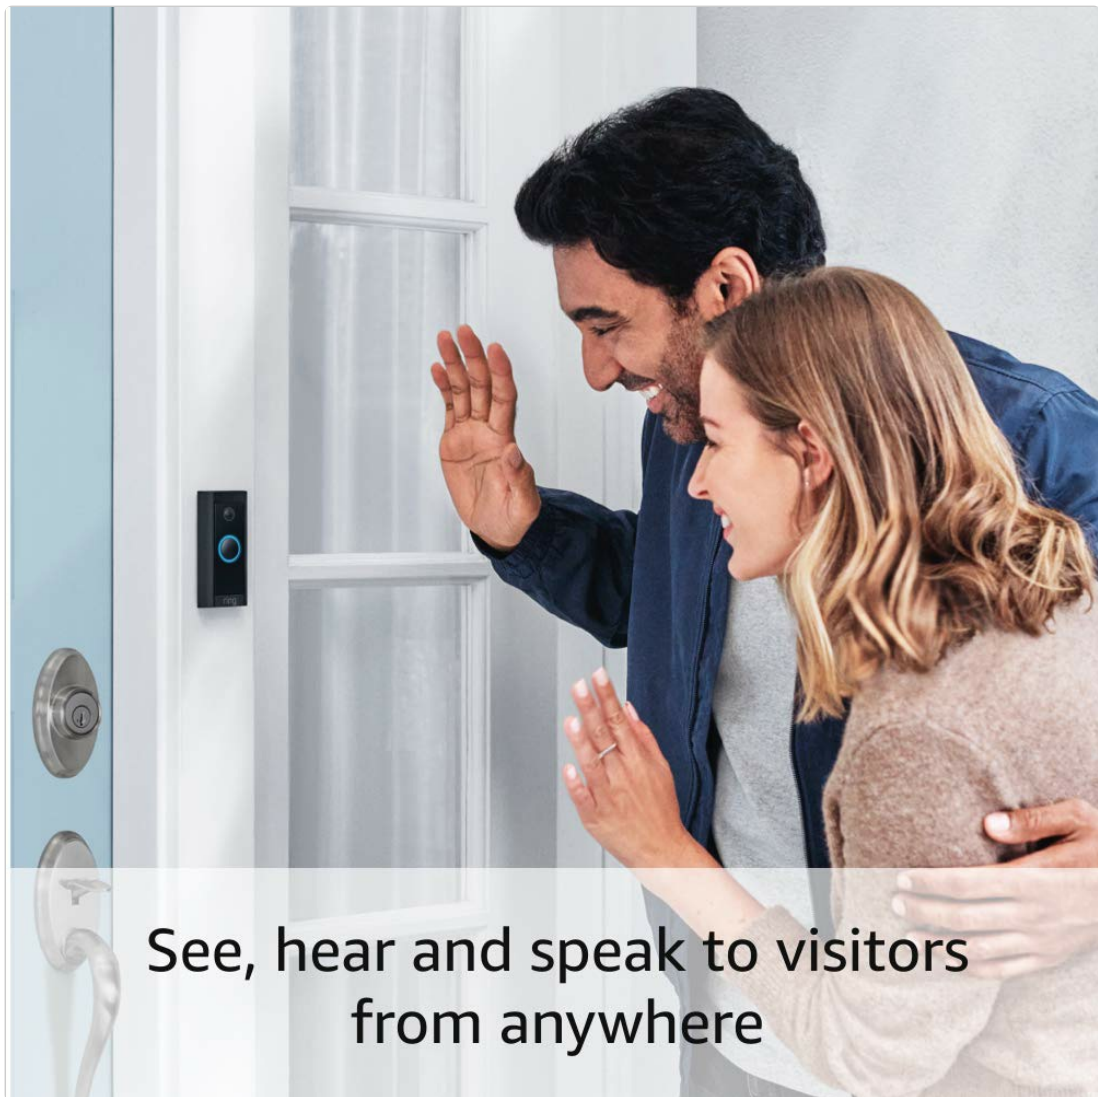

Image: A man and a woman are shown waving at the Ring Video Doorbell Wired, demonstrating the two-way talk feature where users can interact with visitors.

