Beurer UHP24

Beurer Small Ultra-Soft Heating Pad UHP24 Instruction Manual

1. Introduction

This manual provides essential information for the safe and effective use of your Beurer Small Ultra-Soft Heating Pad, Model UHP24. Please read all instructions carefully before first use and retain this manual for future reference.

Product Overview

The Beurer UHP24 Heating Pad is designed to provide comforting warmth for various body areas, offering relief from muscle tension and minor aches. Its compact size makes it suitable for targeted application on the neck, elbow, knee, shoulder, and back.

Key Features

- **Extra Soft Fabric:** Made from breathable and skin-friendly material for enhanced comfort.
- **6 Temperature Settings:** Allows for personalized heat intensity.
- **Machine Washable:** The heating pad fabric is washable after detaching the control unit.
- **Automatic Shut-Off:** Features an auto shut-off function after approximately 2 hours for safety.
- **Overheat Protection:** Integrated safety system to prevent overheating.

2. Important Safety Information

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- DO NOT DRY CLEAN the heating pad.
- DO NOT USE BLEACH on the heating pad.
- DO NOT USE A WRINGER on the heating pad.
- DO NOT IRON your heating pad.
- Always disconnect the heating pad from the power outlet when not in use or before cleaning.
- Do not use the heating pad on infants, persons with reduced physical, sensory, or mental capabilities, or persons insensitive to heat.
- Avoid folding or creasing the heating pad excessively during use to prevent localized overheating.

- Regularly inspect the heating pad and power cord for any signs of wear or damage. If damaged, discontinue use and contact customer support.

3. Setup

Before using your heating pad, follow these simple setup steps:

1. Unpack the heating pad and control unit from its packaging.
2. Ensure the control unit is securely connected to the heating pad. The connector should click firmly into place.
3. Place the heating pad on a flat, dry surface or directly on the desired body area. Ensure it is not folded or bunched up.
4. Plug the power cord into a standard electrical outlet.

4. Operating Instructions

The Beurer UHP24 Heating Pad is designed for ease of use. Follow these steps to operate your device:

Power On and Temperature Selection

1. After plugging in the heating pad, slide the switch on the control unit to turn it on.
2. Select your desired heat level by moving the temperature slider to settings 1 through 6. Setting 1 is the lowest heat, and 6 is the highest.
3. The heating pad will begin to warm up. Allow a few minutes for it to reach the selected temperature.

5. Care and Maintenance

Proper care and maintenance will extend the life of your heating pad.

Cleaning Instructions

1. Always detach the control unit from the heating pad before cleaning.

2. The heating pad fabric is machine washable. Place it in a washing machine on a delicate cycle with mild detergent.
3. After washing, the heating pad can be tumble dried on a delicate setting. Ensure it is completely dry before reattaching the control unit or storing.
4. The control unit should be wiped clean with a damp cloth. Do not immerse the control unit in water.

Storage

When not in use, store the heating pad in a cool, dry place. Avoid placing heavy objects on top of it, which could damage the internal heating elements.

6. Troubleshooting

If you encounter issues with your Beurer UHP24 Heating Pad, please refer to the following common troubleshooting steps:

- **No Heat/No Power:**

- Ensure the power cord is securely plugged into a working electrical outlet.
- Verify that the control unit is firmly connected to the heating pad.
- Check if the temperature setting is selected (not on 'off').

- **Pad Feels Too Hot/Not Hot Enough:**
  - Adjust the temperature setting on the control unit to a higher or lower level as needed.
  - Allow sufficient time for the pad to reach the selected temperature.

- **Automatic Shut-Off Occurs Too Soon:**
  - The auto shut-off is designed to activate after approximately 2 hours. This is a safety feature.
  - If it shuts off significantly earlier, ensure the pad is not excessively folded or covered in a way that could trigger the overheat protection prematurely.

If the issue persists after attempting these steps, please contact Beurer customer support for further assistance.

7. Specifications
