Philips Hue 929002269108

Philips Hue Indoor 6-Foot Smart LED Light Strip Plus Base Kit - User Manual

Model: 929002269108 | Brand: Philips Hue

1. INTRODUCTION

The Philips Hue Indoor 6-Foot Smart LED Light Strip Plus Base Kit offers versatile color-changing and single-color effects, allowing you to create a seamless blend of multiple colors of light simultaneously. This flexible light strip can be placed under or above cabinets, furniture, along hallways, or stairs to enhance ambiance and room decor. It features a premium silicone sleeve that diffuses light for a smooth, reflection-free appearance. Control is intuitive via the Hue App, Bluetooth, or by connecting to a Hue Bridge for expanded smart home capabilities.

2. WHAT'S IN THE BOX

Your Philips Hue Light Strip Plus Base Kit includes the following components:

- 1x BLE Lightstrip (6-feet)
- 1x Power Plug

3. SETUP

Follow these steps to set up your Philips Hue Light Strip Plus:

1. **Prepare the Surface:** Measure the surface where you intend to install the light strip. Ensure the surface is clean and dry to allow for proper adhesion.
2. **Extend the Light Strip (Optional):** If you need a longer strip, you can extend it by connecting additional Philips Hue Light Strip Plus extensions (sold separately). Simply click the ends of the strips together. The strip can be extended up to 33 feet (10 meters).

4. **Apply the Light Strip:** Remove the backing tape from behind the light strip. Carefully press the strip firmly against the prepared surface, ensuring good contact. Avoid bending the strip beyond 90 degrees to prevent damage.
5. **Connect Power:** Plug the light strip into the provided power plug.
6. **Download the Hue App:** Download the Philips Hue app from your device's app store.
7. **Pair with Hue App (Bluetooth):** Open the Hue app and follow the on-screen instructions to pair your light strip via Bluetooth. This allows for instant control of up to 10 lights in one room.
8. **Connect to Hue Bridge (Optional):** For full smart home capabilities, including control from anywhere, automations, and support for up to 50 lights, connect your light strip to a Philips Hue Bridge (sold separately).

4. OPERATING INSTRUCTIONS

The Philips Hue Light Strip Plus offers various control methods and lighting options:

- **Hue App Control:** Use the Philips Hue app on your smartphone or tablet to control your light strip. You can turn lights on/off, dim/brighten, and select from millions of colors and various white light temperatures (warm-to-cool white).

Upgrade with the Hue Bridge

to unlock reliable, full home control

Instant response times and ultra-stable connection.
Easy effortless control -- even when your Wi-Fi is down.
Advanced control and automation options.

 **zigbee**

- **Voice Control:** Set up voice control through the Hue app to use simple voice commands with compatible devices like Amazon Alexa or Google Assistant.
- **Bluetooth vs. Hue Bridge:**
 - **Bluetooth:** Control up to 10 lights in a single room instantly. Ideal for basic control without a bridge.
 - **Hue Bridge (Sold Separately):** Unlock advanced features such as controlling up to 50 lights and accessories, setting automations, and controlling your lights from anywhere in the world. The Hue Bridge also enables compatibility with Apple HomeKit and Matter.

Start with Hue Bridge or Bluetooth

5. MAINTENANCE

To ensure the longevity and optimal performance of your Philips Hue Light Strip Plus, follow these general maintenance guidelines:

- **Cleaning:** Gently wipe the light strip with a soft, dry cloth to remove dust. Do not use liquid cleaners or abrasive materials, as they may damage the silicone sleeve or LEDs.
- **Adhesion:** If the adhesive begins to weaken over time, especially in areas with temperature fluctuations, you may reinforce it with additional adhesive strips or mounting clips (not included).
- **Storage:** If removing the light strip for storage, ensure it is clean and stored in a cool, dry place away from direct

sunlight. Avoid sharp bends or kinks that could damage the internal wiring.

6. TROUBLESHOOTING

If you encounter issues with your Philips Hue Light Strip Plus, try the following troubleshooting steps:

- **Light Strip Not Turning On:**
 - Ensure the power plug is securely connected to both the light strip and a working power outlet.
 - Check if the light strip is properly connected to the base kit or extension.
- **Cannot Connect to Hue App (Bluetooth):**
 - Make sure Bluetooth is enabled on your smartphone/tablet.
 - Ensure you are within close proximity to the light strip.
 - Restart the Hue app or your device.
- **Cannot Connect to Hue Bridge:**
 - Verify that your Hue Bridge is powered on and connected to your Wi-Fi router.
 - Ensure the light strip is within range of the Hue Bridge.
 - Try restarting the Hue Bridge.
- **Inconsistent Colors or Sections Not Lighting:**
 - Check for any kinks or sharp bends in the light strip that might be damaging the internal wiring.
 - Ensure all connections between light strip segments or extensions are secure.

For further assistance, refer to the official Philips Hue support resources or contact customer service.