- **Advanced Motion Detection:** Customize motion zones to receive alerts when activity is detected in specific areas.
- **Night Vision:** The doorbell provides sharp contrast night vision, ensuring clear video even in low-light conditions.

Never miss a detail with 1080p HD video, even in the dark

Image: A smartphone screen displays a clear 1080p HD video feed from the Ring doorbell, showing a person holding packages, highlighting the video quality.

- **Real-time Alerts:** Receive instant notifications on your phone when someone rings the doorbell or motion is detected.
- **Alexa Integration:** Connect with Alexa to hear motion alerts on compatible Echo devices or view a Live View on Echo Show, Fire TV, or Fire Tablet. You can also initiate two-way talk via Alexa commands.

"Alexa, talk to the front door."

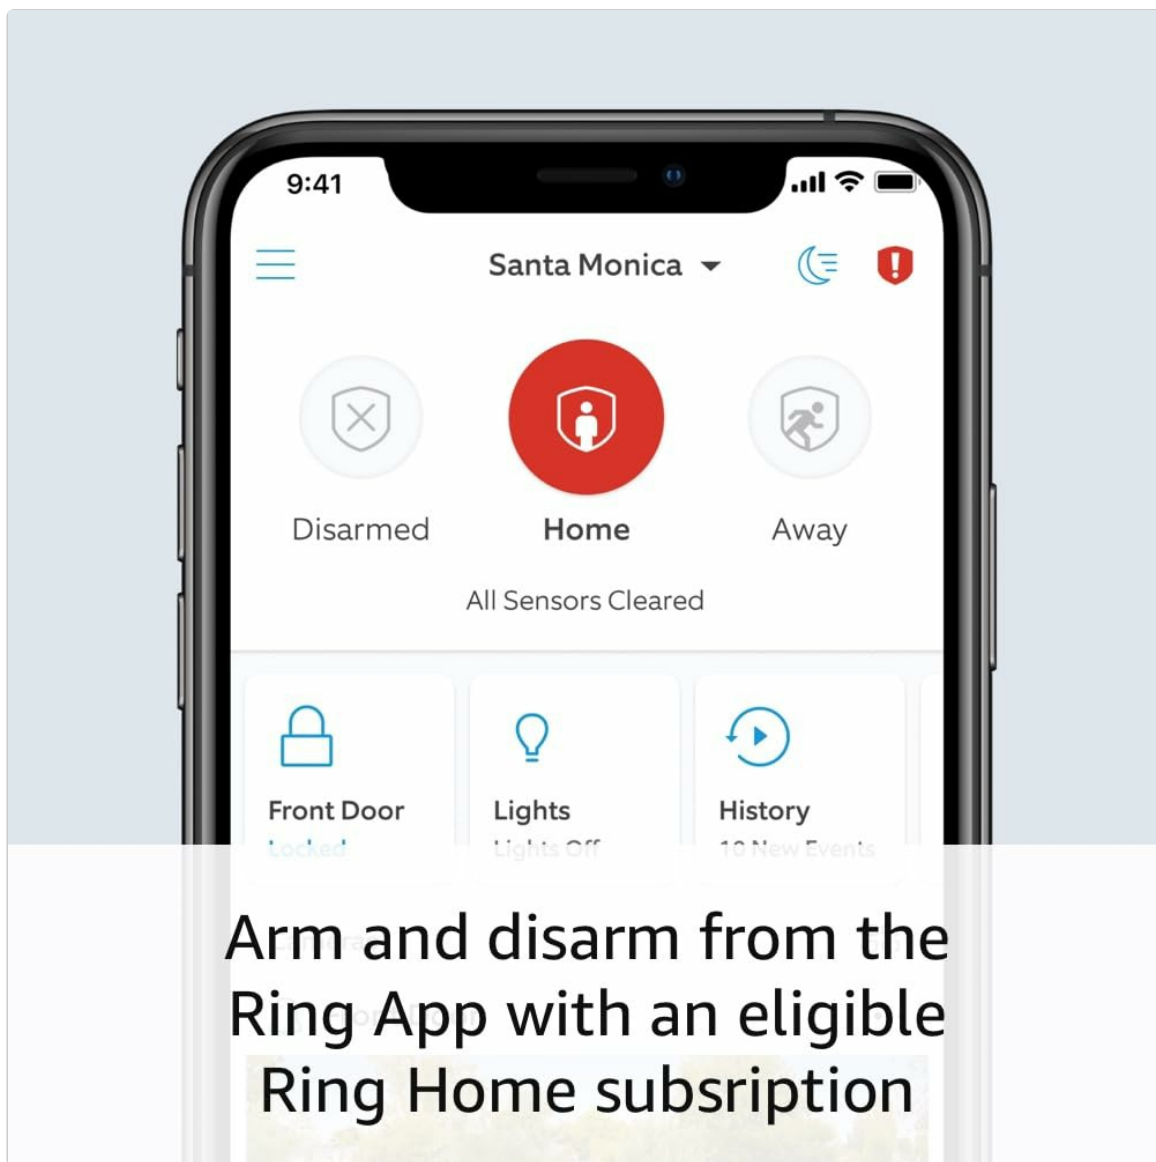

Works with Alexa

Image: An Amazon Echo Show device displays a live video feed from the Ring doorbell, with a text bubble stating "Alexa, talk to the front door.", illustrating Alexa integration.

Ring App Functionality:

The Ring app is your central hub for managing your doorbell. It allows you to:

- View live video and recorded events (with Ring Protect subscription).
- Adjust motion detection settings and privacy zones.
- Manage device settings and user access.
- Arm and disarm your Ring system (with eligible Ring Home subscription).

Arm and disarm from the Ring App with an eligible Ring Home subscription

Image: A smartphone screen displays the Ring App interface, showing options like 'Disarmed', 'Home', 'Away', and quick access buttons for 'Front Door', 'Lights', and 'History'.

MAINTENANCE

To ensure optimal performance and longevity of your Ring Video Doorbell Wired, consider the following maintenance tips:

