Setup and Assembly

Assembling your VECELO Platform Bed Frame is designed to be straightforward, with all required tools and parts included in the package. An adult can typically complete the assembly in under an hour.

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the included assembly instructions to identify each part. Ensure all pieces are present before beginning.
2. **Assemble Headboard and Footboard:** Attach the wooden headboard and footboard sections to their respective metal frames. The design features foldable frames for the mid-section and side rails, simplifying the process.

3. **Connect Side Rails:** Connect the side rails to the headboard and footboard sections. The upgraded structure with snap-in slats means fewer screws are needed for this step.
4. **Install Support Legs:** Attach the central support legs to the frame. These provide additional stability and weight distribution.
5. **Place Slats:** Position the metal slats across the frame. The slats are designed to snap into place, providing robust support for your mattress without the need for a box spring.
