- **Storage:** Store the earbuds in their charging case when not in use to protect them and keep them

charged.

Troubleshooting

Earbuds not pairing:

Ensure both earbuds are charged. Place them back in the case, close it, then open it again to re-enter pairing mode. Check your device's Bluetooth settings and try reconnecting.

Only one earbud working:

Try resetting the earbuds. Place both earbuds in the charging case, then remove them. If the issue persists, refer to the full reset instructions (if available in the physical manual).

No sound or low volume:

Check the volume levels on both your device and the earbuds. Ensure the earbuds are properly seated in your ears. Try cleaning the earbud mesh for any obstructions.

Charging issues:

Verify the charging cable and adapter are working. Ensure the charging contacts on both the earbuds and case are clean and free of debris.