- **Regular Cleaning:** Periodically wipe the camera lens and the doorbell's exterior with a soft, damp cloth to remove dust and dirt. Avoid abrasive cleaners.
- **Firmware Updates:** Ensure your device's firmware is up to date through the Ring app. Updates often include performance improvements and security enhancements.
- **Weather Resistance:** The doorbell is weather-resistant, designed to operate in temperatures from -4°F to 104°F (-20°C to 40°C). However, extreme weather conditions may temporarily affect performance.
- **Wi-Fi Signal Strength:** Regularly check your Wi-Fi signal strength in the Ring app to ensure a stable connection. A weak signal can impact video quality and alert delivery.

TROUBLESHOOTING

If you encounter issues with your Ring Video Doorbell Wired, try the following solutions:

- **No Power/Device Offline:**

- Verify that the power to your doorbell system is on at the breaker.
- Check the wiring connections at the back of the doorbell to ensure they are secure.
- Confirm your power source meets the required specifications (10-24 VAC, 40VA max, 50/60Hz, or 24VDC, 0.5A, 12W).

- **Poor Video Quality/Connectivity Issues:**

- Ensure your Wi-Fi router is within a reasonable range of the doorbell. Obstructions like thick walls can weaken the signal.
- Check your internet speed. A high-speed internet connection is required for optimal performance.
- Restart your Wi-Fi router and the Ring doorbell (by turning off power at the breaker for a few seconds).
- Confirm your doorbell is connected to a 2.4 GHz Wi-Fi network.

- **Motion Detection Not Working/Too Sensitive:**

- Adjust motion sensitivity and customize motion zones within the Ring app.
- Ensure there are no obstructions blocking the doorbell's field of view.

