UGREEN 80887

UGREEN USB SD Card Reader Instruction Manual

Model: 80887

1. INTRODUCTION

Thank you for choosing the UGREEN USB SD Card Reader. This device is designed to provide fast and reliable data transfer between your memory cards and computer. Its compact and durable design makes it an ideal accessory for photographers, videographers, and anyone needing quick access to their digital media.

2. PRODUCT OVERVIEW

The UGREEN USB SD Card Reader (Model 80887) features a robust aluminum shell and a braided nylon cable for enhanced durability and heat dissipation. It includes dedicated slots for SD and Micro SD (TF) cards, allowing for simultaneous reading and writing.

3. KEY FEATURES

- **Faster USB 3.0 Transmission:** Supports up to 5Gbps data transfer rate, 10x faster than USB 2.0, and backwards compatible with USB 2.0/1.1. Equipped with a GL3224 smart chip for secure and stable data transmission.
- **Simultaneous Reading & Writing:** Capable of reading and writing SD/microSD cards concurrently. Compatible with SD, SDHC, SDXC, Micro SD, Micro SDHC, and Micro SDXC cards up to 2TB storage capacity.
- **Easy to Use:** Plug and play functionality, requiring no drivers for Windows 11/10/8/7/XP/Vista, macOS, Chrome OS, Linux, and other operating systems. Works seamlessly with computers, laptops, and PCs featuring a USB-A port.
- **Premium Aluminum Materials:** Features a durable aluminum-alloy case and a nylon braided cable, offering superior heat dissipation and extended lifespan.
- **Conveniently Portable:** Ultra-slim and compact design for easy portability, making it an ideal travel

companion for use with cameras, digital cameras, trail cameras, dashcams, and drones.

4. SETUP

Setting up your UGREEN USB SD Card Reader is straightforward due to its plug-and-play design.

1. Locate an available USB-A port on your computer, laptop, or PC.
2. Insert the USB-A connector of the UGREEN card reader into the USB port.
3. Your operating system will automatically detect the device. No additional drivers are required.

Your browser does not support the video tag.

Video: This video demonstrates the ease of use of the UGREEN USB SD Card Reader, showing how to insert a Micro SD card into a camera, then remove it and insert it into the UGREEN reader, which is then plugged into a laptop for quick data transfer. It highlights the plug-and-play functionality and the compact design.

5. OPERATING INSTRUCTIONS

The UGREEN USB SD Card Reader allows for efficient data management from your memory cards.

1. **Insert Memory Card:** Gently insert your SD card into the SD slot or your Micro SD (TF) card into the TF slot. Ensure the card is inserted correctly with the contacts facing down. The reader supports simultaneous use of both slots.
2. **Access Data:** Once inserted and connected to your computer, the memory card will appear as a removable drive. You can then access, copy, move, or delete files as you would with any other storage device.
3. **Data Transfer:** Drag and drop files between your computer and the card reader. The USB 3.0 interface ensures high-speed data transfer for large files, such as high-resolution photos and videos.
4. **Eject Safely:** Before disconnecting the card reader or removing the memory card, always safely eject the device from your operating system to prevent data corruption.

The image features a silver laptop with a black keyboard. A black braided cable connects the laptop's USB port to a black UGREEN card reader. A blue arrow points from the card reader towards the laptop, with the text "5Gbps" written in white on it. Below the card reader, two memory cards are shown: a red SanDisk Ultra 64GB SD card and a black SanDisk Ultra 64GB microSD card. At the bottom left, there are two horizontal bars representing data transfer speeds: a blue bar for "USB 3.0" with "5 Gbps" written at its end, and a grey bar for "USB 2.0" with "480 Mbps" written at its end. The UGREEN logo is visible on the card reader.

USB 3.0 5 Gbps

USB 2.0 480 Mbps

5Gbps Faster Transmission

6. MAINTENANCE

To ensure the longevity and optimal performance of your UGREEN USB SD Card Reader, follow these simple maintenance guidelines:

- Keep the device clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the reader to extreme temperatures, humidity, or direct sunlight.
- Do not bend or twist the cable excessively, as this can damage the internal wires.
- Store the reader in a safe place when not in use to prevent physical damage.

7. TROUBLESHOOTING

If you encounter issues with your UGREEN USB SD Card Reader, try the following troubleshooting steps:

- **Device Not Recognized:**

- Ensure the card reader is firmly plugged into a working USB port.
- Try a different USB port on your computer.
- Restart your computer.
- Check if the memory card is inserted correctly and fully into the reader.
- Test the memory card in another device to ensure it is not faulty.

- **Slow Transfer Speeds:**

- Ensure you are connected to a USB 3.0 port (often blue-colored inside). If connected to a USB 2.0 port, speeds will be limited to USB 2.0 specifications.
- Verify that your memory card supports high-speed data transfer (e.g., UHS-I).
- Close other applications that might be using system resources or performing background data transfers.

- **Cannot Read/Write Card:**

- Ensure the memory card is not write-protected (check for a small lock switch on SD cards).
- Try formatting the card (**Note:** This will erase all data on the card. Back up important files first).
- Ensure your operating system is up to date.

8. SPECIFICATIONS

Attribute	Detail
Brand	UGREEN
Series	Micro SD Card Adapter
Model Number	80887
Hardware Platform	PC, Mac
Operating System Compatibility	Linux, Chrome OS, Mac OS X 10.2 Jaguar and later, Windows
Item Weight	1.41 ounces
Product Dimensions (LxWxH)	1.77 x 1.34 x 0.43 inches
Color	Grey
Voltage	5 Volts
Media Type Supported	microSDXC, microSD, SDHC, SDXC, SD Card
Connectivity Technology	USB 3.0
Special Feature	Plug & Play, Compact
Manufacturer	UGREEN GROUP LIMITED
First Available Date	November 12, 2020

9. WARRANTY AND SUPPORT

UGREEN products come with a standard warranty. For detailed warranty information, technical support, or customer service inquiries, please visit the official UGREEN website or contact their customer support team directly. Please retain your purchase receipt for warranty claims.