- **No In-Home Chime Sound:**

- The Ring Video Doorbell Wired bypasses existing mechanical chimes. You need a Ring Chime or a compatible Alexa device for in-home audio alerts.
- Ensure your Ring Chime or Alexa device is properly set up and linked to your doorbell in the Ring app.

SPECIFICATIONS

Video	1080p HD Video, Live View, Night vision
Field of View	155° horizontal, 90° vertical
Motion Detection	Advanced Motion Detection with customizable motion zones
Audio	Two-way audio with noise cancellation
Power	Hardwired (10-24 VAC, 40VA max, 50/60Hz, or 24VDC, 0.5A, 12W)
Internet Requirements	High-speed internet
Connectivity	802.11 b/g/n Wi-Fi connection @ 2.4 GHz
Operating Conditions	-4°F to 104°F (-20°C to 40°C), weather resistant
Dimensions	3.98 in x 1.81 in x 0.88 in (101mm x 45.7mm x 22.4mm)
Generation	Ring Video Doorbell Wired 1st Generation – 2021 Release

WARRANTY AND SUPPORT

Warranty:

The Ring Video Doorbell Wired comes with a **1-year limited warranty**. Use of the Ring Video Doorbell is subject to the terms found on the official Ring website.

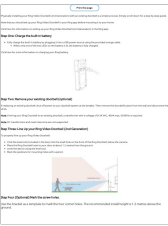

Software Security Updates:

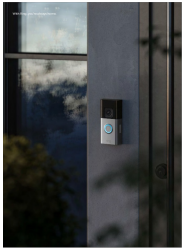

This device receives guaranteed software security updates until at least four years after the device is last available for purchase as a new unit on Ring's websites. For specific information regarding your device, visit the Software Security Updates section in the Ring Control Center.

Support:

For additional information, troubleshooting guides, and customer assistance, please visit the official Ring Video Doorbell Wired support page on the Ring website. You can typically find this by searching for "Ring Video Doorbell Wired support" online.

Ring expands its doorbell line-up with Ring Video Doorbell Wired: Feature-rich in a compact design

With features such as Advanced Motion Detection, Two-Way Talk, HD Video and more, Ring Video Doorbell Wired is full featured home security for just \$99.

Jan. 27, 2021 - Ring, whose mission is to make neighborhoods safer, today announced Ring Video Doorbell Wired, its smallest wired doorbell yet. [Ring Video Doorbell Wired](#) packs a punch in a sleek design with robust features such as HD video, Two-Way Talk, Live View, Advanced Motion Detection, Customizable Privacy Zones, and more.

"Since day one, Ring's focus has been to invent home security solutions that not only meet customer problems, but also make them easier to solve. With Ring Video Doorbell Wired, we pushed the features that matter into a small, compact design, giving customers more choice when it comes to selecting the Ring Video Doorbell that best fits their needs," said Anne Brewster, Ring's founder and Chief Inventor. "And at only \$99, Ring Video Doorbell Wired is a great and affordable option for more people getting started or looking to expand their Rings of Security."

Reliable, Accessible Home Security

Full of features, Ring Video Doorbell Wired is an easy-to-use, affordable solution that connects to existing doorbell wiring and includes everything needed to provide peace of mind when at home or away. Standard features available on Ring Video Doorbell Wired include 1080p HD video with night vision and two-way audio with noise cancellation, offering a clear field of view and the ability to see and speak with visitors from anywhere. Customizable Motion Zones allow customers to create specific zones to trigger alerts and Privacy Zones can be set to block out areas a homeowner does not want to monitor. With those zones set, Advanced Motion Detection sends an alert to the Ring app when movement is detected within a certain distance of Ring Video Doorbell Wired.

Ring Protect Plan subscribers (starting at \$6/month per device) can access additional features like Advanced Pre-Roll, a six-second video preview that shows what triggered a motion alert at the door. Other features include People Only Mode, a video motion alert sent only when human beings are detected, and Rich Notifications, which show a snapshot preview of what's happening in real time before opening the Ring app.

Simple Control in One App

Once installed, Ring Video Doorbell Wired is easy to use and customers have complete control over their experience within the Ring app. Customers can set their notification preferences, create their Customizable Motion and Privacy Zones, and also quickly connect other Ring cameras, Ring Chimes and Ring Alarm to create an integrated whole-home security system and monitor what's happening from anywhere. Ring Video Doorbell Wired is also compatible with select Alexa-enabled devices. Simply ask Alexa to "show me the Ring Video Doorbell Wired" or "show me the front door" to see Live View on your Alexa device or say "Alexa, look at the front door" to begin speaking with whoever is at the door.

Ring Video Doorbell Wired el nuevo video timbre de Ring más asequible hasta la fecha

Ring lleva el nuevo video timbre de diseño compacto que contiene funciones como la detección avanzada de movimiento, conversación bidireccional o video en alta definición, convirtiéndose en el sistema más avanzado de seguridad integral para el hogar por tan solo \$99.

Barcelona 27 de enero de 2021 - Ring, cuya misión es hacer que los barrios sean más seguros anuncia [Ring Video Doorbell Wired](#), su último dispositivo o el video timbre con cable más pequeño hasta la fecha. Es un video timbre más pequeño con un diseño estrecho y con grandes características como video HD, conversación bidireccional, vista en directo, detección de movimiento avanzada, configuración de las Zonas de Privacidad personalizadas y otras nuevas características.

En palabras de Janis Ciminiuff fundadora y jefa inventora de Ring: "Desde el primer día, el objetivo de Ring ha sido inventar soluciones de seguridad para el hogar que resuelvan los problemas de los usuarios. Con Ring Video Doorbell Wired, se han reunido las características más importantes en un diseño pequeño y compacto, optimizado para adaptarse a la forma de seleccionar el video timbre de Ring que mejor se adapte a cada necesidad. Ring Video Doorbell Wired es una opción asequible para los interesados en mejorar en la seguridad del hogar y para aquellos que buscan ampliar su nivel de seguridad con más dispositivos de Ring."

Seguridad para el hogar fiable y asequible

Ring Video Doorbell Wired es un dispositivo fácil de usar que se conecta al cableado existente del timbre normal, incluye todo lo necesario para proporcionar tranquilidad tanto en casa como desde fuera del hogar. Las características de Ring Video Doorbell Wired incluyen video HD de 1080p con visión nocturna y audio bidireccional con cancelación de ruido, lo que ofrece un campo de visión claro y la posibilidad de ver y hablar con los visitantes desde cualquier lugar. También incluye zonas de movimiento personalizadas, que permiten a los usuarios crear zonas específicas para activar las alertas y las zonas de privacidad, que pueden configurarse para bloquear las áreas que el propietario no desea vigilar. Con una cámara configurada, la Detección Avanzada de Movimiento envía una alerta a la aplicación Ring cuando se detecta movimiento dentro de una determinada distancia del Ring Video Doorbell Wired.

Los usuarios suscritos al plan de pago mensual Ring Protect, pueden acceder a funciones adicionales como la función Advanced Pre-Roll, que aporta una vista previa de dos de segundos negativos instantánea lo que proporciona una alerta de movimiento en la puerta. El Modo Solo Personas determina una alerta de movimiento que se envía solamente cuando se detectan seres humanos, instead de que las Notificaciones. Engranajes muestran una vista previa de imágenes instantáneas para ver lo que está ocurriendo en tiempo real antes de abrir la aplicación Ring. La cuota mensual del plan Ring Protect va desde los 2,5€ a los 3€ al mes por dispositivo.

Frequently Asked Questions:

Arlo Essential Video Doorbell Wire-Free

This FAQ applies to the Arlo Essential Video Doorbell Wire-Free (AVD2001).

Installation

Is the Arlo Essential Video Doorbell Wire-Free battery powered?
Yes. The doorbell always operates on battery power. You can also hardwire the doorbell to your existing doorbell chime for continuous trickle charging of the battery. When your doorbell is hardwired, it will run on battery power.

For more information, visit:
[How do I hardwire my Arlo Essential Video Doorbell Wire-Free?](#)

Can I install the Arlo Essential Video Doorbell Wire-Free if I don't have an existing wired doorbell?
Yes. The doorbell is battery powered, and it does not require a connection to any existing doorbell wiring.

What comes with the Arlo Essential Video Doorbell Wire-Free?
When you purchase an Arlo Essential Video Doorbell Wire-Free, you receive the doorbell, a mounting plate, angled mounting plate, a USB power plug, a wall mount screw kit, and optional wire extensions.

Where should I install my Arlo Essential Video Doorbell Wire-Free?
Install your Arlo Essential Video Doorbell Wire-Free about 4 ft to 12 ft (1.2 m) off the ground. The doorbell should be placed so that it has the fullest view of the area leading up to the front entry. This provides the best opportunity to capture motion detection events and video clips that include a person approaching the door.

For more information, visit:
[How should I install my Arlo Essential Video Doorbell Wire-Free?](#)

Can I use my Arlo Essential Video Doorbell Wire-Free without the battery?
No. The battery must always be inserted in the doorbell to operate, even if you hardwire the doorbell to an existing doorbell wiring. When you hardwire the doorbell, you connect it to continuous trickle charging. This means that the battery is used while the doorbell is active, and the battery is gradually charged while the doorbell is inactive.

Home or away, know who's there.

Meet the original Ring Video Doorbell. It's the first doorbell to give you 1080p HD video, motion-activated recording, and two-way talk. So you can see, hear, and speak to anyone at your door. All from the Ring app on your phone.

Never miss a visitor.

Get real-time notifications when motion or sound is detected. Or get alerts when someone rings your doorbell. You can even see who's at your door from your phone. And you can talk to them from your phone. All from the Ring app.

Clear as day. And night.

See what's going on at your door in 1080p HD. And you can see it in color or in black and white. So you can see everything clearly. And you can see it at night. So you can see everything clearly. And you can see it at night. So you can see everything clearly.

Simple setup in minutes

Connect your Video Doorbell to the Ring app and follow the steps to install your doorbell.

Install the new smart wiring (included) or use the old wiring to connect your doorbell to the Ring app.

Link up the doorbell to the Ring app and follow the steps to install your doorbell.

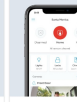

Complete control from the Ring App.

Real-Time Notifications
Receive real-time notifications on your phone and tablet. So you can see who's at your door. And you can see it at night. So you can see everything clearly.

Live View
Get real-time video from your doorbell. So you can see who's at your door. And you can see it at night. So you can see everything clearly.

Connected Devices
Connect your doorbell to your smartphone, tablet, or computer. So you can see who's at your door. And you can see it at night. So you can see everything clearly.

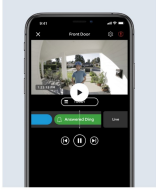

Ring Protect

Don't miss a thing.

Get even more from your Ring doorbell with Ring Protect. So you can see who's at your door. And you can see it at night. So you can see everything clearly.

Record and Capture

- 1080p HD Video
- Photo Stream
- Extended Warranty and 24/7 Support

Works with Ring Video Doorbells

Or use with your Ring Video Doorbell and connect to a variety of compatible devices to create a smart home.

Connect Your Ring of Security
Link your Ring Video Doorbell to your Ring Protect plan. So you can see who's at your door. And you can see it at night. So you can see everything clearly.

Share, share my Ring doorbell
Share your Ring Video Doorbell with your family. So you can see who's at your door. And you can see it at night. So you can see everything clearly.

Open Doors Right From the App
Use the Ring app to open your door. So you can see who's at your door. And you can see it at night. So you can see everything clearly.
